Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-602/92-01; 50-192/92-01

This refers to the inspection conducted by Messrs. J. Gagliardo of this office and A. Adams of the Office of Nuclear Reactor Regulation during the period of February 10-13, 1992, and by Messrs. A. D. Gaines and R. E. Baer of this office during the period March 2-6, 1992, of activities authorized by NRC Facility License Nos. R-129 and R-92 for the University of Texas facilities located at Taylor Hall and the Balcones Research Center, and to the discussion of our findings with you and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included preparation for initial criticality, reactor operations, radiation protection, emergency preparedness, special nuclear materials accountability, radioactive material transportation, and physical security programs. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspectors. The inspection findings are documented in the enclosed inspection report.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be placed in the NRC Public Document Room. However, in accordance with 10 CFR Part 2.790(d), the documentation enclosed concerning your Physical Security Plan (Attachment 1 to the Appendix) is exempt from disclosure. Therefore, this Attachment will not be placed in the Public Document Room.
