License No. NPF-42

Wolf Creek Nuclear Operating Corporation
ATTN: Bart D. Withers
President and Chief Executive Officer
P.O. Box 411
Burlington, Kansas 66839

Gentlemen:

Thank you for your letter of February 28, 1992, that provided your confirmation of actions that Wolf Creek Nuclear Operating Corporation (WCNOC) planned to take prior to restart of the plant following the noise event of the same date. These actions were agreed upon as the result of discussions between Mr. P. Gwynn of NRC Region IV and Mr. J. Bailey of your staff.

In this letter, members of your staff committed to brief the NRC on the results of your investigation into the cause of this event. You and your staff conducted these briefings in the form of two technical presentations that were presented on March 24, 1992, at NRC Headquarters in Rockville, Maryland, and at the WCNOC site on March 26, 1992.

As the result of your technical presentations and our own ongoing NRC inspection into this event, on March 26 you were given verbal NRC concurrence with your plans for restart of the plant. This memorandum provides documentation of that concurrence. Thank you and your staff for the excellent support and cooperation provided to the NRC staff during the event investigation.
