ATTN: Mr. George W. Davis
Senior Vice President - Nuclear
Pilgrim Nuclear Power Station
RFD #1 Rocky Hill Road
Plymouth, Massachusetts 02360

Dear Mr. Davis:

Subject: Inspection Report No. 50-293/91-15

This refers to the routine safety inspection conducted by Ms. L. Peluso of this office on July 8-12, 1991, at the Pilgrim Site, Plymouth, Massachusetts, and at the Yankee Atomic Environmental Laboratory, Framingham, Massachusetts, of activities authorized by NRC License Number DPR-35 and to the discussions of our findings held by Ms. L. Peluso with Mr. Anderson and others of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Within the scope of this inspection, the use of the Master Surveillance Tracking Program is noteworthy in ensuring that required environmental sampling and analyses are scheduled and tracked to completion. We found that the Radiological Environmental Monitoring Program has been effectively implemented. No deficiencies or violations were identified.

No reply to this letter is required. Your cooperation with us in this matter is appreciated.

Sincerely,

Original Signed By:
