

SAXTON NUCLEAR EXPERIMENTAL CORPORATION

Docket No. 50-146

License DPR-4

Addendum to Change Request No. 32

1. In support of Change Request No. 32, submitted August 27, 1968 for change of the License No. DPR-4 Technical Specifications, Applicant submitted a report entitled "Safeguards Report for Saxton Core III" dated August, 1968. Page 2.4-6 of the Safeguards Report referenced a Westinghouse Electric Corporation document which was not submitted with Change Request No. 32.
2. Applicant hereby submits the above referenced Westinghouse Electric Corporation Document No. WCAP-7219 dated July, 1968 (a Westinghouse Confidential Report) as an Addendum to Change Request No. 32.
3. Pursuant to Section 2.790(b) of the Commission's Rules of Practice, Applicant hereby requests that the foregoing document, WCAP-7219, be withheld from public disclosure. This document contains Westinghouse Electric Corporation proprietary information related to advanced PWR fuel design and fuel design concepts. More particularly, the proprietary information contained in this document gives details of advanced fuel design concepts being considered by Westinghouse and gives specific design data related to such concepts. This proprietary information was obtained through extensive research and development efforts conducted at considerable expense to Westinghouse. The disclosure of this information to the public would therefore adversely affect the proprietary interests of Westinghouse, Applicant's fuel supplier.

The information contained in this document has been summarized in a non-proprietary manner in Change Request No. 32. This summary together with additional non-proprietary information generated in the course of the licensing review of the Change Request will provide a sufficient basis for the findings required for issuance of an amendment to the operating license. Therefore, disclosure of the contents of the subject document is not required in the public interest.

SAXTON NUCLEAR EXPERIMENTAL CORPORATION
