

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

July 23, 1991

ERRATA SHEET

Report Number: NUREG-1394, Rev. 1

Report Title: Emergency Response Data System (ERDS) Implementation

Prepared by: J. Jolicœur
Office for Analysis and Evaluation of Operational Data

Date Published: June 1991

Instructions:

Please make the following pen and ink changes to page 6 and page A-1.

On page 6:

In the first line, insert "near" before "real time data". The first line will then read, "As an ERDS participant, the licensee is expected to provide a near real time data stream of data...."

On page A-1:

In the first line of "Hardware Requirements" add "s" to "consist" and insert "the required hardware" between "and" and "consists". The first line will then read, "Accomplishing the hardware interface for the ERDS is straightforward and the required hardware consists of standard off-the-shelf components."
