G9.8.9

Mr. Harold R. Denton
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Denton:

River Bend Station - Unit 1
Docket No. 50-458

Enclosed are sixty (60) copies of Amendment 12 to the Final Safety Analysis Report (FSAR) for River Bend Station (RBS) and forty (40) copies of the separate Environmental Qualification Document (EQD).

This amendment provides text changes to the RBS environmental and seismic qualification programs (FSAR Sections 1.8, 3.7, 3.9A, 3.9B, 3.10A, 3.10B, 3.11, 6.3, App. 6A, 7.1, 7.5 and 8.3). The EQD was previously submitted as part of the FSAR. This submittal removes the EQD from the FSAR and provides it as a separate document in support of FSAR Section 3.11.

Sincerely,

J. C. Deddens
Vice President
River Bend Nuclear Group
