Dear Ms. Weiss:

By letter dated March 22, 1984, you inquired as to our course of action in light of the offsite emergency preparedness deficiencies identified by FEMA Region III during the November 16, 1983 full-scale exercise for Three Mile Island. As you may be aware, the final exercise report for that exercise was provided to GPU Nuclear under letter from Thomas T. Martin (NRC Region I) dated February 10, 1984. That report presented the findings of FEMA Region III. As indicated by the enclosed memorandum, these findings along with the State's response and schedule of corrective actions are being evaluated by FEMA (Headquarters). FEMA has not yet completed its evaluation. When FEMA (Headquarters) provides the results of its evaluation, we will make our findings and take whatever action may be appropriate.

Sincerely,

*15*  
John F. Stolz, Chief  
Operating Reactors Branch No. 4  
Division of Licensing
