

APPENDIX A
NOTICE OF VIOLATION

GPU Nuclear Corporation
Three Mile Island Nuclear Generating Station - Unit 1

Docket No. 50-289
License No. DPR-50

During an NRC inspection conducted on February 2, 1992 - March 7, 1992, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C, the violation is listed below:

- A. Technical Specification 6.8.1 requires that written procedures be established, implemented and maintained for the applicable procedures recommended in Appendix "A" of Regulatory Guide 1.33, Revision 2, February 1978.

Appendix "A" of Regulatory Guide 1.33, Revision 2, February 1978, step 9.a, states that maintenance that can affect the performance of safety-related equipment should be properly pre-planned and performed in accordance with written procedures.

Corrective Maintenance Procedure 1440-Y-3, rev. 8, "Scaffolding Construction/ Inspection," step 8.16, requires that the Operations Department sign the scaffold inspection tag to verify that the scaffold will not endanger ESAS equipment or operation.

Contrary to the above, on February 6, 1992, the inspector noted that scaffolding in the spent fuel pool cooler area had been installed since January 17, 1992, and had not received its Operations Department inspection.

This is a Severity Level V violation (Supplement I).

Pursuant to the provisions of 10 CFR 2.201, GPU Nuclear Corporation is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region I, and a copy to the NRC Resident Inspector, within 30 days of the date of the letter transmitting this Notice of Violation. This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. Where good cause is shown, consideration will be given to extending the response time.
