Gentlemen:

SUBJECT: DOCKET NOS. 50-338 AND 50-339

This acknowledges the receipt of your letter of February 21, 1992, which transmitted Revision 27 to the North Anna Physical Security Plan.

Our review of the changes has found them to be consistent with the provisions of 10 CFR 50.54(p). Accordingly, they are acceptable for inclusion into the plan.

As discussed in a teleconference on March 27, 1992, between Ms. O. Masnyk of the NRC and Mr. D. Jenkins of Virginia Power, several portions of this submission require clarification. Section 1.5.1 needs to indicate that employee training is accomplished annually. Previous commitments or equivalent measures need to be reincorporated into Sections 2.5, 4.3.2, 8.4.1, 8.4.2, and 8.7.3. Section 3.2 needs editorial clarification to read that all elements of Regulatory Guide 5.66 dealing with access authorization are implemented. Section 7.3 needs additional information to ensure that security is not diminished in the event of construction activity.

The enclosure to your letter is being withheld from public disclosure because it contains Safeguards Information and must be protected in accordance with the provisions of 10 CFR Part 73.21.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

Douglas M. Collins, Chief
Nuclear Materials Safety and
Safeguards Branch
Division of Radiation Safety
