Docket No. 50-322-OL

SUFFOLK COUNTY'S APPLICATION FOR ISSUANCE OF SUBPOENA

Suffolk County hereby requests the Presiding Officer of this Licensing Board to issue a subpoena under 10 C.F.R. §2.720 to command the testimony by deposition of Harold V. Schilling, a former employee of Transamerica Delaval Inc. ("TDI"). Counsel for TDI has orally represented that Mr. Schilling will not voluntarily appear for deposition. The deposition of Mr. Schilling is expected to produce information of general relevance to the issues in this proceeding.

Mr. Schilling was employed by TDI as a Failure Analysis Engineer. According to documents obtained by Suffolk County pursuant to discovery, for several years Mr. Schilling performed numerous failure analyses of components on TDI Series R-4 diesel engines. For example, Mr. Schilling performed failure analyses of cracked cylinder heads on the M.V. Gott, the cracked cylinder blocks on the M.V. Columbia, and the jacket water pump shaft failure at the Shoreham Nuclear Power Station. Thus,

Mr. Schilling's demonstrated familiarity with failed TDI diesel engine components appears to be of general relevance to the County's contentions as to the inadequacy of the design and manufacture of the TDI diesels. Accordingly, the County proposes to depose Mr. Schilling on his failure analysis work as it relates to the adequacy of the design, and the quality and reliability of the manufacture, of the TDI Series R-4 diesel engines and their components.

CONCLUSION

For the foregoing reasons, the deposition of Harold V. Schilling will produce information of "general relevance" to the issues in this proceeding. As Mr. Schilling will not appear for deposition voluntarily, Suffolk County requests this Board to issue a subpoena requiring Mr. Schilling to appear and give his deposition in this proceeding.

Respectfully submitted,
