Attn: A. B. Davis

Dear Mr. Davis:

The attached Revision 22 to the MASP is submitted in accordance with 10 CFR 50.54(p). The revision amends the Physical Security Plan to delete existing references to background screening requirements and commit to implementation of all elements of Regulatory Guide 5.66, dated June 1991, to satisfy the requirements of 10 CFR 73.56.

A second change to the MASP is the addition of a list of effective pages. Details of changes are found in Attachment 1 to this letter. These changes do not decrease the effectiveness of the security plan.

This document has been prepared following Corporate procedures that incorporate a reasonable set of controls to ensure its accuracy and completeness prior to signature by the undersigned.
