

JUN 12 1981

MEMORANDUM FOR: R. C. Lewis, Acting Director, RRPI
FROM: J. Y. Vorse, Regional Investigator, EIS
SUBJECT: ALLEGATIONS REGARDING INADEQUATE QC PRACTICES, INSPECTOR
QUALIFICATIONS AND HANDLING OF NCRS AT SHEARON HARRIS -
(REFERENCE CASE 2F017)

This refers to our conversation on June 10, 1981, regarding the workers' concerns as outlined in the enclosures. It is my understanding that the resident inspector, George Maxwell, will address concerns 4 and 5 in the Statement of Concerns-2F017A and both concerns in Statement of Concerns-2F017B.

Inasmuch as Maxwell indicated one of the alleged is expected to be terminated from employment in the very near future and has a propensity to be extremely vocal, possibly to the extent that he may go to the media, an expeditious inquiry into his allegations may be prudent.

Please ensure the EIS is provided with two copies of any pertinent documentation generated by Maxwell regarding this matter.
