Docket No. 50-254
Docket No. 50-265

Commonwealth Edison Company
ATTN: Mr. Cordell Reed
Senior Vice President
Opus West III
1400 Opus Place
Downers Grove, IL 60515

Dear Mr. Reed:

This refers to the inspection conducted by Mr. T. J. Madeda of this office between February 10 and March 17, 1992. This inspection included a review of activities authorized for your Quad Cities Nuclear Power Plant. At the conclusion of this inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

Based on the results of this inspection, certain of your activities appeared to be in violation of NRC requirements, as specified in the enclosed Notice of Violation (Notice). The violation is of concern because licensee Fitness-For-Duty management personnel were aware of the incident and failed to adequately implement Fitness-For-Duty regulatory requirements.

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions taken and any additional actions you plan to prevent recurrence. After reviewing your response to this Notice, including your proposed corrective actions and the results of future inspections, the NRC will determine whether further NRC enforcement action is necessary to ensure compliance with NRC regulatory requirements.

Areas examined during this inspection concern a subject matter which is exempt from disclosure according to Part 73, Title 10, Code of Federal Regulations, Section 73.21(c)(2). This information must be handled and protected in accordance with the provisions of 10 CFR 73.21. Consequently, our report of the inspection will not be placed in the NRC Public Document Room. The enclosed Notice of Violation (Notice) will be placed in the NRC Public Document Room. Therefore, your statement of corrective action regarding the violation identified in the enclosure should be submitted in the manner prescribed.
