ACRS (10)	

Dear Mr. Stewart:

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION/SETTLEMENT MONITORING PROGRAM FOR CLASS I STRUCTURES - NORTH ANNA POWER STATION, UNITS NO. 1 AND NO. 2 (NA-1&2) (TAC NOS. M82916 AND M82917)

By letter dated March 31, 1992, the NRC provided its Safety Evaluation (SE) regarding your submittals dated March 10, 1988 and March 23, 1989 for the subject as noted above. We also indicated your submittal dated October 2, 1989 (same subject) was under active review and scheduled for completion by May 30, 1992.

In order to meet our scheduled completion date of your NA-1&2 settlement monitoring program for Class I structures, we request that the latest survey data covering all of the markers affected by your submittal be provided as a supplement to your October 2, 1989 amendment request. We also request that the additional information be provided for our review within 30 days of receipt of this letter, or more expeditiously, if possible, in order that we can complete this matter by May 30, 1992. Finally, any correspondence regarding these matters should identify TAC Nos. M82916 and M82917.

This requirement affects fewer than 10 respondents and, therefore, is not subject to Office of Management and Budget review under P.L. 96-511.

Sincerely,

/s/
 Leon B. Engle, Project Manager
 Project Directorate II-2
 Division of Reactor Projects - 1/II
 Office of Nuclear Reactor Regulation
