Midland, MI 48640

Dear Ms. Sinclair:

As you know, we have begun the onsite inspection of the Zack Company's activities at Midland. The inspection effort includes a detailed review of affidavits and statements which contain items of concern expressed by present and past employees at the Midland facility. This review will enable us to effectively conduct an onsite inspection of the individuals' concerns where appropriate.

In your letter of April 18, 1983 to Mr. Keppler, you passed on to us concerns of an anonymous worker at the Midland site regarding engineering design activities by Zack. Since the information in your letter is very general, we contacted you to request that you ask the anonymous individual to supply us with further details. In a conversation with Mr. J. J. Harrison of this office on August 3, 1983, you indicated that you had no way to contact the individual, but would advise him to contact us when you are next telephoned by him.

At the present time, the information in your letter is too general to pursue by an inspection; therefore, we can take no further action on this matter. Should the individual contact us and provide greater details, we will pursue his concerns. Please contact Mr. Duane Danielson (312-932/2610) of my staff with any questions you may have.

Sincerely,

"Original Signed by R. L. Spessard"
