

AUG 24 1983

Docket No. 50-329
Docket No. 50-330

Consumers Power Company
ATTN: Mr. James W. Cook
Vice President
Midland Project
1945 West Parnall Road
Jackson, MI 49201

Gentlemen:

This refers to a telephone discussion between Mr. D. Miller of your staff and me on August 24, 1983, and documents the matters discussed.

Region III has begun a special inspection of The Zack Company's present and past construction activities at Midland and included in this effort is a review of concerns brought to our attention by former Zack employees. This special inspection effort is intended to provide us additional confidence that the installed HVAC systems and components at the Midland plants are acceptable and that you are implementing an adequate QA program with regard to ongoing HVAC activities.

One facet of this effort involves a materials sampling program covering installed HVAC ductwork and hangers from six safety-related systems and from stock materials. Although our sampling program is still being developed, we expect that approximately 60 samples will be taken. These samples will be taken under our direction and will be sent to an independent laboratory for analysis to verify chemical compositions and strength in accordance with the material specification requirements. The cost of these analyses will be funded by the NRC.

For your information, and to help you coordinate your efforts in assisting us during the sampling process, we plan to implement this program at Midland during the week of August 29, 1983. Please contact Mr. Duane Danielson of my staff (312/932-2610) if you have further questions regarding this matter. We appreciate your cooperation.

Sincerely,

Original signed by R. L. Spessard
