Docket No. 50-298

Mr. J. M. Pilant, Director  
Licensing & Quality Assurance  
Nebraska Public Power District  
Post Office Box 499  
Columbus, Nebraska 68601

Dear Mr. Pilant:

SUBJECT: RECOMBINER CAPABILITY REQUIREMENTS  
OF 10 CFR 50.44(c)(3)(ii)

Re: Cooper Nuclear Station

Generic Letter 84-09, dated May 8, 1984 addressed the recombinaer capability requirements of 10 CFR 50.44(c)(3)(ii).

A number of licensees had previously applied for relief from the recombinaer capability requirements of the rule based on various considerations. In some cases we have given schedular relief for an interim period until completion of NRC review of the BWR Mark I Owners Group studies. As indicated in Generic Letter 84-09, the NRC review has been completed.

You had previously requested relief from the recombinaer capability requirements of 10 CFR 50.44(c)(3)(ii). However, since Generic Letter 84-09 provides guidance for obtaining the relief you requested, we are not acting upon your previous request. If you still wish to pursue this request for relief, please modify your submittal to address the guidance provided in Generic Letter 84-09.

Sincerely,

Original signed by RAHermann for/

Domenic B. Vassallo, Chief  
Operating Reactors Branch #2  
Division of Licensing
