MEMORANDUM TO: Michael T. Lesar, Acting Chief  
Rules Review Section  
Regulatory Publication Branch

FROM: Joseph R. Gray, Deputy Director  
Office of Enforcement

SUBJECT: ORDER PROHIBITING INVOLVEMENT IN NRC-LICENSED ACTIVITIES AND  
UNESCORTED ACCESS (EFFECTIVE IMMEDIATELY)  
(Rex Allen Werts)

A signed original of the subject order is enclosed for your transmittal to the Office of the Federal Register for publication. Additional conformed copies (5) of the Order are attached for your use.

MEDICAL EMERGENCY- HELICOPTER LANDING IN PROTECTED AREA.

AT 0823 EST, APRIL 11, 1991 A CAROLINA AIR CARE HELICOPTER LANDED WITHIN THE BOUNDARY OF THE PROTECTED AREA IN ORDER TO TRANSFER AN ELECTRICAL BURN VICTIM TO THE BURN CENTER AT CHAPEL HILL. THE AREA WAS CORDONED OFF BY A COMBINATION OF ARMED AND UNARMED SECURITY OFFICERS. THE CREW MEMBERS WERE UNDER CONSTANT ESCORT BY ARMED MEMBERS OF THE SECURITY FORCE. THE INJURED INDIVIDUAL WAS PLACED IN THE HELICOPTER AND TRANSPORTED OUT OF THE PROTECTED AREA.

ALL INDIVIDUALS WHO WERE IN CONTACT WITH THE HELICOPTER CREW MEMBERS WERE HAND SEARCHED BY SECURITY PERSONNEL PRIOR TO EXITING THE CORDONED AREA. THE MEDICAL PERSONNEL FROM APEX, NC RESCUE REQUESTED THE HELICOPTER TRANSPORT ON LOCATION DUE TO THE SEVERITY OF THE MEDICAL EMERGENCY.

THE LICENSEE WILL INFORM THE NRC RESIDENT INSPECTOR.

\* \* \*UPDATE 04/12/91 AT 1445 EDT FROM CASE ENTERED BY KARSCH\* \* \*  
 THE LICENSEE IS RETRACTING THIS EVENT AND CONSIDERS IT TO BE NOT REPORTABLE. THE ACTIONS TAKEN IN RESPONSE TO THIS EVENT WERE IN ACCORDANCE WITH 10CFR73.55(d)(4) AND CHAPTER 3 OF THE HARRIS SECURITY PLAN. THIS REPORT WILL BE PLACED INTO THE QUARTERLY EVENT LOG. THE LICENSEE WILL INFORM THE NRC RESIDENT INSPECTOR. R2DO(JAPE) NOTIFIED.

10 CFR SECTION: DLOS <b>73.71(a)</b>	SHIPMENT LOST

AT 1420EDT ON 5/28/91 TWELVE (12) FUEL ASSEMBLIES IN SIX (6) CONTAINERS WERE SHIPPED VIA TRI-STATE TRUCKING (\*) FROM THE B&W COMMERCIAL NUCLEAR FUEL FABRICATION FACILITY IN VIRGINIA TO THE DAVIS-BESSE FACILITY IN OAK HARBOR, OHIO. THE TRUCKERS LAST CALL IN WAS AT 2400EDT ON 5/28/91 FROM AMHEARST, OHIO WHICH IS APPROXIMATELY 60 MILES EAST OF THE PLANT. LICENSEE IS MAKING THIS

REPORT TO INFORM THE NRC THAT THE FUEL HAD NOT ARRIVED AT 0700EDT AS SCHEDULED. THE FUEL ASSEMBLIES CONTAIN >207,000 GRAMS URANIUM ENRICHED TO APPROX 3 w/o AND FOR REPORTING PURPOSES ARE DEFINED AS LOW STRATEGIC SPECIAL NUCLEAR MATERIAL, i.e. 10,000 GRAMS ENRICHED <10 w/o. AN ONSITE B&W REPRESENTATIVE (\*) HAS DISPATCHED PERSONNEL TO LOCATE THE SHIPMENT ALONG THE ROUTE OF TRANSPORT. LICENSEE PLANS NO NOTIFICATION TO ANY LAW ENFORCEMENT OR OTHER OUTSIDE AGENCIES.

\*SEE HOO LOG FOR CONTACT PERSONNEL AND TELEPHONE NUMBERS

HOONOTE: DAVIS-BEESE WAS CONTACTED AND IS AWARE OF THE SITUATION, HOWEVER B&W IS CONTRACTUALLY OBLIGATED TO MAINTAIN CUSTODY AND OBSERVE NRC REPORTING REQUIREMENTS UNTIL THE FUEL ARRIVES ONSITE.

\* \* \* UPDATE 1134EDT 5/29/91 FROM LESTER BY S.SANDIN \* \* \*  
TRUCKER CONTACTED TRI-STATE TRUCKING DISPATCH AT APPROX 1115EDT FROM THE AMHEARST, OHIO STOPOVER. THE PERSONNEL DISPATCHED FROM THE SITE ARRIVED AT THE LOCATION AT APPROX THE SAME TIME. PRELIMINARY INDICATION IS THAT THE TRUCKER DID NOT OBSERVE THE WRITTEN B&W SHIPPING REQUIREMENTS WHICH HE HAD BEEN BRIEFED ON PRIOR TO HIS DEPARTURE FROM THE D&W FACILITY IN VA, i.e. CONTACTING B&W IF ANTICIPATED ARRIVAL WAS LATER THAN SCHEDULED. NOTIFIED R2DO (VERRELLI), R3DO (CANIANO), EO (HICKEY), IAT (YARDUMIAN), AEOD (SPESSARD), AND PAO (NEWLIN).

- LICENSEE SECURITY GUARD FORCE STRIKE PROBABLE IN NEXT THREE DAYS -

ON 06/26/91, LICENSEE SECURITY GUARD FORCE VOTED TO FORMALLY AUTHORIZE A STRIKE. LICENSEE BELIEVES THAT A STRIKE IS IMMINENT WITHIN THE NEXT 3 DAYS. IF A STRIKE OCCURS, LICENSEE HAS AN ADEQUATE NUMBER OF TRAINED REPLACEMENT GUARDS AVAILABLE AS A CONTINGENCY MEASURE. LICENSEE HAS DETERMINED THAT A STRIKE WOULD HAVE NO EFFECT ON SAFE OPERATION OF THE PLANT.

LICENSEE INFORMED THE NRC RESIDENT INSPECTOR.

REGION V ISSUED PN #PNO-V-91-12.

CONTRACTOR ACCESSES REMOVED IN RESPONSE TO SECURITY INVESTIGATIONS

DEGRADATION OF SAFEGUARDS SYSTEMS BASED ON ACCESS GRANTED TO INDIVIDUALS SUBSEQUENTLY DETERMINED TO BE UNAUTHORIZED. IMMEDIATE COMPENSATORY MEASURES TAKEN BY REMOVING ACCESS UPON DISCOVERY. SPECIFICALLY, A CONTRACTOR EMPLOYEE WAS DISCOVERED TO HAVE MISREPRESENTED HIS CRIMINAL HISTORY BACKGROUND. AN AUDIT OF THE CONTRACTORS REVIEW OF SECURITY BACKGROUND INVESTIGATIONS DETERMINED SEVERAL CASES IN WHICH THE LICENSEES ACCEPTABLE CRITERIA WERE NOT MET. NINE ACCESSES WERE WITHDRAWN OVER THE PAST WEEK FOR THIS PARTICULAR CONTRACTOR IN RESPONSE TO THIS EVENT. NONE OF THE CONTRACTORS WERE OF THE FOREMAN OR MANAGEMENT LEVEL, AND THEIR CLEARANCE DID NOT INCLUDE ACCESS INTO ANY VITAL AREAS. SEE HOO LOG FOR DETAILS.

THE LICENSEE WILL INFORM THE RESIDENT INSPECTOR.

INCOMPLETE PRE-EMPLOYMENT SECURITY SCREENING.

THE LICENSEE DETERMINED THAT AN INDIVIDUAL WHO HAD BEEN GRANTED  
UNESCORTED ACCESS TO THE SITE WOULD HAVE BEEN DENIED SUCH ACCESS  
BASED ON INFORMATION DEVELOPED DURING SUBSEQUENT INVESTIGATIONS  
INTO THE INDIVIDUAL'S BACKGROUND.

REVIEW OF THE BACKGROUND SCREENING PROCESS OF A CONTRACT EMPLOYEE  
WHO HAD RECENTLY BEEN INVOLVED IN A FITNESS FOR DUTY ISSUE  
REVEALED SEVERAL DEFICIENCIES: (A) THE CONTRACTOR (BARTLETT)  
FAILED TO PROVIDE DEROGATORY INFORMATION TO THE LICENSEE ON THE  
EMPLOYEE'S BACKGROUND; (B) THE LICENSEE FAILED TO MAINTAIN RECORDS  
WHICH INDICATED A PREVIOUS DENIAL OF ACCESS TO THE SPECIFIC  
INDIVIDUAL; (C) FAILURE OF THE EMPLOYEE TO IDENTIFY THAT HE HAD  
PREVIOUSLY BEEN DENIED ACCESS TO THE PLANT SITE ON THE SECURITY  
FORM.

THE LICENSEE IS REPORTING THIS PER THE LAST PARAGRAPH OF GENERIC  
LETTER 91-03.

THE NRC RESIDENT INSPECTOR HAS BEEN INFORMED.

3	N	Y	100	POWER OPERATION	100	POWER OPERATION

AT 1427 PDT, A FIRE PROTECTION DELUGE VALVE LOCATED IN THE REACTOR COOLANT PUMP "P001" AREA LOCATED INSIDE CONTAINMENT ACTUATED. AS A RESULT, WATER WHICH WAS STANDING IN THE PIPE, DRAINED THROUGH THE VALVE INTO THE REACTOR COOLANT PUMP AREA. BASED UPON THE CONTAINMENT SUMP LEVEL INCREASE, THE LICENSEE ESTIMATES APPROXIMATELY 60 GALLONS OF WATER WAS IN THE PIPE. THE WATER WAS NOT PRESSURIZED OTHER THAN THAT CAUSED BY THE WEIGHT OF THE WATER ABOVE THE VALVE. THE FIRE PUMPS WERE NOT STARTED, SO A PRESSURIZED SPRAY DID NOT OCCUR.

THE LICENSEE DOES NOT BELIEVE THERE IS ANY DAMAGE TO THE REACTOR COOLANT PUMP MOTOR. NO PROBLEMS WERE NOTED AT THE TIME OF THE EVENT NOR HAVE ANY BEEN IDENTIFIED SINCE THE EVENT. THE LICENSEE IS STILL CHECKING OUT THE PUMP TO BE CERTAIN.

AT 1735 PDT, THE LICENSEE DETERMINED THAT THIS EVENT IS A RESULT OF POTENTIAL TAMPERING WITH THE DELUGE VALVE MANUAL ACTUATOR. THIS IS A "BREAK GLASS - PULL HANDLE" TYPE PULL STATION.

ALL PLANT SAFETY SYSTEMS ARE OPERABLE. THE ONLY OFF NORMAL CONDITION IS THE SECONDARY OFF SITE POWER SUPPLY IS OUT OF SERVICE UNTIL ABOUT 0600 PDT ON SEPTEMBER 7. THIS IS A PRE-PLANNED EVOLUTION. THE PRIMARY POWER SUPPLY IS AVAILABLE. BOTH EMERGENCY DIESEL GENERATORS ARE OPERABLE.

THE NRC RESIDENT INSPECTOR HAS BEEN NOTIFIED OF THE DELUGE VALVE ACTUATION AND WILL BE INFORMED OF THIS NOTIFICATION.

\*\*\*\* UPDATE AT 2321 EDT ON 09/06/91 BY K. ECKMAN TAKEN BY T. ANDREWS \*\*\*\*

AT 1945 PDT, THE LICENSEE DETERMINED THAT THERE WERE TWO CLEANING PEOPLE IN THE AREA OF THE PULL STATION. THEY HAVE ADMITTED TO "WIPING" THE PULL STATION DOWN WITH DECON CLOTHS AND INADVERTENTLY TRIPPED THE PULL STATION. THEY THEN TRIED TO CLOSE THE PULL STATION. THE CLEANING PEOPLE THEN TRIED TO NOTIFY THEIR SUPERVISOR ABOUT THE INCIDENT. WHEN THIS WAS UNSUCCESSFUL, THEY FORGOT TO NOTIFY ANYONE ELSE.

SECURITY HAS PULLED THE PLANT ACCESS FOR THESE TWO INDIVIDUALS

PENDING FURTHER INVESTIGATION. THE NRC RESIDENT INSPECTOR WILL BE NOTIFIED.  
R5DO (HUEY), EO (ROSSI), IAT-NRR (BUSH), IAT-NMSS (DAVIDSON) NOTIFIED BY HOO.

\*\*\*\* UPDATE AT 1435 EDT ON 9/09/91 FROM B. PLAPPERT TAKEN BY HUFFMAN \*\*\*\*

BASED ON FURTHER INVESTIGATION, LICENSEE IS RETRACTING THIS EVENT. THE LICENSEE HAS DETERMINED THAT MANIPULATION OF THE DELUGE PULL STATION WAS PURELY ACCIDENTAL AND THAT NO INTENT TO TAMPER WAS INVOLVED. THE NRC RESIDENT INSPECTOR WILL BE NOTIFIED. R5DO (KIRSCH), IAT-NRR (BUSH), IAT-NMSS (DAVIDSON), AND EO (ROSSI) HAVE BEEN INFORMED.

INCOMPLETE SECURITY CHECK PERFORMED ON TEMPORARY EMPLOYEE.

A DUKE POWER TEMPORARY EMPLOYEE WAS ALLOWED PROTECTED AND VITAL AREA ACCESS WITHOUT A COMPLETE BACKGROUND INVESTIGATION. WHEN RESULTS OF THE BACKGROUND INVESTIGATION WERE FINALLY RECEIVED, IT WAS DETERMINED THAT THE INDIVIDUAL WAS UNRELIABLE AND HIS PLANT ACCESS WAS DENIED. THE INDIVIDUAL WAS ONSITE FOR A TOTAL OF THREE DAYS BEFORE HIS BADGE WAS PULLED. IT IS NOT KNOWN IF HE ENTERED ANY VITAL AREAS WHILE HE WAS ON PLANT.

REPORTABILITY OF THIS EVENT WAS NOT DETERMINED UNTIL 1708 EDT, 9/30/91. LICENSEE WILL NOTIFY THE NRC RESIDENT INSPECTOR.

- SPECIAL NUCLEAR MATERIAL (INCORE TIP DETECTORS) FOUND IN SITE WAREHOUSE -

A WESTINGHOUSE (NSSS SUPPLIER) REPRESENTATIVE NOTIFIED THE WATTS BAR SPECIAL NUCLEAR MATERIALS (SNM) CUSTODIAN, MR DELK, THAT 24 INCORE TIP DETECTORS (LESS THAN A TOTAL OF 1 GRAM OF HIGHLY

ENRICHED URANIUM)  
HAD BEEN RECEIVED AT WATTS BAR IN 1980.

AT 1554, THE SNM CUSTODIAN LOCATED 14 DETECTORS IN THE SITE  
WAREHOUSE  
BUT COULD NOT LOCATE THE OTHER 10 DETECTORS.

MR DELK IS REPORTING THE UNACCOUNTED FOR SNM IN ACCORDANCE WITH  
10CFR73.67(g)(3)(iii).

AT 1640, THE SNM CUSTODIAN LOCATED THE OTHER 10 DETECTORS IN THE  
WAREHOUSE. THE DETECTORS ARE IN THEIR ORIGINAL UNDAMAGED SEALED  
SHIPPING CONTAINERS.

THE DETECTORS WILL BE MOVED AND PLACED UNDER THE CONTROL OF THE  
SNM CUSTODIAN IN ACCORDANCE WITH PLANT PROCEDURES.

LICENSEE INFORMED THE NRC RESIDENT INSPECTOR.

SECURITY DEGRADATION RELATED TO AUTHORIZING SECURITY CLEARANCES.

DURING A SECURITY REVIEW TO BADGE A CONTRACTED MAINTENANCE WORKER FOR THE 1992 REFUELING OUTAGE, IT WAS DISCOVERED THAT THE WORKER HAD A POSITIVE DRUG TEST WHILE WORKING AT PILGRIM IN 1987. SUBSEQUENT TO THE POSITIVE DRUG TEST, THE CONTRACTOR WAS EMPLOYED AT MAINE YANKEE FOR THE 1990 OUTAGE. MAINE YANKEE'S POLICY IS THAT THEY WILL NOT HIRE PEOPLE THAT HAVE TESTED POSITIVE FOR DRUGS. THE WORKER'S BADGE WAS REMOVED AND HE WAS TAKEN OFF SITE. THE LICENSEE PLANS TO INVESTIGATE THIS EVENT TO FIND OUT WHY A SECURITY CLEARANCE WAS GRANTED FOR THIS CONTRACTOR DURING THE 1990 OUTAGE AND WHETHER OR NOT OTHERS WERE GRANTED SECURITY CLEARANCE WITH SIMILAR BACKGROUNDS.

THE LICENSEE WILL INFORM THE STATE AND THE NRC RESIDENT INSPECTOR.

 SHIPMENT LOST

TOM KUNY OF BERTHOLD SYSTEMS, CALLED TO REPORT THAT A SHIPMENT OF COBALT 60 ROD SOURCES DID NOT ARRIVE WHEN EXPECTED. HIS COMPANY ADDRESS IS:

BERTHOLD SYSTEMS, INC.  
 101 CORPORATION DRIVE  
 ALIQUIPPA, PA 15001

THE ROD SOURCES ARE ABOUT FIVE YEARS OLD AND WERE ORIGINALLY RATED AT 2 MILLICURIES (SHIPMENT TOTAL). THE SOURCES ARE COBALTOUS CHLORIDE SOLID MATERIAL. THEY WERE PACKAGED IN TWO TYPE "A" SHIPPING CONTAINERS AND WERE SHIPPED FROM OLIN CHEMICAL CORPORATION IN LAKE CHARLES, LOUISIANA ON 11/14/91. THE SOURCES WERE BEING SHIPPED TO BERTHOLD SYSTEMS FOR DISPOSAL.

THE SHIPPER IS YELLOW FREIGHT. ACCORDING TO MR. KUNY, OLIN HAS PRIMARY RESPONSIBILITY FOR THE SHIPMENT.

BERTHOLD SYSTEMS RECEIVED DOCUMENTATION FOR THIS SHIPMENT WITH ANOTHER SHIPMENT FROM OLIN. THESE SOURCES WERE EXPECTED TO ARRIVE SOMETIME BETWEEN 11/18/91 AND 11/22/91. SINCE THESE SOURCES HAVE NOT ARRIVED, BERTHOLD SYSTEMS HAS NOTIFIED YELLOW FREIGHT AND THE SOURCES ARE BELIEVED TO STILL BE IN THE YELLOW FREIGHT SHIPPING SYSTEM.

SINCE THE SOURCES ARE IN TYPE "A" SHIPPING CONTAINER, THE POTENTIAL EXPOSURE HAZARD TO THE PUBLIC IS BELIEVED TO BE MINIMAL. BERTHOLD SYSTEMS' LICENSE NUMBER IS 37-21-226-01. MR. KUNY WAS ASKED TO NOTIFY REGION 1 ON 11/25/91 AND THE NRC OPERATIONS CENTER IF THE SHIPMENT IS LOCATED.

THE FRONT DOORS OF THE ESSENTIAL COOLING WATER STRUCTURE WERE NOT PROPERLY SECURED AGAINST UNAUTHORIZED ENTRY FOR APPROXIMATELY 10

HOURS DUE TO HUMAN ERROR.

THE FAILURE OF A MULTIPLEXER FOR THE INTRUSION DETECTION SYSTEM (IDS) NECESSITATED MANUAL COMPENSATORY MEASURES. THE NEED FOR THESE MEASURES WAS NOT ADEQUATELY COMMUNICATED TO THE GUARD PERSONNEL. CONSEQUENTLY THE FRONT DOORS OF THE ESSENTIAL COOLING WATER STRUCTURE WERE NOT PROPERLY ATTENDED. A RECHECK BY A SUPERVISOR 10 HOURS LATER REVEALED THE LAPSE. THE LICENSEE BELIEVES THERE WAS NO UNAUTHORIZED ENTRY INTO THE AREA, BECAUSE OTHER PERIMETER SECURITY DEVICES, WHICH REMAINED OPERABLE, DID NOT ALARM. A SEARCH OF THE PROTECTED AREA IS UNDER WAY. THE IDS WILL BE RESTORED BY 12/30/91. SEE HOO LOG FOR ADDITIONAL DETAILS. THE LICENSEE WILL INFORM THE NRC RESIDENT INSPECTOR.

SECURITY OFFICER FALSIFIED A SECURITY PATROL LOG ENTRY.

A SECURITY OFFICER FALSELY DOCUMENTED THE SATISFACTORY COMPLETION OF A PATROL IN A DESIGNATED AREA WITHIN THE PROTECTED AREA. AN INVESTIGATION DETERMINED THAT NO UNAUTHORIZED ACCESS OCCURRED IN THE AREA. SEE HOO LOG FOR DETAILS.

THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR.

-----	-----------------

2	N	N	0	COLD SHUTDOWN
---	---	---	---	---------------

0	COLD SHUTDOWN
---	---------------

SHUTDOWN COOLING WAS LOST FOR TWO HOURS AND TWENTY MINUTES WHEN A RESERVE AUXILIARY TRANSFORMER TRIPPED AND DE-ENERGIZED SEVERAL SAFETY BUSES (LOSS OF OFFSITE POWER).

AT 0037CST, RESERVE AUXILIARY TRANSFORMER "22" TRIPPED WHEN THE FIRE PROTECTION DELUGE SYSTEM ACTUATED FOR UNKNOWN REASONS. SAFETY BUSES WHICH DE-ENERGIZED INCLUDED BUSES "23", "23-1", "24", "24-1", AND "29" AS WELL AS BUSES "25", "26", "27", "28". THE RADIATION MONITORING SYSTEM AND RHR LOOP "A" LOST POWER AND EMERGENCY DIESEL GENERATOR (EDG) "1/2" AUTOSTARTED AS A RESULT OF THE TRIP. THE REACTOR BUILDING VENTILATION SYSTEM ISOLATED, THE CONTROL ROOM VENTILATION SYSTEM ISOLATED, AND THE STANDBY GAS TREATMENT SYSTEM ACTUATED ON THE LOSS OF POWER TO THE RADIATION MONITORING SYSTEM. THE RHR "A" TRAIN WAS IN SHUTDOWN COOLING MODE AT THE TIME OF THE TRANSFORMER TRIP WITH RCS TEMPERATURE AT 132 DEGREES F AS MEASURED AT THE RHR HEAT EXCHANGER DISCHARGE.

AT 0138CST, ALL AFFECTED BUSES WERE RE-ENERGIZED VIA EDG "1/2" AND A CROSS TIE CONNECTION FROM UNIT #1 BUS "14-1" TO "UNIT #2 BUS "24-1". EDG "2" DID NOT AUTOSTART BECAUSE THAT CAPABILITY WAS DISABLED WHILE A MODIFICATION WAS BEING IMPLEMENTED.

SHUTDOWN COOLING WAS RESTORED AT 0256CST WITH RCS TEMPERATURE AT

139 DEGREES F. SHUTDOWN COOLING WAS LOST FOR TWO HOURS AND NINETEEN MINUTES WITH A HEATUP OF ABOUT SEVEN DEGREES. THE UNIT HAD BEEN DOWN FOR 93 DAYS PRIOR TO THIS EVENT. EDG "1/2" AUTOSTARTED AS REQUIRED BUT RHR "A" WAS NOT LOADED ONTO THE RE-ENERGIZED "23-1" BUS DUE TO CONCERNS ABOUT OVERLOADING THE EDG.

THE LOSS OF THE RAT ALSO RESULTED IN A SECURITY DEGRADATION RELATED TO ALARM/AREA DOORS/AREA BOUNDARY. IMMEDIATE COMPENSATORY MEASURES TAKEN ON DISCOVERY BUT NOT FULLY COMPENSATED. SEE HOO LOG FOR DETAILS.

CURRENTLY, POWER IS BEING SUPPLIED TO SAFETY BUSES "23" AND "23-1" BY EDG "1/2". A CROSSTIE FROM UNIT #1 BUS "14-1" TO BUS "24-1" IS SUPPLYING POWER TO SAFETY BUSES "24" AND "24-1". BUS "26" IS THE ONLY BUS WHICH REMAINS DE-ENERGIZED. A BACKUP OFFSITE POWER SUPPLY IS AVAILABLE TO UNIT #2 THROUGH A RAT ON UNIT #1. THERE IS NO BACK FEED CAPABILITY THROUGH UNIT AUXILIARY TRANSFORMER "21" AND NO INDEPENDENT BACKUP OFFSITE POWER SUPPLY TO UNIT #2. RHR "B" IS AVAILABLE FROM SAFETY BUS "24" WITH POWER FROM THE CROSSTIE CONNECTION OR EDG "2", IF NECESSARY. THE ISOLATIONS AND SGTS ACTUATION REMAIN IN EFFECT. THE ACTUATION OF THE FIRE PROTECTION SYSTEM IS UNDER INVESTIGATION. THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR.

\* \* \* UPDATE 04/02/92 0733EST FROM:NOHR BY:SCARFO \* \* \*  
UPON REVIEW, UNIT #1 GROUP ONE PRIMARY CONTAINMENT ISOLATION VALVES "1-20-44" AND "1-20-45" WERE FOUND TO BE CLOSED. IT IS BELIEVED THAT THE LOSS OF THE RAT CAUSED AN ELECTRICAL DISTURBANCE WHICH RESULTED IN THE ISOLATION VALVE CLOSURES. THE VALVES WERE IMMEDIATELY OPENED UPON DISCOVERY. THIS HAD NO EFFECT ON THE OPERATIONAL STATUS OF UNIT #1. THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR. R3DO(MCCORMICKBARGER) AND EO(ROSSI) NOTIFIED.

DURING SELF-SCREENING CONTRACTOR QUALITY ASSURANCE AUDIT, LICENSEE DISCOVERED 11 CONTRACT EMPLOYEES HAD BEEN GIVEN UNESCORTED ACCESS TO THE PROTECTED AREA THAT HAD NOT PASSED THE PSYCHOLOGICAL EVALUATION.

THE SUBJECT CONTRACT PERSONNEL FAILED THE WRITTEN TEST AND DID NOT SHOW UP FOR THE CLINICAL EVALUATION. THEIR UNESCORTED ACCESS WAS REVOKED, THE SECURITY KEY CARDS WERE PULLED AND DESTROYED. THESE PEOPLE HAVE BEEN INVOLVED IN THE CHEMICAL CLEANING OF THE SERVICE WATER AND STANDBY SERVICE WATER SYSTEMS. THE LICENSEE HAS PLACED THE CONTRACTOR ON PROBATION AND IS CONDUCTING A ROOT CAUSE EVALUATION.

THIS EVENT IS REPORTED UNDER 10-CFR-73.56(B)2-ii PER GENERIC LETTER 91-03.

THE NRC RESIDENT INSPECTOR WILL BE NOTIFIED OF THIS EVENT. NO OTHER NOTIFICATIONS ARE REQUIRED OR ANTICIPATED.

\*\*\*\* UPDATE AT 1510 EDT ON 05/28/92 BY NORRIS TAKEN BY ANDREWS  
\*\*\*\*\*

THE LICENSEE HAS IDENTIFIED 2 ADDITIONAL CONTRACT EMPLOYEES FROM THE SAME CONTRACTOR WHO ALSO DID NOT PASS THE PSYCHOLOGICAL EVALUATION. THIS CONTRACTOR EMPLOYS 39 PEOPLE ONSITE. THIS INCIDENT IS BELIEVED TO BE ISOLATED TO THIS CONTRACTOR. THE SAME ADMINISTRATIVE ACTIONS FOR THESE 2 ADDITIONAL PEOPLE WILL BE TAKEN AS THE ORIGINAL 11.

THE RESIDENT INSPECTOR WILL BE INFORMED OF THIS UPDATE.

\*\*\*\*RETRACTION 1028 EDT ON 06/29/92 BY MCQUIRTER TAKEN BY ANDREWS  
\*\*\*\*

LICENSEE HAS SINCE DETERMINED THAT THIS EVENT DOES NOT MET REG

GUIDE 5.62 REPORTING CRITERIA. THE INDIVIDUALS MENTIONED ABOVE HAVE BEEN SUCCESSFULLY REEXAMINED AND HAVE HAD THEIR UNESCORTED ACCESS RESTORED.

THIS IS DISCUSSED IN THE LICENSEE'S CONDITION REPORT CR-92-0391.

THE NRC RESIDENT INSPECTOR WILL BE NOTIFIED OF THE RETRACTION.

HOO NOTIFIED R4DO (CAIN).

BECAUSE OF AIR CONDITIONING PROBLEMS IN THE SECONDARY ALARM STATION, THE LICENSEE DECIDED TO SWITCH THE COMPUTER FROM THE SECONDARY ALARM STATION TO THE CENTRAL ALARM STATION. THIS DECISION WAS MADE BASED UPON CONCERN REGARDING IMPACT OF ELEVATED AREA TEMPERATURES ON THE COMPUTER IN THE SECONDARY ALARM STATION.

AFTER THE SWITCH WAS MADE, BOTH ALARM STATIONS BECAME INOPERABLE WITH NO ALARMS REPORTING IN. MAINTENANCE PERSONNEL ARE WORKING ON GETTING BOTH COMPUTERS RUNNING AGAIN. THE COMPUTER IN THE SECONDARY ALARM STATION WAS RESTORED AT 0634 EDT. THEY ARE IN THE PROCESS OF TESTING THE SYSTEM NOW.

COMPENSATORY ACTIONS WERE TAKEN PRIOR TO THE ATTEMPT TO SWITCH COMPUTERS. THESE ACTIONS WILL REMAIN IN EFFECT UNTIL THE TESTING

ON THE COMPUTER SYSTEM IS COMPLETED.

MAINTENANCE PERSONNEL ARE ALSO WORKING ON REPAIRING THE A. ' CONDITIONING IN THE SECONDARY ALARM STATION. THE LICENSEE DOES NOT HAVE AN ESTIMATE WHEN THE REPAIRS ON THE AIR CONDITIONING WILL BE COMPLETE.

THE LICENSEE WILL NOTIFY THE NRC RESIDENT INSPECTOR, STATE, AND LOCAL OFFICIALS.

\* \* \* UPDATE FROM PETERMAN TO SEBROSKY AT 16:31 ON 9/8/92 \* \* \*

THE LICENSEE IS RETRACTING THIS EVENT.

THE ORIGINAL REPORT WAS MADE BECAUSE IT WAS THOUGHT THAT INADEQUATE COMPENSATORY ACTIONS WERE TAKEN FOR APPROXIMATELY 17 MINUTES WHILE BOTH SECURITY COMPUTERS WERE NOT OPERATING. SUBSEQUENT REVIEW OF THE EVENT DETERMINED THAT ADEQUATE VISUAL SURVEILLANCE OF THE PERIMETER WAS MAINTAINED DURING THE 17 MINUTES THAT BOTH SECURITY COMPUTERS WERE NOT OPERATING. THE LICENSEE DOES NOT BELIEVE THAT THIS EVENT MEETS THE CRITERIA FOR REPORTING PER 10CFR73.71 BECAUSE ADEQUATE SURVEILLANCE OF THE SITE PERIMETER WAS MAINTAINED.

THE LICENSEE WILL INFORM THE RESIDENT INSPECTOR. HOO NOTIFIED R3DO (SNELL).

VANDALISM FOUND IN THE UPPER CABLE SPREADING ROOM COMMON TO BOTH UNITS.

THE FOLLOWING IS A TEXT FROM THE LICENSEE:

"ON 10/14/92 THE BRAIDWOOD FIRE PROTECTION SITE MANAGER (CONTRACTED FIRE WATCH MANAGER) WAS NOTIFIED THAT ONE OF HIS EMPLOYEES HAD CAUSED DAMAGE TO PLANT PROPERTY. ON 10/15/92 PLANT MANAGEMENT BECAME AWARE OF FURTHER DETAILS OF THIS EVENT. THE DAMAGE WAS INSIGNIFICANT IN RELATION TO PLANT OPERATIONS OR SECURITY, BEING LIMITED TO MINOR DAMAGE TO AIR DUCT INSULATION, MINOR DAMAGE TO FIRE PROOFING, AND OTHER MINOR INCIDENTS OF LESS SIGNIFICANCE. THIS APPEARS TO BE VANDALISM WITHOUT THE INTENT TO INTERRUPT NORMAL OPERATION OR SECURITY. THESE INCIDENTS WERE LIMITED TO ONE AREA OF THE PLANT. THE INVESTIGATION IS CONTINUING."  
END OF TEXT.

A SECURITY BADGE CHECK WAS PERFORMED AND THE INDIVIDUAL'S ACCESS WAS LIMITED TO THE ONE AREA INVOLVED. THE INDIVIDUALS UNESCORTED ACCESS HAS BEEN DENIED. THE LICENSEE HAS DONE A PRELIMINARY REVIEW OF THE AREA INVOLVED AND PLANS TO DO A FURTHER REVIEW TO ENSURE THAT ALL DAMAGE IS IDENTIFIED.

THE LICENSEE HAS INFORMED THE RESIDENT INSPECTOR.

\* \* \* UPDATE 10/26/92 1734EST FROM: BAL BY: SCARFO \* \* \*

THE FOLLOWING IS THE TEXT OF A FACSIMILE SUBMITTED BY THE LICENSEE:

"THE PURPOSE OF THIS CALL IS TO RETRACT AN ENS CALL MADE ON 10/15/92 AT 1318EDT (1218CDT) UNDER 73.71. THIS PREVIOUS CALL CONCERNED A CONTRACTED FIRE WATCH PERSON CAUSING DAMAGE TO PLANT PROPERTY. UPON COMPLETION OF THE INVESTIGATION, IT HAS BEEN DETERMINED THAT THE INDIVIDUAL DID NOT INTEND TO INTERRUPT THE OPERATION OF THE PLANT OR CAUSE ANY DAMAGE WHICH WAS INTENDED TO INTERRUPT THE FUNCTION OF ANY SAFETY-RELATED SYSTEM OR COMPONENT. FURTHER REVIEWS OF THE AREAS TO WHICH THE INDIVIDUAL HAD ACCESS HAVE SHOWN NO ADDITIONAL DAMAGE BEYOND THE MINOR DAMAGE DESCRIBED IN THE ORIGINAL NOTIFICATION."  
END OF TEXT.

THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR.

WHILE PERFORMING AN ENGINEERING REVIEW FOR SEISMIC CONCERNS ON  
VITAL FEEDWATER PUMPS AND ITS ASSOCIATED PIPING, THE LICENSEE  
IDENTIFIED A POTENTIAL SCENARIO WHICH WOULD RENDER THE PUMPS  
INOPERABLE FOR SAFE SHUTDOWN OF THE UNIT.

THE LICENSEE'S ENGINEERING DEPARTMENT PERFORMED A DESIGN REVIEW  
OF PIPING SYSTEM DRAWINGS WHEN THEY DETERMINED THE FOLLOWING: A  
BREACH OF NON-VITAL PIPE CAUSED BY A SEISMIC EVENT COULD RESULT  
IN THE INTRODUCTION OF AIR INTO A VITAL FEEDWATER PUMP RENDERING  
IT INOPERABLE FOR SAFE SHUTDOWN OF UNIT 1. THE LICENSEE HAS  
DETERMINED THAT THIS MAY POSE SECURITY CONCERN. AS COMPENSATORY  
ACTION, SECURITY WILL POST AN OFFICER TO KEEP THE PIPE UNDER  
OBSERVATION. THE LICENSEE WILL ALSO EVALUATE UNIT 2 FOR THIS.

THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR.

\*\*\*\* UPDATE AS OF 1100 EST ON 02/07/93 BY FACSIMILE ENTERED BY ANDREWS \*\*\*\*

PENNSYLVANIA STATE POLICE OFFICERS AND TMI SITE PROTECTION OFFICERS APPREHENDED AN INTRUDER INSIDE THE TMI-1 TURBINE BUILDING AT AROUND 1100 EST. OFFICIALS ARE IN THE PROCESS OF INTERVIEWING THE INTRUDER.

TMI-1 IS OPERATING AT FULL POWER. THE PLANT'S VITAL AREA WAS NOT PENETRATED. THERE HAS BEEN NO ABNORMAL RELEASE OF RADIOACTIVITY FROM THE PLANT.

THE INTRUDER GAINED ACCESS TO THE PLANT'S TURBINE BUILDING AFTER DRIVING A STATION WAGON THROUGH A FENCE AND A ROLL-UP DOOR EARLIER THIS MORNING.

ALL PLANT PERSONNEL HAVE BEEN ACCOUNTED FOR.

FEDERAL, STATE, AND LOCAL OFFICIALS HAVE BEEN KEPT NOTIFIED OF THE EVENT.

\*\*\*\* UPDATE AS OF 1215 EST ON 02/07/93 BY FACSIMILE ENTERED BY  
ANDREWS \*\*\*\*

THE PENNSYLVANIA STATE POLICE HAVE CONFIRMED THAT THE INTRUDER  
WAS UNARMED. THE STATE POLICE APPREHENDED THE INTRUDER AND  
ESCORTED HIM OFFSITE AT ABOUT 1100 EST. THE STATE POLICE IS  
INTERROGATING THE INTRUDER.

PLANT OFFICIALS ARE CONDUCTING A THOROUGH INSPECTION OF ALL PLANT  
SYSTEMS TO ENSURE THE INTRUDER HAD NO IMPACT ON THE PLANT. THE  
INTRUDER WAS FOUND UNDER THE PLANT'S CONDENSER.

VITAL AREAS OF THE PLANT WERE LOCKED AND PROTECTED WHILE THE  
INTRUDER WAS IN THE PLANT.

THE PLANT CONTINUED TO OPERATE AT 100 % POWER DURING THE  
EMERGENCY. THE PLANT CONTINUED TO OPERATE AS A PRECAUTION TO  
PROTECT THE SAFETY OF WORKERS WHO MIGHT HAVE TO GO INTO THE  
TURBINE BUILDING DURING A SHUTDOWN.

THE PLANT HAS BEEN IN A SITE AREA EMERGENCY SINCE 0705 EST AND  
WILL REMAIN IN A STATE OF EMERGENCY UNTIL A COMPLETE INSPECTION  
OF THE PLANT IS MADE.

\*\*\*\* UPDATE AT 1640 EST ON 02/07/93 BY SHADEL TAKEN BY SCARFO  
\*\*\*\*

THE LICENSEE TERMINATED THE SITE AREA EMERGENCY AT 1635EST AFTER THE COMPLETION OF A SECURITY INSPECTION OF THE FACILITY BY THE STATE POLICE AND THE RE-ESTABLISHMENT OF ALL SECURITY BOUNDARIES. THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR. STATE AND LOCAL AGENCIES WILL BE NOTIFIED.

A GENERAL ELECTRIC (GE) CONTRACT EMPLOYEE WHO HAD FAILED A RANDOM DRUG TEST AT THE LIMERICK FACILITY WAS ALLOWED ACCESS TO VITAL AND PROTECTED AREAS OF THE FACILITY.

AFTER COMPLETING AN EXTENDED BACKGROUND INVESTIGATION OF A GE CONTRACT EMPLOYEE, IT WAS DETERMINED THAT THE INDIVIDUAL SHOULD NOT HAVE RECEIVED ACCESS TO VITAL AND PROTECTED AREAS OF THE FACILITY. THE EXTENDED BACKGROUND INVESTIGATION FOUND THAT THE EMPLOYEE FAILED A RANDOM DRUG TEST AT THE LIMERICK GENERATING FACILITY PRIOR TO HIS ASSIGNMENT AT THE COOPER FACILITY. THE CONTRACT EMPLOYEE HAD ACCESS TO VITAL AND PROTECTED AREAS OF THE PLANT FROM 04/02/93 UNTIL 04/29/93.

CURRENTLY, THE CONTRACT EMPLOYEE HAS COMPLETED HIS TASKS AND EXITED THE SITE. THE LICENSEE IS SUSPENDING THE GE-APPROVED CLEARANCE PROGRAM AND NOTIFYING GE OF THE STATUS OF THIS CONTRACT EMPLOYEE. THE LICENSEE HAS INFORMED ANOTHER FACILITY OF THIS CONTRACT EMPLOYEE'S STATUS UPON INQUIRY. A WORK REVIEW IS IN PROGRESS.

REGION IV HAS BEEN INFORMED. THE LICENSEE WILL INFORM THE NRC RESIDENT INSPECTOR.

A CONTRACT EMPLOYEE WAS GRANTED UNESCORTED ACCESS AND IT WAS  
LATER DETERMINED THAT HAD THE EMPLOYEE BEEN TRUTHFUL ON HIS  
EMPLOYMENT APPLICATION, THE EMPLOYEE WOULD NEVER HAD BEEN GRANTED  
THIS ACCESS.

THE FOLLOWING IS A TEXT OF A FACSIMILE FROM THE LICENSEE:

"ON 7/20/93 THE FBI FINGER PRINT RECORDS ON A CONTRACT EMPLOYEE WERE RECEIVED FROM THE NRC BY THE CORPORATE EMPLOYEE RELATIONS DEPARTMENT. INITIAL REVIEW INDICATED THAT THE WRONG CRIMINAL HISTORY WAS SENT BECAUSE OF THE NAME, AGE AND EMPLOYMENT HISTORY DISCREPANCIES. BRUNSWICK NUCLEAR POWER WAS NOTIFIED ABOUT THE PROBLEM AND THAT IT WAS A CASE OF AN INCORRECT FILE BEING SENT. ON 7/21/93 AT 08:45 THE CONTRACT EMPLOYEE WAS CONFRONTED AND ADMITTED FALSIFYING THE EMPLOYMENT APPLICATION. ON 7/21/93 THE CONTRACT EMPLOYEE'S BACKGROUND INVESTIGATION WAS OBTAINED FROM THE EMPLOYER (POWER PLANT MAINTENANCE, SOCIETY HILL, S.C.) A REVIEW OF THAT FILE BY THE NUCLEAR ASSESSMENT DEPARTMENT ON 7/22/93 DETERMINED, THAT BASED ON THE FBI CRIMINAL HISTORY, UNESCORTED ACCESS WOULD HAVE NEVER BEEN GRANTED HAD THE EMPLOYEE BEEN TRUTHFUL ON THE EMPLOYMENT APPLICATION.

THE INITIAL SAFETY SIGNIFICANCE IS CONSIDERED LOW. THE INDIVIDUAL WAS GRANTED UNESCORTED ACCESS ON 3/24/93. HE WAS EMPLOYED AS A PAINTER AND WAS ENGAGED IN PAINTING VARIOUS COMPONENTS WITHIN THE PROTECTED AREA. COMPUTER TRANSACTIONS SHOW HE WAS ONLY IN A VITAL AREA FOR APPROXIMATELY TWO MINUTES DURING THE TIME HE HAD UNESCORTED ACCESS ALL OTHER TIME WAS PROTECTED AREA ONLY.

UNESCORTED ACCESS WAS REVOKED AT 08:07 7/21/93. BACKGROUND SCREENING RECORDS OBTAINED FROM THE EMPLOYER ON LATE AFTERNOON OF 7/21/93. THE CORPORATE NUCLEAR ASSESSMENT DEPARTMENT IS REVIEWING THE INFORMATION AND THE INVESTIGATION IS CONTINUING." END OF TEXT

THE CRIMINAL HISTORY CONSISTED OF DRUG USE, DISTURBING THE PEACE, AND BURGLARY. THE LICENSEE HAS INFORMED THE RESIDENT INSPECTOR

TWO INDIVIDUALS WERE GRANTED UNESCORTED ACCESS BASED ON FALSIFIED RECORDS AND AN INCOMPLETE BACKGROUND INVESTIGATION.

THE LICENSEE HAS DETERMINED THAT UNESCORTED ACCESS WOULD NOT HAVE BEEN GRANTED IF A COMPLETE AND PROPER INVESTIGATION HAD BEEN COMPLETED. A PRELIMINARY INVESTIGATION BY THE LICENSEE INTO THE EMPLOYMENT CERTIFICATION PROGRAM USED BY THEIR SUBCONTRACTOR HAS REVEALED SEVERAL DISCREPANCIES. IN ADDITION, OTHER INDIVIDUALS (APPROX 15) CERTIFIED BY THE SUBCONTRACTOR HAVE HAD THEIR UNESCORTED ACCESS REVOKED AND HAVE BEEN ESCORTED OFF SITE. THESE INDIVIDUALS WERE WORKING INSIDE THE UNIT 1 CONTAINMENT ON STEAM GENERATOR TUBE PLUGGING AND REMOVAL. THE LICENSEE WILL DETERMINE THE IMPACT THESE INDIVIDUALS MAY HAVE HAD ON PLANT SAFETY SO APPROPRIATE CORRECTIVE MEASURES CAN BE TAKEN. THE LICENSEE HAS INFORMED THE REGION 5 SAFEGUARDS BRANCH INSPECTOR (SCHAEFER) AND WILL INFORM THE NRC RESIDENT INSPECTOR.

BASED ON AN ALLEGATION REGARDING A NON-LICENSED, NON-SUPERVISORY EMPLOYEE POSSESSING AN ILLEGAL DRUG INSIDE THE DIABLO CANYON PROTECTED AREA, A CORPORATE SECURITY INVESTIGATION WAS CONDUCTED.

AT APPROXIMATELY 1850 PST, THE LICENSEE DETERMINED BASED ON AN INTERVIEW WITH THE SUBJECT EMPLOYEE AND AFTER CONSULTING WITH SECURITY MANAGEMENT THAT THE ALLEGATION WAS VALID.

THE EMPLOYEE ADMITTED TO POSSESSING A PRESCRIPTION MEDICATION (DARVOCET) WHILE IN THE PROTECTED AREA AND ADMITTED TO GIVING SOME OF THE DRUG TO A CO-WORKER. DARVOCET IS A SCHEDULE 4 CONTROLLED SUBSTANCE. THE LICENSEE FURTHER ADDED THAT THE EMPLOYEE HAD MULTIPLE PRESCRIPTIONS FOR DARVOCET.

THE SUBJECT EMPLOYEE AND THE CO-WORKER WHO RECEIVED THE DRUG FROM THE SUBJECT EMPLOYEE HAVE HAD THEIR ACCESS SUSPENDED PENDING FURTHER ACTION FROM THE LICENSEE.

THE LICENSEE WILL NOTIFY THE NRC RESIDENT INSPECTOR. NO OTHER NOTIFICATIONS ARE PLANNED AT THIS TIME.

INDIVIDUAL GRANTED ACCESS BASED ON FALSIFIED RECORDS AND INCOMPLETE BACKGROUND INVESTIGATION.

BASED ON PREVIOUS DEFICIENCIES IN THE EMPLOYMENT CERTIFICATION PROGRAM USED BY A PLANT VENDOR (B&W), THE LICENSEE (ARIZONA PUBLIC SERVICE) SENT AN AUDIT TEAM TO THE VENDOR'S SITE FOR FOLLOWUP INVESTIGATIONS. THE INVESTIGATION REVEALED THAT AN INDIVIDUAL CURRENTLY WORKING AT THE PLANT WOULD NOT HAVE BEEN GRANTED UNESCORTED ACCESS BASED ON HIS PREVIOUS WORK HISTORY AND THAT HE HAD FALSIFIED HIS EMPLOYMENT RECORDS.

THE INDIVIDUAL'S UNESCORTED ACCESS HAS BEEN REVOKED. THE INDIVIDUAL IS NOT CURRENTLY ON SITE AND HAS NOT YET BEEN INFORMED OF THE LICENSEE'S ACTION. A WORK REVIEW OF THE INDIVIDUAL IS IN PROGRESS. THE LICENSEE NOTES THAT THIS INDIVIDUAL HAS WORKED AT A NUMBER OF NUCLEAR POWER PLANTS UNDER THE FALSIFIED RECORDS AND THAT THOSE UTILITIES HAVE BEEN NOTIFIED OF THESE FINDINGS.

THE NRC RESIDENT INSPECTOR WILL BE INFORMED BY THE LICENSEE.

SEE RELATED EVENT #26316.

\* \* \* UPDATE ON 11/16/93 AT 2013 EST FROM NAPIER TAKEN BY KARSCH  
 \* \* \*

THE LICENSEE REVIEWED THE RESULTS OF AN AUDIT CONDUCTED AT THE VENDOR FACILITY. BASED ON THE PRELIMINARY FINDINGS AND THE INSTANCES PREVIOUSLY REPORTED, THE LICENSEE HAS CONCLUDED THAT OTHER INDIVIDUALS' ACCESS AUTHORIZATION BY THE VENDOR MAY HAVE SIMILAR DISCREPANCIES. THE LICENSEE IS IN THE PROCESS OF TERMINATING UNESCORTED ACCESS FOR THE REMAINING 75 INDIVIDUALS WHO WERE CERTIFIED BY THE VENDOR PENDING INDEPENDENT REVIEW. THESE INDIVIDUALS WILL BE ESCORTED OFF SITE AS NECESSARY. THE LICENSEE WILL INFORM THE NRC RESIDENT INSPECTOR AND HAS REPORTED THE RESULTS OF THEIR AUDIT TO REGION 5. R5DO (WENSLAWSKI) NOTIFIED.

A REVOLVER WAS DISCOVERED TO BE MISSING FROM THE ARMORY DURING A WEEKLY INSPECTION.

AT ABOUT 12:00 ET 3/11/94, A NUCLEAR SHIFT SECURITY SUPERVISOR, WHILE PERFORMING A WEEKLY OPERATING INSPECTION FOR REVOLVERS, DISCOVERED THAT ONE OF THE SPARE WEAPONS WAS MISSING. A SEARCH OF THE ARMORY WAS CONDUCTED WITHOUT LOCATING THE WEAPON. SECURITY WEAPONS HAVE BEEN VERIFIED AGAINST AN INVENTORY LIST. COMPENSATORY ACTIONS INCLUDE INCREASING THE SEARCH OF OUT GOING PACKAGES FROM THE PROTECTED AREA WITH A METAL DETECTOR. THE LAST INVENTORY WAS CONDUCTED ON 3/4/94 AND ALL WEAPONS WERE VERIFIED. THE LICENSEE HAS ALSO STATIONED A SECURITY GUARD IN THE CONTROL ROOM.

THE LICENSEE HAS INFORMED THE RESIDENT INSPECTOR AND REGION III PERSONNEL (PIRTLE AND CREED). THE LICENSEE WILL ALSO INFORM LOCAL LAW ENFORCEMENT AGENCIES IF THE WEAPON IS NOT FOUND.

A NON-LICENSED CONTRACT EMPLOYEE WAS DISCOVERED TO HAVE A PREVIOUS FELONY CONVICTION. THE LICENSEE IS MAKING THIS REPORT IN ACCORDANCE WITH 10 CFR 73.71(b) USING GENERIC LETTER 93-03 ENCLOSURE 1 AS GUIDANCE.

THE EMPLOYEE HAD ACCESS TO THE SITE FROM 3/17/94 TO 3/29/94 AND DID NOT PERFORM ANY SAFETY RELATED WORK. ON 3/10/94 THE EMPLOYEE FILLED OUT A PERSONNEL ACCESS QUESTIONNAIRE AND STATED IN THAT QUESTIONNAIRE THAT THERE WERE NO FELONY CONVICTIONS IN THE EMPLOYEE'S PAST. FBI INFORMATION RECEIVED IN APRIL OF 1994 REVEALED THAT THE EMPLOYEE HAD A PRIOR FELONY CONVICTION, HOWEVER, THE FBI RECORD DID NOT INDICATE THE DISPOSITION OF THE FELONY COUNTS.

THE LICENSEE CONTRACTED WITH A COMPANY (EQUIFAX) TO PERFORM A LOCAL AREA AGENCY CHECK TO DETERMINE THE DISPOSITION OF THE FELONY COUNTS. EQUIFAX INFORMED THE LICENSEE THAT THE EMPLOYEE ONLY HAD MISDEMEANOR CONVICTIONS AND NOT FELONY CONVICTIONS. THE LICENSEE DID NOT PURSUE ANY FURTHER ACTION BECAUSE THE CONVICTIONS WERE MISDEMEANOR AND NOT FELONY.

TODAY THE LICENSEE RECEIVED THE STATE OF CALIFORNIA DEPARTMENT OF JUSTICE CRIMINAL RECORDS CHECK THAT INDICATED THAT THE EMPLOYEE HAD FELONY CONVICTIONS. THE LICENSEE HAS CONTACTED EQUIFAX ABOUT THE PROBLEM. EQUIFAX STATED THAT THEIR ORIGINAL REPORT WAS IN ERROR.

THE LICENSEE HAS FLAGGED THE INDIVIDUAL'S RECORDS TO PREVENT THE EMPLOYEE FROM REGAINING ACCESS TO THE SITE. THE LICENSEE WILL INFORM THE RESIDENT INSPECTOR. SEE HOO LOG FOR ADDITIONAL DETAILS.

SECURITY PERSONNEL RECEIVED AND REVIEWED A BACKGROUND INVESTIGATION ON A CONTRACT PAINTER INDICATING A CRIMINAL HISTORY THAT WAS NOT IDENTIFIED WHEN THE INDIVIDUAL WAS INITIALLY EMPLOYED ON SITE. THE CONTRACTOR WAS GRANTED ACCESS BASED UPON A TEMPORARY CLEARANCE ON 5/31/94. THE INDIVIDUAL'S ACCESS TO THE PROTECTED AREA WAS TERMINATED ON 6/29/94, AT THE END OF THE OUTAGE. THE LICENSEE IS INVESTIGATING WHICH VITAL AREAS WERE ACCESSED AND WHETHER THAT WAS CONSISTENT WITH HIS ASSIGNED WORK ACTIVITIES. THERE HAS BEEN NO DETRIMENTAL IMPACT IDENTIFIED AS A RESULT OF HIS ACCESS TO THE PROTECTED AREA. THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR.

POTENTIAL TAMPERING OF SAFETY RELATED EQUIPMENT DISCOVERED.

THE NRC RESIDENT INSPECTOR FOUND SEVERAL INDICATING LIGHT LENSES FOR VARIOUS VALVES ON A REMOTE SHUTDOWN PANEL WERE SHOWING THE WRONG INDICATIONS. FURTHER INVESTIGATION DETERMINED THAT APPROXIMATELY

20 RED AND GREEN VALVE POSITION INDICATING LENSES ON THE "A" AND "B"

REMOTE SHUTDOWN PANELS WERE SWAPPED.

PLANT SECURITY WAS IMMEDIATELY NOTIFIED. INVESTIGATION IS IN PROGRESS

TO DETERMINE IF ANY MAINTENANCE HAS BEEN PERFORMED ON THE SHUTDOWN PANELS RECENTLY. THE SHUTDOWN PANELS ARE IN A VITAL AREA WHICH REQUIRES A KEY CARD FOR ENTRY. THEREFORE, A RECORD OF ALL PERSONNEL WHO HAVE BEEN IN THE VICINITY OF THE PANELS IS AVAILABLE. CHECKS OF OTHER

EQUIPMENT

PANELS HAVE NOT DISCOVERED ANY SIMILAR CONDITION.

THERE IS NOT YET A BASELINE DATE OF WHEN THE LENSES WERE LAST CONFIRMED TO BE CORRECT. THIS IS CONSIDERED ONLY A PRECAUTIONARY REPORT AT THIS TIME AND HAS NOT YET BEEN CLASSIFIED AS A TAMPERING EVENT.

\*\*\* UPDATE 11/22/94 1245EDT FROM:HAZELWOOD BY:SCARFO \*\*\* THE LICENSEE IS RETRACTING THIS EVENT ON THE BASIS THAT THE INVESTIGATION FOUND NO MALEVOLENT INTENT ON THE PART OF THE INDIVIDUALS INVOLVED IN THIS EVENT AND NO OTHER ABNORMALITIES WERE FOUND. THE SWITCHED INDICATOR LIGHTS DID NOT AFFECT THE ABILITY OF THE REMOTE SHUTDOWN PANEL TO PERFORM ITS INTENDED FUNCTION NOR DID CAUSE OF WOULD'VE CAUSED ESF SYSTEM ACTUATION. THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR. R4DO(HARRELL) NOTIFIED.

WEAPON IN VITAL AREA LEFT UNATTENDED FOR ABOUT 5 MINUTES.

ON 12/09/94 A SECURITY WEAPON WAS LEFT UNATTENDED INSIDE A VITAL AREA WHEN A SECURITY OFFICER INADVERTENTLY LEFT THE WEAPON AFTER REMOVING HIS COAT. THE WEAPON WAS FOUND BY AN EQUIPMENT OPERATOR

APPROXIMATELY FIVE MINUTES LATER. THE EVENT WAS REVIEWED FOR REPORTABILITY AT THAT TIME, SINCE THE LOCATION OF THE WEAPON WAS VERIFIABLE FOR THE FIVE MINUTE PERIOD AND NOT LOST, AND SINCE ACCESS TO THE VITAL AREA IN QUESTION WAS REVIEWED AND THE PERSONNEL IN THE AREA DURING THE TIME PERIOD THAT THE WEAPON WAS UNATTENDED WERE AUTHORIZED FOR ACCESS, IT WAS DETERMINED TO BE NON-REPORTABLE BUT LOGGABLE. THE EVENT WAS LOGGED ON 12/09/94. AN ATTEMPT WAS MADE TO CONTACT THE REGION SECURITY STAFF AND THE SITE SENIOR RESIDENT TO NOTIFY THEM OF THE EVENT, BUT BECAUSE IT WAS NOT REGULAR BUSINESS HOURS THEY WERE NOT READILY AVAILABLE ON 12/09/94 (FRIDAY). THE SENIOR RESIDENT INSPECTOR WAS NOTIFIED ON 12/10/94, AND THE REGION WAS NOTIFIED ON 12/12/94 (MONDAY). WNP-2 CONTACTED SEVERAL OTHER PLANTS THAT HAVE HAD SIMILAR EVENTS. THOSE PLANTS CONTACTED HAD NOT REPORTED THOSE EVENTS. HOWEVER, BASED ON DISCUSSIONS WITH REGIONAL PERSONNEL, AND BASED ON THEIR DISCUSSIONS WITH NRR, IT HAS BEEN DETERMINED THAT THE NRCs EXPECTATION IS THAT THIS TYPE OF EVENT BE REPORTED. THIS ADDITIONAL GUIDANCE IS THE BASIS FOR THIS REPORT.

FOR ADDITIONAL DETAILS REFER TO HEADQUARTERS OPERATIONS OFFICERS LOG BOOK.

CONTRACTOR EMPLOYEE ADMITTED TO SITE WITHOUT PREAUTHORIZATION.

A LICENSEE INVESTIGATION OF AN ALLEGATION RECEIVED 12/22/94 REVEALED THAT SECURITY HAD IMPROPERLY AUTHORIZED ENTRY INTO THE PA ON 8/19, 8/22, AND 8/23/94 OF A CONTRACTOR ON THE ACCESS DENIED LIST. THE CONTRACTOR WAS ESCORTED AT ALL TIMES AND DID NOT ENTER ANY VITAL AREAS. THE SECURITY OFFICER INVOLVED, AN EMPLOYEE OF BURNS SECURITY, MAY HAVE DESTROYED SECURITY RECORDS IN AN ATTEMPT TO CONCEAL HIS FAILURE TO CHECK THE ACCESS DENIED LIST. THE SECURITY GUARD RESIGNED EFFECTIVE 12/23/94. SEE HOO LOG FOR DETAILS. THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR AND WILL INFORM R3(JIM CREED) ON TUESDAY 12/27/94.

SUPERVISOR WITHIN PROTECTED AREA UNDER INFLUENCE OF ALCOHOL.

A NORTHERN STATES POWER COMPANY NON-LICENSED SUPERVISOR WAS FOUND TO BE UNDER THE INFLUENCE OF ALCOHOL WHILE WORKING INSIDE THE PROTECTED AREA. HE WAS OBSERVED TO HAVE SLURRED SPEECH AND SMELLED OF ALCOHOL. HE TESTED POSITIVE AT THE SITE MEDICAL FACILITY AND WAS SENT TO A MEDICAL CENTER FOR A MORE EXTENSIVE FITNESS FOR DUTY EXAM. THE INDIVIDUAL'S SITE ACCESS HAS BEEN TERMINATED. UPPER MANAGEMENT IS AWARE OF THE SITUATION AND IS MAKING AN ASSESSMENT OF WHAT AFFECT THE INDIVIDUAL'S ACTIONS COULD HAVE HAD ON THE PLANTS.

THE LICENSEE HAS INFORMED THE NRC RESIDENT INSPECTOR.

FITNESS FOR DUTY REPORT INVOLVING A LICENSED UNIT SHIFT FOREMAN (LICENSED SRO).

A UNIT SHIFT FOREMAN RECEIVED A PRESUMED POSITIVE ON A RANDOM TEST CONDUCTED ON 4/10/91. THIS WAS CONFIRMED POSITIVE BY THE MEDICAL REVIEW OFFICER TODAY, 04/17/91. THE SUBSTANCE INVOLVED WAS NOT MADE AVAILABLE IN THE REPORT TO THE SITE PERSONNEL.

INFORMATION ON THE SUBSTANCE WILL HAVE TO BE OBTAINED FROM THE CORPORATE OFFICE.

THE INDIVIDUAL'S ACCESS HAS BEEN DENIED. A WORK PERFORMANCE INVESTIGATION IS BEING STARTED TO DETERMINE THE RECENT ACTIVITIES OF THE INDIVIDUAL. THE INDIVIDUAL HAD BEEN IN TRAINING FOR THE PAST COUPLE OF WEEKS BUT MORE RECENT ACTIVITIES ARE STILL BEING INVESTIGATED. THE PROCESS OF REFERRING THE INDIVIDUAL TO THE EMPLOYEE ASSISTANCE PROGRAM IS BEING STARTED.

THERE ARE NO KNOWN ADVERSE AFFECTS TO THE PLANT FROM THIS EVENT.

THE NRC RESIDENT HAS BEEN NOTIFIED.

CONTRACTOR SUPERVISOR TESTED POSITIVE FOR ALCOHOL.

UPON ENTERING THE PROTECTED AREA, SECURITY PERSONNEL DETECTED ALCOHOL ON THE BREATH OF A CONTRACTOR SUPERVISOR (FOR THE TECHNICAL GROUP). THE SUPERVISOR WAS DETAINED AND TESTED "FOR CAUSE" FOR ALCOHOL. THE TEST WAS POSITIVE FOR ALCOHOL AND HE WAS ALSO SCREENED FOR DRUGS (RESULTS NOT YET AVAILABLE). THE SUPERVISOR'S UNSCORTED ACCESS WAS TERMINATED AND EVALUATION OF THE HIS SAFETY RELATED WORK IS IN PROGRESS.

THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR.

EMPLOYEE ARRESTED AT SITE ON CONTROLLED SUBSTANCES VIOLATIONS.

LOCAL POLICE SERVED AN ARREST WARRANT AT THE PLANT SITE FOR AN EMPLOYEE FOR USE, SALE AND POSSESSION OF A CONTROLLED SUBSTANCE (COCAINE). THE EMPLOYEE WAS BADGED BUT WAS IN A NON-SUPERVISORY CAPACITY. HE WAS ASSIGNED TO SECONDARY CHEMISTRY MONITORING AND DID NOT PERFORM ANY SAFETY RELATED WORK. ALL HIS WORK WAS ROUTINELY CHECKED. AT THE TIME OF THE ARREST, HE DID NOT APPEAR INTOXICATED AND A SEARCH OF HIS WORK AREA REVEALED NO DRUGS. HIS PLANT ACCESS HAS BEEN TERMINATED AND THE LICENSEE IS AWAITING FURTHER INFORMATION FROM LAW ENFORCEMENT AUTHORITIES BEFORE TAKING ADDITIONAL ADMINISTRATIVE ACTIONS.

THE NRC RESIDENT INSPECTOR HAS BEEN INFORMED. NO OTHER NOTIFICATIONS HAVE BEEN MADE BY THE LICENSEE.

NON-LICENSED OPERATOR ARRESTED FOR POSSESSION OF DRUG PARAPHERNALIA.

ON 4/27/91, A NON-LICENSED OPERATOR FROM GRAND GULF WAS ARRESTED IN VICKSBURG, MISSISSIPPI, FOR POSSESSION OF DRUG PARAPHERNALIA. ON 4/29/91, A CONFIDENTIAL CALL WAS PLACED TO PLANT MANAGEMENT INFORMING THEM OF THE SITUATION. THE LICENSEE IMMEDIATELY TERMINATED THE EMPLOYEE'S ACCESS TO THE PLANT AND CALLED HIM IN FOR TESTING. TESTING WAS NEGATIVE, HOWEVER, THE EMPLOYEE ADMITTED TO COCAINE USE. THE EMPLOYEE WAS PLACED IN AN EMPLOYMENT ASSISTANCE PROGRAM AND HIS FUTURE STANDING DEPENDS ON THE RESULT OF THE PROGRAM EVALUATION.

THE EMPLOYEE STATED THAT HE HAD NOT EVER REPORTED TO WORK UNDER THE INFLUENCE. LICENSEE IS CURRENTLY EXAMINING WORK RECORDS OF THE EMPLOYEE.

THE LICENSEE STATED THAT A POTENTIAL FOR ADVERSE PUBLICITY EXISTS BASED ON A INQUIRY TODAY FROM THE VICKSBURG EVENING POST CONCERNING THE CIRCUMSTANCES OF THE ARREST AND DUTIES OF THE OPERATOR.

THE NRC RESIDENT INSPECTOR HAS BEEN INFORMED.

CORPORATE SUPERVISOR WITH SITE ACCESS TO BOTH PERRY AND DAVIS-BESSE TESTED POSITIVE FOR CONTROLLED SUBSTANCE.

AT 1445 ON 5/13/91 THE ACCESS AUTHORIZATION SUPERVISOR WAS NOTIFIED BY THE MEDICAL REVIEW OFFICER (MRO) OF A CONFIRMED POSITIVE DRUG TEST RESULT FROM A SAMPLE PROVIDED BY A COMPANY MANAGEMENT REPRESENTATIVE (SUPERVISOR) IN THE PROCUREMENT ORGANIZATION. THIS INDIVIDUAL'S PRIMARY REPORTING POINT IS AT THE CORPORATE FACILITY IN INDEPENDENCE, OHIO, BUT HE HAS A FIELD OFFICE ONSITE AT BOTH PERRY AND DAVIS-BESSE FACILITIES OUTSIDE THE PROTECTED AREAS. THE INDIVIDUAL'S TEST SAMPLE WAS COLLECTED ON 5/9/91 AND THE MRO HAS MET WITH THE INDIVIDUAL AND DETERMINED THAT THIS IS A CONFIRMED POSITIVE TEST. AN INVESTIGATION IS CONTINUING OF THE CIRCUMSTANCES OF THIS AND OF THE INDIVIDUAL'S WORK ACTIVITIES TO DETERMINE ANY SAFETY RELATED IMPLICATIONS. THE INDIVIDUAL'S ACCESS HAS BEEN SUSPENDED AND A MEETING WITH THE MRO IS PLANNED TO DISCUSS THE COMPANY SUBSTANCE ABUSE PROGRAM THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR AT PERRY AND WILL INFORM THE NRC RESIDENT INSPECTOR AT DAVIS-BESSE. ALSO, LICENSEE HAS DISCUSSED THIS REPORT WITH REGION 3 (JIM CREED).

A NUCLEAR SECURITY SUPERVISOR WAS ARRESTED BY THE CALVERT COUNTY SHERIFF'S DEPARTMENT IN POSSESSION OF MARIJUANA ON COMPANY PROPERTY OUTSIDE THE PROTECTED AREA. THE PRELIMINARY INVESTIGATION REVEALS THAT HE HAD PERSONALLY GROWN THE MARIJUANA ON REMOTE COMPANY PROPERTY IN THE WOODS ABOUT 1 MILE SE OF THE PLANT. THE INDIVIDUAL HAS BEEN SUSPENDED AND HIS ACCESS TERMINATED. THE PARENT COMPANY FOR CALVERT CLIFFS IS INVESTIGATING THE EVENT. THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR, STATE AND LOCAL AUTHORITIES AND MADE A PRESS RELEASE.

A SENIOR NUCLEAR SECURITY OFFICER FAILED A DRUG TEST ADMINISTERED FOR CAUSE.

ON 8/13/91, AT APPROXIMATELY 1100EDT, THE ASSISTANT GENERAL SUPERVISOR NUCLEAR SECURITY ELECTED TO REFER A SENIOR NUCLEAR SECURITY OFFICER FOR A FITNESS FOR DUTY EXAMINATION DUE TO FREQUENT PATTERNS OF TARDINESS. THE SENIOR OFFICER CALLED IN PRIOR TO ARRIVING ON-SITE TO REPORT THAT HE WOULD BE LATE FOR WORK. IMMEDIATELY UPON ARRIVING FOR WORK AND PRIOR TO ASSUMING ANY SECURITY RELATED RESPONSIBILITIES, HE WAS REFERRED FOR THE FITNESS FOR DUTY EXAMINATION.

FREQUENT OR RECURRING PATTERNS OF TARDINESS ARE IDENTIFIED AS UNUSUAL OR ABERRANT JOB PERFORMANCE INDICATORS UNDER BG&Es CONTINUED BEHAVIORAL OBSERVATION PROGRAM.

THE SENIOR NUCLEAR SECURITY OFFICER IN QUESTION WAS SCHEDULED TO PERFORM IN THE CAPACITY AS THE SECURITY SHIFT SUPERVISOR ON 8/13/91.

AT 1120EDT A BREATH ALCOHOL SCREENING ANALYSIS INDICATED A

CONFIRMED A POSITIVE TEST ABOVE THE CUT-OFF LEVEL OF .04%. THE MEDICAL REVIEW OFFICER EVALUATED AND CONFIRMED THE RESULTS.

THE SENIOR NUCLEAR SECURITY OFFICER'S ACCESS WAS SUSPENDED AND HE WAS ESCORTED OFF-SITE TO HIS HOME BY SECURITY SUPERVISION. FURTHER ACTIONS AND DISPOSITION WILL BE DETERMINED AS NECESSARY AFTER REVIEW BY THE APPROPRIATE COMPANY PERSONNEL IN ACCORDANCE WITH BG&E FITNESS FOR DUTY AND APPLICABLE PORTIONS OF 10CFR26.

AT NO TIME WAS THE SENIOR OFFICER PERMITTED TO PERFORM IN ANY SECURITY RELATED CAPACITY UNTIL THE RESULTS OF THE FITNESS FOR DUTY EXAMINATION WERE OBTAINED. THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR.

SUPERVISOR TESTED POSITIVE FOR ALCOHOL.

A VIRGINIA POWER RADIATION PROTECTION SHIFT SUPERVISOR WAS ON COMPANY BUSINESS AT PLANT VOGTLE WHEN ALCOHOL WAS DETECTED ON HIS BREATH. THE INDIVIDUAL WAS SENT TO THE VOGTLE FITNESS FOR DUTY FACILITY WHERE HE TESTED POSITIVE FOR ALCOHOL. THE INDIVIDUAL HAD A BACKUP BLOOD SAMPLE DRAWN BUT THE RESULTS HAVE NOT YET BEEN RECEIVED. VOGTLE DENIED HIM FURTHER PLANT ACCESS AND HE IS RETURNING TO THE SURRY POWER STATION. HIS BADGE ACCESS TO BOTH SURRY AND NORTH ANNA HAS ALSO BEEN TERMINATED. HIS FUTURE STATUS WITH VIRGINIA POWER WILL BE BASED ON THE EVALUATION OF AN EMPLOYEE ASSISTANCE PROGRAM AND A REPORT FROM THE MEDICAL REVIEW OFFICER. THE LICENSEE CONSIDERS THAT A WORK REVIEW IS UNNECESSARY.

THE NRC RESIDENT INSPECTOR WILL BE NOTIFIED.

\*\*\*UPDATE 09/26/91 @ 10:20 BY PRICE TO GOULD\*\*\* THE LICENSEE CALLED TO CLASSIFY THE TYPE OF ALCOHOL TEST THAT WAS CONDUCTED ON THE INDIVIDUAL AS A PRE-ACCESS TEST AND NOT A "FOR CAUSE TEST". THE RI WILL BE INFORMED.

AT 1605 PST ON 11/22/91, THE LICENSEE'S MEDICAL REVIEW OFFICER DETERMINED THAT AN EMPLOYEE, WHO IS A LICENSED REACTOR OPERATOR ASSIGNED TO UNITS 2 AND 3, HAD TESTED POSITIVE ON A DRUG SCREEN URINALYSIS TEST. THIS IS THE FIRST POSITIVE DRUG TEST RESULT FOR THIS EMPLOYEE. THE EMPLOYEE HAS BEEN PLACED ON INVESTIGATORY SUSPENSION PENDING FURTHER MANAGEMENT REVIEW. THE DRUG SCREEN URINALYSIS TEST WAS ADMINISTERED AS PART OF THE RANDOM TESTING PROGRAM ON 11/15/91.

THE EMPLOYEE'S PROTECTED AND VITAL AREA UNESCORTED ACCESS AUTHORIZATION WAS TERMINATED WITHIN 10 MINUTES. THE EMPLOYEE WAS PERFORMING DUTIES AS A LICENSED OPERATOR WITHIN THE PLANT PROTECTED AND VITAL AREAS ON THE DAY OF THE TEST AND HAS CONTINUED TO PERFORM THESE DUTIES UNTIL TODAY.

THERE HAS BEEN NO MEDIA INTEREST IN THIS EVENT NOR HAVE OTHER OFFSITE AGENCIES BEEN NOTIFIED. THE NRC RESIDENT INSPECTOR HAS BEEN INFORMED BY THE LICENSEE.

LICENSED OPERATOR TESTED POSITIVE FOR ALCOHOL DURING RANDOM FITNESS FOR DUTY TEST.

A LICENSED OPERATOR WHO WAS ON DUTY IN THE CONTROL ROOM WAS CALLED FOR A RANDOM FITNESS FOR DUTY TEST. BREATHALYZER RESULTS AT 1034 EST WERE .104 BAC. A SECOND BREATHALYZER TEST AT 1043 EST YIELDED .121 BAC. THE LIMIT IS .040 BAC. THIS IS THIS INDIVIDUAL'S FIRST POSITIVE TEST.

THE LICENSEE SEARCHED THE CONTROL ROOM AREA, THE OPERATORS PERSONAL LOCKER AND VEHICLE FOR CONTRABAND. NONE WAS FOUND.

THE OPERATOR WAS ADMITTED TO THE PROTECTED AREA AT 0623 EST. THE INDIVIDUAL WAS NOT DIRECTLY INVOLVED IN ANY SAFETY RELATED ACTIVITY DURING THE TIME HE WAS IN THE PROTECTED AREA. CONTROL ROOM PERSONNEL WHO WORKED IN THE AREA OF THE INDIVIDUAL AS WELL AS SECURITY GUARDS WHO ADMITTED HIM TO THE PROTECTED AREA OBSERVED NO UNUSUAL ACTIONS NOR DETECTED ANY SMELL OF ALCOHOL AROUND THE INDIVIDUAL.

THE INDIVIDUALS ACCESS TO THE PROTECTED AREA HAS BEEN PULLED PENDING FURTHER INVESTIGATION. THE INDIVIDUAL IS SCHEDULED TO MEET WITH THE LICENSEE MEDICAL REVIEW OFFICER ON 12/04/91. THE INDIVIDUAL AGREED TO SUBMIT TO A BLOOD TEST. THE RESULTS ARE EXPECTED BACK ON 12/04/91.

THE LICENSEE DOES NOT PLAN TO ISSUE A PRESS RELEASE AT THIS TIME. THE NRC RESIDENT INSPECTOR HAS BEEN NOTIFIED.

LICENSEE DETERMINED AT 1610 EST ON 01/03/92 THAT A POSITIVE DRUG TEST RESULT INVOLVING A SHIFT TECHNICAL ADVISOR WAS POTENTIALLY REPORTABLE.

ON 11/27/91, A RANDOM FITNESS FOR DUTY TEST WAS PERFORMED ON AN ON-DUTY SHIFT TECHNICAL ADVISOR. ON 12/04/91, THE LICENSEE RECEIVED THE RESULTS FROM THE TEST AND ON 12/05/91, DETERMINED THAT THE RESULTS WERE POSITIVE FOR MARIJUANA. THE EMPLOYEE WAS SUSPENDED ON 12/05/91 AND SUBSEQUENTLY TERMINATED.

THE LICENSEE INITIALLY DETERMINED THAT THIS EVENT WAS NOT REPORTABLE UNDER 10-CFR-26.73. THIS EVENT WAS LOGGED FOR

INCLUSION IN THE LICENSEE'S SEMI-ANNUAL FITNESS FOR DUTY REPORT.

AFTER FURTHER REVIEW BY THEIR LICENSING DEPARTMENT, THE LICENSEE DISCOVERED THAT THE EMPLOYEE HAD OBTAINED A LIMITED LICENSE UNDER PART 55 FOR FUEL MOVEMENT. BASED UPON THIS DISCOVERY, THE LICENSEE HAS DETERMINED THAT THIS EVENT WAS POTENTIALLY REPORTABLE. THE LICENSEE IS INVESTIGATING THE WORK PERFORMED BY THIS INDIVIDUAL TO SEE IF HE WAS INVOLVED IN ANY SAFETY RELATED ACTIVITY DURING THE TIME BETWEEN 11/27 AND 12/05/91.

THE NRC RESIDENT HAS BEEN INFORMED.

AN INDIVIDUAL TESTED FOR CAUSE WAS NOT PROPERLY SCREENED DUE TO A PROCEDURAL DEFICIENCY.

ON MARCH 6, 1992 AN INDIVIDUAL WAS GIVEN A BREATH TEST FOR ALCOHOL BECAUSE OF SYMPTOMS OF INTOXICATION. HE WAS BELOW THE ACTION THRESHOLD AND RETURNED TO DUTY. AT THAT TIME A TEST FOR OTHER DRUGS SHOULD ALSO HAVE BEEN PERFORMED TO COMPLY WITH CORPORATE POLICY. THE ADDITIONAL TESTING WAS NOT DONE DUE TO A DEFICIENCY IN THE SITE PROCEDURE. THE REQUIREMENT WAS OMITTED.

THE INDIVIDUAL HAS NOW HAD THE ADDITIONAL TESTS AND IS ON ADMINISTRATIVE HOLD PENDING RECEIPT OF THE TEST RESULTS. A PROCEDURE REVISION IS BEING PROCESSED. SITE SECURITY WILL CONFIRM THAT THIS PROBLEM DOES NOT EXIST AT OTHER COMMONWEALTH EDISON SITES. THE LICENSEE WILL INFORM THE NRC RESIDENT INSPECTOR.

- SUPERVISOR TESTED POSITIVE FOR DRUGS A SECOND TIME SINCE JUNE 1987 -

A SUPERVISOR WITH UNESCORTED PLANT ACCESS AUTHORIZATION WHO WORKS ON NONSAFETY RELATED EQUIPMENT TESTED POSITIVE FOR DRUGS. THE POSITIVE RESULTS ARE FROM A FOLLOWUP DRUG / ALCOHOL SCREENING TEST CONDUCTED ON 03/20/92.

LICENSEE SUSPENDED THE SUPERVISOR'S SITE ACCESS AUTHORIZATION AT 1145 ON 03/25/92. LICENSEE DETERMINED THAT THE SUPERVISOR HAD NOT ENTERED THE SITE SINCE 12/19/91. LICENSEE HAS REFERRED THE SUPERVISOR TO THE EMPLOYEE ASSISTANCE PROGRAM FOR FURTHER EVALUATION.

THIS WAS THE SUPERVISOR'S SECOND POSITIVE TEST FOR DRUGS. THE FIRST POSITIVE TEST WAS IN JUNE 1987.

LICENSEE WILL INFORM THE NRC RESIDENT INSPECTOR.

A CONTRACT SUPERVISOR ASSIGNED TO PERFORM DUTIES WITHIN THE SCOPE OF 10 CFR PART 26 WAS DETERMINED TO BE UNFIT FOR SCHEDULED WORK DUE TO CONSUMPTION OF ALCOHOL.

ON MARCH 29, 1992, AT 0625 EST, AS A CONTRACT SUPERVISOR REQUESTED HIS PHOTO BADGE FOR ACCESS TO THE PLANT PROTECTED AREA, A SECURITY OFFICER DETECTED AN ODOR NORMALLY ASSOCIATED WITH INTOXICANTS. THE INDIVIDUAL WAS DENIED ACCESS. AT 0651, A TEST WAS CONDUCTED USING A BREATH ANALYZER DEVICE. THE TEST REFLECTED A BLOOD ALCOHOL CONCENTRATION [BAC] OF 0.051%. A SUBSEQUENT TEST WITH THE SAME DEVICE AT 0657 EST REFLECTED 0.050% BAC. CONFIRMATORY TESTS USING ANOTHER BREATH ANALYZER DEVICE WERE CONDUCTED AT 0710 AND 0716 EST. THE RESPECTIVE BAC READINGS WERE 0.045% AND 0.042%. AS A RESULT OF THIS POSITIVE ALCOHOL TEST,

THE TEST WAS ELEVATED TO "FOR CAUSE" AND URINE WAS COLLECTED FOR TESTING FOR OTHER SUBSTANCES.

ALTHOUGH THE SUBJECT WAS A SUPERVISOR, HE HAS NOT WORKED ON SAFETY RELATED SYSTEMS OR PERFORMED ANY CRITICAL WORK THAT MIGHT AFFECT THE SAFETY OR SECURITY OF THE PLANT. IN ACCORDANCE WITH THE LICENSEE FITNESS FOR DUTY PROGRAM, THE INDIVIDUAL WILL BE DENIED ACCESS FOR A MINIMUM OF 14 DAYS. AFTER THIS TIME, HE MUST AT MINIMUM, PROVIDE PROOF OF COUNSELLING, SUBMIT TO OBSERVED - CONTROLLED SUBSTANCE TESTING, AND PARTICIPATE IN AN ACCELERATED FOLLOW UP RANDOM TESTING PROGRAM.

THE NRC RESIDENT INSPECTOR HAS BEEN NOTIFIED OF THIS EVENT. NO OTHER NOTIFICATIONS ARE REQUIRED OR ANTICIPATED AT THIS TIME.

EMPLOYEE TESTED POSITIVE FOR ALCOHOL.

A 'FOR CAUSE' TEST FOR ALCOHOL WAS ADMINISTERED TO AN EMPLOYEE AFTER A SUPERVISOR CONCLUDED THAT THE INDIVIDUAL'S BEHAVIOR INDICATED POTENTIAL SUBSTANCE ABUSE. THE CONFIRMATORY TEST INDICATED A BLOOD ALCOHOL LEVEL OF .160 PERCENT ALCOHOL, WHICH EXCEEDED THE LICENSEE'S ADMINISTRATIVE LIMIT OF .040 PERCENT.

THE INDIVIDUAL'S SITE ACCESS HAS BEEN REVOKED FOR A MINIMUM OF 14 DAYS AND THE INDIVIDUAL HAS BEEN REFERRED TO THE LICENSEE'S EMPLOYEE ASSISTANCE PROGRAM. PLANT MANAGER APPROVAL WILL BE REQUIRED PRIOR TO THE INDIVIDUAL RESUMING DUTIES. THE INDIVIDUAL'S INVOLVEMENT IN PLANT ACTIVITIES FOR THE TIME PERIOD PRIOR TO THE TEST HAS BEEN REVIEWED.

THE RESIDENT INSPECTOR HAS BEEN INFORMED.

A CONTRACTOR/SUPERVISOR TESTED POSITIVE FOR MARIJUANA.

A DRUG TEST PERFORMED ON A CONTRACTOR/SUPERVISOR PRIOR TO THE ISSUANCE OF AN UNESCORTED BADGE RESULTED IN A POSITIVE READING FOR MARIJUANA. THE CONTRACTOR EMPLOYEE HAD ACCESS TO VITAL AREAS WITH AN ESCORT. HOWEVER, THE CONTRACTOR DID NOT ACTUALLY PERFORM WORK IN ANY VITAL AREAS. HIS ESCORTED ACCESS BADGE HAS BEEN REVOKED. THE LICENSEE BELIEVES NO VITAL EQUIPMENT WAS AFFECTED AND NO WORK REVIEW IS NECESSARY. THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR. CONNECTICUT DEPARTMENT OF ENVIRONMENTAL PROTECTION AND THE TOWN OF WATERFORD HAVE BEEN NOTIFIED.

THE LICENSEE REPORTED AN UNINTENTIONAL ATTEMPT TO INTRODUCE ALCOHOL INTO THE PROTECTED AREA.

AT 0645 CDT ON 07/01/92, WHILE CONDUCTING A SEARCH OF A CONTRACTOR PAINTING VEHICLE AWAITING ENTRY INTO THE PROTECTED AREA, SECURITY DISCOVERED A SEALED LITER (MANUFACTURERS SEAL) OF

BRANDY IN THE CAB AREA. THE DRIVER, WHO REQUIRES AN ESCORT ON THE SITE, STATED THAT HE HAD PURCHASED THE BEVERAGE THE PREVIOUS EVENING. THE DRIVER HAD BEEN WORKING ON SITE FOR ABOUT A WEEK, HAD CHECKED OUT OF HIS HOTEL AND EXPECTED TO COMPLETE WORK AT THE SITE TODAY. THEREFORE, HE STATED THAT HE HAD THE BEVERAGE IN HIS TRUCK SINCE HE HAD NO OTHER PLACE TO PUT IT.

THE LICENSEE TOOK COMPENSATORY MEASURES BY CONFISCATING THE BRANDY AND ISSUING A PERSONAL PROPERTY TICKET TO THE DRIVER FOR RETURN UPON EXITING. THE LICENSEE WILL NOTIFY THE RESIDENT INSPECTOR.

\* \* \* UPDATE 7/10/92 AT 1125 FROM KOPETSKY TAKEN BY SEBROSKY \* \* \*

THE LICENSEE IS RETRACTING THIS EVENT. AFTER FURTHER DISCUSSIONS WITH REGION III THE LICENSEE HAS DETERMINED THAT THIS EVENT DOES NOT MEET THE CRITERIA FOR BEING REPORTABLE. THE LICENSEE HAS NOTIFIED THE RESIDENT INSPECTOR. HOO NOTIFIED R3DO (CREED).

REACTOR OPERATOR TRAINING SUPERVISOR TESTED POSITIVE FOR ALCOHOL.

A REACTOR OPERATOR TRAINING SUPERVISOR (NON-LICENSED) TESTED POSITIVE FOR ALCOHOL DURING ROUTINE FOLLOWUP DRUG TESTING. THE EMPLOYEE'S PROTECTED AREA ACCESS WAS IMMEDIATELY SUSPENDED. A WORK REVIEW REVEALED THAT THE EMPLOYEE HAD NOT BEEN INVOLVED IN ANY SAFETY RELATED ACTIVITIES. THE EMPLOYEE HAS BEEN REFERRED TO THE EMPLOYEE ASSISTANCE PROGRAM FOR FURTHER EVALUATION.

THIS WAS THE EMPLOYEE'S FIRST POSITIVE TEST. HE WAS IN A FOLLOWUP

PROGRAM DUE TO SELF-REFERRAL IN JUNE OF 1992.

THE RESIDENT INSPECTOR HAS BEEN NOTIFIED.

ON 10/28/92, A CONTRACT SUPERVISOR WITH UNESCORTED ACCESS WAS RANDOMLY SELECTED FOR CHEMICAL TESTING IN ACCORDANCE WITH THE FITNESS FOR DUTY PROGRAM. THE CONTRACTOR WAS CONFIRMED POSITIVE FOR ALCOHOL BASED ON RESULTS OF FOUR TESTS CONDUCTED WITH TWO SEPARATE INTOXIMETERS. THESE TESTS INDICATED A BLOOD ALCOHOL CONTENT (BAC) IN EXCESS OF 0.04 BAC AT THE TIME THE TEST BEGAN AT 1312.

INTERVIEWS WITH COGNIZANT PLANT EMPLOYEES REVEALED THAT THE CONTRACTOR DID NOT ENTER THE PLANT PROTECTED AREA AFTER ARRIVING ON SITE AT 1000 ON 10/28/92. FURTHERMORE, INVESTIGATION HAS REVEALED THAT THIS INDIVIDUAL HAS NOT BEEN INVOLVED WITH ANY WORK ON SAFETY RELATED SYSTEMS DURING THE PAST 30 DAYS. ALL WORK PERFORMED ON 10/28/92 WHILE ON SITE HAS BEEN VERIFIED BY THE LICENSEE.

IN ACCORDANCE WITH THE FITNESS FOR DUTY PROGRAM, THE CONTRACTOR'S UNESCORTED ACCESS WAS IMMEDIATELY SUSPENDED AND WILL NOT BE REINSTATED FOR A MINIMUM OF 14 DAYS.

THE NRC RESIDENT INSPECTOR HAS BEEN INFORMED. NO OTHER NOTIFICATIONS ARE PLANNED.

A SUPERVISOR TESTED POSITIVELY DURING A RANDOM DRUG TEST.

THE FOLLOWING IS THE TEXT OF A FACSIMILE SUBMITTED BY THE LICENSEE:

"AT 1330 HOURS ON FEBRUARY 2, 1993, THE MEDICAL REVIEW OFFICER FOR THE H.B. ROBINSON PLANT DETERMINED THAT THE RESULTS OF A RANDOM DRUG AND ALCOHOL TEST OF A CP&L SUPERVISOR, WHICH WAS TAKEN ON JANUARY 20, WAS POSITIVE FOR DRUGS, AND DECLARED A FITNESS FOR DUTY VIOLATION IN ACCORDANCE WITH 10CFR26.73(a)(2)(ii). UNESCORTED ACCESS TO THE PROTECTED AREA HAS BEEN RESCINDED. BECAUSE THE INDIVIDUAL HAD ACCESS TO AREAS CONTAINING SAFETY RELATED EQUIPMENT, A REVIEW OF THE INDIVIDUAL'S WORK HAS BEEN INITIATED."  
 END OF TEXT.

THE LICENSEE WILL INFORM THE NRC RESIDENT INSPECTOR.

A LICENSED REACTOR OPERATOR WAS SUSPENDED WHEN HE ADMITTED BEING ARRESTED FOR POSSESSION OF A CONTROLLED SUBSTANCE.

WHILE IN COUNSELING AT A REHABILITATION CENTER, A LICENSED REACTOR OPERATOR ADMITTED TO A REHAB COUNSELOR THAT HE HAD BEEN ARRESTED FOR POSSESSION OF AN UNSPECIFIED CONTROLLED SUBSTANCE DURING REHABILITATION. THE REHAB COUNSELOR INFORMED A PLANT EMPLOYEE ASSISTANCE PROGRAM (EAP) COUNSELOR WHO, IN TURN, NOTIFIED THE FITNESS-FOR-DUTY OFFICER. THE LICENSED REACTOR OPERATOR HAS BEEN SUSPENDED AND SCHEDULED TO REPORT TO THE EAP COUNSELOR. AT THAT TIME, A FORMAL INTERVIEW OF THE EMPLOYEE WILL BE CONDUCTED AND FURTHER INFORMATION WILL BE AVAILABLE. THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR.

THE LICENSEE REPORTED THAT AN ACTING DESIGN SUPERVISOR FOR THE SITE ENGINEERING GROUP TESTED POSITIVE FOR ALCOHOL DURING A RANDOM TEST.

THE EMPLOYEE TESTED ABOVE THE LICENSEE'S LIMITS (.04 BLOOD ALCOHOL CONTENT) BUT HE WAS UNDER THE STATE'S LIMITS OF .1 FOR DRIVING. HE HAS BEEN DENIED ACCESS TO THE SITE AND WILL BE REFERRED TO THE EMPLOYEE ASSISTANCE PROGRAM. HIS WORK GROUP WILL BE PERFORMING A WORK PERFORMANCE INVESTIGATION OVER JOBS HE HAS BEEN INVOLVED WITH TO MAKE SURE THAT HIS WORK WAS NOT AFFECTED. THE RI WAS INFORMED.

THE LICENSEE REPORTED THAT A SUPERVISOR WITH UNESCORTED ACCESS TESTED POSITIVE DURING A RANDOM DRUG TEST.

ON 11/2/93 @15:20 THE MEDICAL REVIEW OFFICER REPORTED THAT A SUPERVISOR WITH UNESCORTED ACCESS TESTED POSITIVE DURING A RANDOM DRUG TEST. HIS PROTECTED AREA ACCESS WAS SUSPENDED AT 15:20 @ 11/2/93. THE EMPLOYEE HAS BEEN REFERRED TO THE EMPLOYEES ASSISTANCE PROGRAM FOR FURTHER EVALUATION. THIS WAS THE EMPLOYEE'S FIRST POSITIVE TEST FOR DRUGS. A REVIEW OF THE EMPLOYEES ASSIGNMENTS IDENTIFIED NO POOR WORK PERFORMANCE AND NO IMPACT ON REACTOR SAFETY. THE RI WAS INFORMED.

TWO INDIVIDUALS WERE GRANTED UNESCORTED ACCESS BASED ON FALSIFIED RECORDS AND AN INCOMPLETE BACKGROUND INVESTIGATION.

THE LICENSEE HAS DETERMINED THAT UNESCORTED ACCESS WOULD NOT HAVE BEEN GRANTED IF A COMPLETE AND PROPER INVESTIGATION HAD BEEN COMPLETED. A PRELIMINARY INVESTIGATION BY THE LICENSEE INTO THE EMPLOYMENT CERTIFICATION PROGRAM USED BY THEIR SUBCONTRACTOR HAS REVEALED SEVERAL DISCREPANCIES. IN ADDITION, OTHER INDIVIDUALS (APPROX 15) CERTIFIED BY THE SUBCONTRACTOR HAVE HAD THEIR UNESCORTED ACCESS REVOKED AND HAVE BEEN ESCORTED OFF SITE. THESE INDIVIDUALS WERE WORKING INSIDE THE UNIT 1 CONTAINMENT ON STEAM GENERATOR TUBE PLUGGING AND REMOVAL. THE LICENSEE WILL DETERMINE THE IMPACT THESE INDIVIDUALS MAY HAVE HAD ON PLANT SAFETY SO APPROPRIATE CORRECTIVE MEASURES CAN BE TAKEN. THE LICENSEE HAS INFORMED THE REGION 5 SAFEGUARDS BRANCH INSPECTOR (SCHAEFER) AND WILL INFORM THE NRC RESIDENT INSPECTOR.

BASED ON AN ALLEGATION REGARDING A NON-LICENSED, NON-SUPERVISORY EMPLOYEE POSSESSING AN ILLEGAL DRUG INSIDE THE DIABLO CANYON PROTECTED AREA, A CORPORATE SECURITY INVESTIGATION WAS CONDUCTED. AT APPROXIMATELY 1850 PST, THE LICENSEE DETERMINED BASED ON AN INTERVIEW WITH THE SUBJECT EMPLOYEE AND AFTER CONSULTING WITH SECURITY MANAGEMENT THAT THE ALLEGATION WAS VALID.

THE EMPLOYEE ADMITTED TO POSSESSING A PRESCRIPTION MEDICATION (DARVOCET) WHILE IN THE PROTECTED AREA AND ADMITTED TO GIVING SOME OF THE DRUG TO A CO-WORKER. DARVOCET IS A SCHEDULE 4 CONTROLLED SUBSTANCE. THE LICENSEE FURTHER ADDED THAT THE EMPLOYEE HAD MULTIPLE PRESCRIPTIONS FOR DARVOCET.

THE SUBJECT EMPLOYEE AND THE CO-WORKER WHO RECEIVED THE DRUG FROM THE SUBJECT EMPLOYEE HAVE HAD THEIR ACCESS SUSPENDED PENDING FURTHER ACTION FROM THE LICENSEE.

THE LICENSEE WILL NOTIFY THE NRC RESIDENT INSPECTOR. NO OTHER NOTIFICATIONS ARE PLANNED AT THIS TIME.

A CONTRACT SUPERVISOR TESTED POSITIVELY FOR ALCOHOL DURING A RANDOM DRUG TEST.

A CONTRACT SUPERVISOR TESTED POSITIVELY FOR ALCOHOL DURING A RANDOM DRUG TEST. THE BLOOD-ALCOHOL LEVEL WAS MEASURED AT 0.04. A CONFIRMATORY URINALYSIS YIELDED NEGATIVE RESULTS. THE CONTRACTOR IS A NON-LICENSED EMPLOYEE WHO WORKS IN THE TOOL SHOP. THE CONTRACTOR EXERCISES HIS SUPERVISORY RESPONSIBILITIES IN THE TOOL SHOP ONLY DURING OUTAGES. THE LICENSEE WILL NOT PERFORM A WORK REVIEW ON THE BASIS OF THE CONTRACTOR'S RESPONSIBILITIES AND LIMITED SUPERVISORY ROLE. THE CONTRACTOR'S UNESCORTED ACCESS HAS BEEN SUSPENDED PENDING THE RECEIPT OF A CONFIRMATORY BLOOD-ALCOHOL TEST. THE LICENSEE WILL INFORM THE NRC RESIDENT INSPECTOR.

\* \* \* UPDATE 03/04/94 1709EST FROM:SCHEIDE BY:SCARFO \* \* \*  
 THE FOLLOWING IS THE TEXT OF A FACSIMILE SUBMITTED BY THE LICENSEE:

"AT 0924CST ON 03/03/94, AN ENTERGY OPERATIONS SUPERVISOR TRAINED INDIVIDUAL TESTED AT 0.04% ALCOHOL VIA A BREATHALYZER DURING A RANDOM DRUG SCREENING. THE INITIAL TEST INDICATED 0.035%; HOWEVER, TWO SUBSEQUENT TESTS INDICATED 0.04%. A BLOOD ALCOHOL SAMPLE WAS COLLECTED AT 0950 AND SENT OFFSITE FOR ANALYSIS. A DRUG SCREEN URINE SAMPLE WAS COLLECTED AT 1000. THE RESULTS OF THAT TEST WERE NEGATIVE. THE SUBJECT INDIVIDUAL WORKS IN THE ANO TOOL ROOM. HIS ONLY JOB RESPONSIBILITIES ARE LIMITED TO ISSUING AND COLLECTING TOOLS. HE PERFORMS SUPERVISOR DUTIES DURING OUTAGES. DUE TO THE NATURE OF THE INDIVIDUAL'S DUTIES, ANO DOES NOT BELIEVE IT IS NECESSARY TO REVIEW HIS PAST WORK PERFORMANCE. THE INDIVIDUAL'S UNESCORTED ACCESS HAS BEEN TERMINATED PENDING RECEIPT OF THE RESULTS OF THE BLOOD ALCOHOL TEST. IF THE BLOOD ALCOHOL TEST RESULT IS POSITIVE, THE INDIVIDUAL'S ACCESS WILL

REMAIN TERMINATED FOR 14 DAYS AND HE WILL BE REFERRED TO THE EMPLOYEE ASSISTANCE PROGRAM."  
END OF TEXT.

THE LICENSEE SUBMITTED THIS FACSIMILE AS A CLARIFICATION OF THE ORIGINAL REPORT. THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR. R4DO (HARRELL) NOTIFIED.

\*\*\*UPDATE ON 3/8/94 @ 13:44 BY SCHEIDE TO GOULD\*\*\* THE LICENSEE IS RETRACTING THIS EVENT SINCE THE BLOOD ALCOHOL TEST WAS BELOW THE THRESHOLD OF 0.04 BLOOD ALCOHOL ANALYSIS FOR BEING REPORTABLE. THE MEASURED BLOOD ALCOHOL LEVEL WAS 0.038. SINCE BLOOD ALCOHOL LEVEL TAKES PRECEDENCE OVER THE BREATHALYZER TEST, THIS EVENT WAS DETERMINED NOT TO BE REPORTABLE. THE INDIVIDUAL WAS RETURNED TO DUTY. THE RI WILL BE INFORMED. REG 4 WESTERMAK NOTIFIED.

THE LICENSEE REPORTED THAT A REACTOR OPERATOR WAS TESTED POSITIVE FOR ALCOHOL.

THIS OCCURRED FOLLOWING AN OBSERVED BEHAVIOR INDICATING POSSIBLE SUBSTANCE ABUSE AND SUBSEQUENT TEST FOR CAUSE. A POSITIVE AND CONFIRMATORY TEST FOR ALCOHOL INDICATED THAT THE OPERATOR HAD A BLOOD ALCOHOL LEVEL OF 0.042% BAC (THE LICENSEES CUT OFF LEVEL IS 0.04%). THE INDIVIDUAL DECLINED THE BLOOD CONFIRMATORY TEST AND WAS ESCORTED OFF SITE. THE OPERATOR STATED THAT HE DID NOT VIOLATE THEIR 5 HR ABSTENTION POLICY. THE OPERATOR HAS BEEN SUSPENDED W/O PAY FOR 40 CONSECUTIVE STRAIGHT TIME HOURS AND WAS ALSO SUSPENDED FROM UNESCORTED ACCESS WITH THE KEY CARD BEING EXPIRED. THE OPERATOR WAS IN THE PROTECTED AREA AT THE TIME THE CONDITION WAS DETERMINED, BUT THAT OCCURRED DURING SHIFT TURNOVER AND NO LICENSED DUTIES WERE PERFORMED. THE SUSPENSION IS PENDING THE OUTCOME OF A SUBSTANCE ABUSE EVALUATION AND/OR REHABILITATION. THE OPERATOR WAS REFERRED TO THE EMPLOYEE ASSISTANCE PROGRAM. THE RI WAS INFORMED.

A SENIOR-LEVEL MANAGER FAILED A RANDOM DRUG TEST FOR ALCOHOL.

AFTER BEING CALLED IN TO THE PLANT, A SENIOR-LEVEL MANAGER FAILED A RANDOM DRUG TEST FOR ALCOHOL. THE MANAGER HAD BEEN CALLED IN TO ATTEND TO A TRANSIENT (LOSS OF COOLING TO THE MAIN TRANSFORMER). A BREATHALYZER TEST YIELDED A READING OF 0.075. AT THAT TIME, HE WAS ESCORTED FROM THE PROTECTED AREA AND HIS ACCESS WAS REVOKED. HE HAD BEEN ON SITE FOR ABOUT TWO HOURS TO OBSERVE PLANT RECOVERY OPERATIONS IN THE CONTROL ROOM BEFORE BEING TESTED AND HE DID NOT AFFECT THE STATUS OF ANY SAFETY EQUIPMENT. THE MANAGER DID NOT ISSUE ANY ORDERS WHILE IN THE CONTROL ROOM. A BLOOD SAMPLE WAS TAKEN TO PERFORM A CONFIRMATORY BLOOD-ALCOHOL TEST. THE LICENSEE INFORMED THE NRC RESIDENT INSPECTOR.

THE LICENSEE REPORTED THAT ONE OF THEIR EMPLOYEES WHO IS SUPERVISOR QUALIFIED TESTED POSITIVE IN A RANDOM DRUG TEST.

ON 5/27/94 A LICENSEE EMPLOYEE WHO IS QUALIFIED TO PERFORM SUPERVISORY DUTIES TESTED POSITIVE FOR MARIJUANA DURING A RANDOM DRUG SCREEN. THE INDIVIDUAL IS NOT A FULL TIME SUPERVISOR AND HAS LAST PERFORMED SUPERVISORY DUTIES FROM 3/21/94 - 3/23/94. THE INDIVIDUAL PROVIDED A URINE SAMPLE FOR TESTING 5/27/94 @ 10:41CT WHICH WAS SENT TO THE SITE LAB AND SCREENED POSITIVE FOR MARIJUANA. SOME OF THAT SAMPLE WAS ALSO SENT TO AN OFF SITE LAB AND THE RESULTS RECEIVED 6/1/94 CONFIRMED THE POSITIVE READING. PLANT ACCESS FOR THE INDIVIDUAL HAS BEEN TERMINATED UNTIL 6/15/94. IN ADDITION, THE EMPLOYEE HAS BEEN REFERRED TO THE EMPLOYEES ASSISTANCE PROGRAM. A QUALITY REVIEW OF THE INDIVIDUAL'S WORK HAS BEEN CONDUCTED. THE RI WILL BE INFORMED.

LICENSEE IS MAKING A 24 HOUR NOTIFICATION UNDER LICENSE CONDITION 2.G.

"THIS IS A NON-EMERGENCY 24 HOUR NOTIFICATION."

"ON JUNE 6, 1994, AT APPROXIMATELY 1400 HOURS DURING THE PERFORMANCE OF A JOINT COMPUTER GROUP SECURITY INVESTIGATION TO DETERMINE ACTIVE OR DEACTIVE SECURITY EQUIPMENT, EDISON DISCOVERED A CABINET WITHIN A VITAL AREA OF UNIT 3 THAT CONTAINED WIRING FOR THE SECURITY COMPUTER SYSTEM. THE CABINET WAS NOT FASTENED CLOSED IN ACCORDANCE WITH THE REQUIREMENTS OF THE PHYSICAL SECURITY PLAN. WHILE THIS CABINET WAS LOCKED CLOSED WITH A FILE PANEL KEY, THE PHYSICAL SECURITY PLAN FOR UNITS 1, 2 AND 3 REQUIRES CABINETS CONTAINING SECURITY RELATED WIRING TERMINATIONS TO BE EITHER:

1. ARMED WITH TAMPER SWITCHES,
2. WELDED CLOSED, OR
3. SECURED WITH "1A" FASTENERS.

THEREFORE, EDISON CONCLUDED THAT THIS CONDITION WAS NOT IN CONFORMANCE WITH THE DESCRIPTION OF THE PHYSICAL SECURITY PLAN. WITHIN 10 MINUTES OF THIS DISCOVERY, EDISON INITIATED A COMPENSATORY 1 HOUR PATROL OF THE AFFECTED CABINET. EDISON HAS EVALUATED THIS CONDITION AND HAS DETERMINED THAT UNAUTHORIZED OR UNDETECTED ACCESS TO PLANT PROTECTED OR VITAL AREAS COULD NOT HAVE OCCURRED DUE TO THIS CONDITION. THE SECURITY EQUIPMENT VENDOR (ELECTRONICS SYSTEMS, USA) HAS INDEPENDENTLY AGREED WITH OUR FINDINGS. THEREFORE, THERE WAS NO SAFETY SIGNIFICANCE TO THIS CONDITION. WE ARE IN THE PROCESS OF INITIATING SYSTEM WALKDOWNS TO VERIFY SYSTEM INTEGRITY. UNIT 2 WAS OPERATING AT APPROXIMATELY 98% POWER AND UNIT 3 WAS OPERATING AT APPROXIMATELY 97% POWER WHEN THIS CONDITION WAS IDENTIFIED. IN ACCORDANCE

WASHINGTON, D. C. 20555-0001

APR 05 1994

IA 94-004

Mr. Douglas D. Preston  
(Address deleted  
Under 10 CFR 2.790)

Dear Mr. Preston:

**SUBJECT: ORDER PROHIBITING INVOLVEMENT IN NRC-LICENSED ACTIVITIES  
(EFFECTIVE IMMEDIATELY) (NRC INSPECTION REPORT NO. 50-  
331/93020)**

The enclosed Order Prohibiting Involvement in NRC-Licensed Activities is being issued as a consequence of your deliberately providing false information on applications you made for access authorization at the Iowa Electric Light and Power Company's (licensee) Duane Arnold Energy Center. On or about June 19, 1990, and on June 23, 1993, you indicated on your access authorization applications that you had not been arrested or convicted of a criminal offense other than minor traffic violations. The licensee subsequently learned that you had been arrested and convicted several times for crimes other than traffic violations and that you were incarcerated for some of those offenses. As a result of your deliberate false statements, you were granted unescorted access to the Duane Arnold facility in 1990 and again in 1993. A licensee investigator interviewed you about the false information at which time you indicated that you had lied on your applications in 1990 and 1993 and that you would lie again about your criminal record. The deliberate false information on your criminal history in your June 23, 1993 application caused you to be personally in violation of 10 CFR 50.5, "Deliberate Misconduct".

While you deliberately made the same false statements on your access authorization application of June 19, 1990, that instance is not being cited in the enclosed Order because it occurred prior to September 16, 1991, the date that 10 CFR 50.5 became effective.

Failure to comply with the provisions of the enclosed Order may result in civil or criminal sanctions.

Questions concerning the Order may be addressed to James Lieberman, Director, Office of Enforcement. Mr. Lieberman can be reached at telephone number (301) 504-2741.

ORDER PROHIBITING INVOLVEMENT IN  
NRC-LICENSED ACTIVITIES  
(EFFECTIVE IMMEDIATELY)

I

Mr. Douglas D. Preston was employed by the Berry Construction Company at the Iowa Electric Light and Power Company's (IELPC or Licensee) Duane Arnold Energy Center where he was granted unescorted access. IELPC holds Facility License DPR-49, issued by the Nuclear Regulatory Commission (NRC or Commission) pursuant to 10 CFR Part 50 on February 22, 1974. The license authorizes IELPC to operate the Duane Arnold Energy Center located near Cedar Rapids, Iowa, in accordance with the conditions specified therein.

II

Mr. Preston first applied for employment with Berry Construction Company and was subsequently granted unescorted access to the Duane Arnold Energy Center on or about June 19, 1990, based in part on the representations he made on his access authorization applications. One of the representations was that he had not been arrested and convicted for any criminal offense other than minor traffic violations. The Licensee submitted fingerprint cards to the Federal Bureau of Investigations (FBI) and subsequently was

informed that Mr. Preston had a record of arrests, convictions, and imprisonments prior to 1978. However, while waiting for the results of the FBI fingerprint check, Mr. Preston's employment at the Duane Arnold Energy Center was terminated for a lack of work. Mr. Preston's deliberate false statements on his access authorization application on or about June 19, 1990 were essentially the same as his 1993 false statements (addressed below), but are not being cited in this Order as a violation because they were made before the effective date of 10 CFR 50.5.

On June 21, 1993, Mr. Preston again applied for a position at the Duane Arnold Energy Center and was hired on June 21, 1993 by the Berry Construction Company as a laborer with responsibilities involving NRC-licensed activities. On June 23, 1993, Mr. Preston filled out an access authorization application and again denied having a criminal history. The Licensee granted Mr. Preston temporary unescorted access to the plant on or about July 15, 1993. On or about August 13, 1993, the Licensee received the results of a second FBI fingerprint check which again detailed Mr. Preston's criminal history. Mr. Preston, when questioned by an IELPC investigator on August 13, at first denied having a criminal history and then admitted that he had lied about his criminal history to gain employment in 1990 and again in 1993. He further stated that he would lie again to gain employment in the future. The Licensee then revoked Mr. Preston's unescorted access based on the deliberately false information regarding his criminal history

on his access authorization application.

### III

Based on the above, Mr. Preston engaged in deliberate misconduct on or about June 23, 1993, by deliberately falsely stating on the access authorization application that he had no criminal history for crimes other than minor traffic offenses. The Commission's regulations in 10 CFR 50.5, in part, prohibit any employee of a contractor of a licensee from deliberately submitting to the licensee information that the employee knows to be incomplete or inaccurate in some respect material to the NRC. Mr. Preston's actions constitute a violation of 10 CFR 50.5(a). Information concerning criminal history is material to the determination the licensee must make to meet 10 CFR 73.56(b)(2).

### IV

The NRC must be able to rely on the Licensee, its contractors, and the licensee and contractor employees to comply with NRC requirements, including the requirement to provide information that is complete and accurate in all material respects. Mr. Preston's actions in deliberately providing false information to the Licensee constitute deliberate violations of Commission regulations and his statement to the Licensee that he would do it again have raised serious doubt as to whether he can be relied upon to comply with

NRC requirements and to provide complete and accurate information to the NRC in the future.

Consequently, I lack the requisite reasonable assurance that nuclear safety activities within NRC jurisdiction can be conducted in compliance with the Commission's requirements and that the health and safety of the public would be protected if Mr. Preston were permitted to be engaged in the performance of licensed activities. Therefore, the public health, safety and interest require that Mr. Preston be prohibited from being involved in the performance of activities licensed by the NRC for a five year period. In addition, Mr. Preston is required to notify the NRC, for an additional five year period, of his acceptance of employment in NRC-licensed activities so that appropriate inspections can be performed. Furthermore, pursuant to 10 CFR 2.202, I find that the significance of the deliberate misconduct described above is such that the public health, safety and interest require that this Order be immediately effective.

#### IV

Accordingly, pursuant to sections 103, 161b, 161i, 182 and 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.202 and 10 CFR 50.5, IT IS HEREBY ORDERED, EFFECTIVE IMMEDIATELY, THAT :

- A. Mr. Douglas D. Preston is prohibited from engaging in activities licensed by the NRC for five years from the date of this Order. For the purposes of this Order, licensed activities include the activities licensed or regulated by: (1) NRC; (2) an Agreement State, limited to the Licensee's conduct of activities within NRC jurisdiction pursuant to 10 CFR 150.20; and (3) an Agreement State where the licensee is involved in the distribution of products that are subject to NRC jurisdiction.
- B. After the five year prohibition has expired as described in paragraph A above, Mr. Preston shall provide notice to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, for acceptance of any employment in licensed activity for an additional five year period.

The Regional Administrator, Region III, may, in writing, relax or rescind any of the above conditions upon demonstration by Mr. Preston of good cause.

In accordance with 10 CFR 2.202, Mr. Preston must, and any other person adversely affected by this Order may, submit an answer to

this Order, and may request a hearing within 30 days of the date of this Order. The answer may consent to this Order. Unless the answer consents to this Order, the answer shall, in writing and under oath or affirmation, specifically admit or deny each allegation or charge made in this Order and shall set forth the matters of fact and law on which Mr. Preston or other person adversely affected relies and the reasons as to why the Order should not have been issued. Any answer or request for a hearing shall be submitted to the Secretary, U. S. Nuclear Regulatory Commission, ATTN: Chief, Docketing and Service Section, Washington, DC 20555. Copies also shall be sent to the Director, Office of Enforcement, U. S. Nuclear Regulatory Commission, Washington, DC 20555, to the Assistant General Counsel for Hearings and Enforcement at the same address, to the Regional Administrator, Region III, U. S. Nuclear Regulatory Commission, 801 Warrenville Road, Lisle, Illinois 60532-4351, and to Mr. Preston, if the answer or hearing request is by a person other than Mr. Preston. If a person other than Mr. Preston requests a hearing, that person shall set forth with particularity the manner in which his interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.714(d).

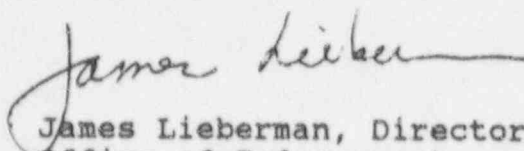

If a hearing is requested by Mr. Preston or a person whose interest is adversely affected, the Commission will issue an Order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be whether

this Order should be sustained.

Pursuant to 10 CFR 2.202(c)(2)(i), Mr. Preston, or any person adversely affected by this Order, may in addition to demanding a hearing, at the time that answer is filed or sooner, move the presiding officer to set aside the immediate effectiveness of the Order on the ground that the Order, including the need for immediate effectiveness, is not based on adequate evidence but on mere suspicion, unfounded allegations, or error.

In the absence of any request for a hearing, the provisions specified in Section IV above shall be final 20 days from the date of this Order without further order or proceedings. AN ANSWER OR A REQUEST FOR A HEARING SHALL NOT STAY THE IMMEDIATE EFFECTIVENESS OF THIS ORDER.

FOR THE NUCLEAR REGULATORY COMMISSION

  
James Lieberman, Director  
Office of Enforcement

OFFICE OF ENFORCEMENT  
NOTIFICATION OF SIGNIFICANT ENFORCEMENT ACTION

Licensee: Douglas D. Preston (IA 94-004)

Subject: ORDER PROHIBITING INVOLVEMENT IN NRC-LICENSED ACTIVITIES  
(EFFECTIVE IMMEDIATELY)

This is to inform the Commission that, in accordance with Commission approval, an Order Prohibiting Involvement in NRC-Licensed Activities (Effective Immediately) will be issued today to Douglas D. Preston. The Order provides that Mr. Preston is prohibited from involvement in licensed activities for five years. For an additional five years he is to provide notice to NRC of involvement in licensed activities to permit NRC inspections. This action is based on Mr. Preston's falsification of information on his application for unescorted access at Iowa Electric Light and Power Company's Duane Arnold Energy Center. When interviewed by licensee investigators, Mr. Preston admitted that he had lied about his criminal history and indicated that he would lie again.

It should be noted that the individual has not been specifically informed of the enforcement action. The schedule of issuance and notification is:

Mailing of Notice	April 5, 1994
Telephone Notification	April 5, 1994

The individual has thirty days from the date of the Notice in which to respond.

Contact: D. Rosano, OE, 504-3282      J. Lieberman, OE, 504-2741

OFFICE OF ENFORCEMENT  
NOTIFICATION OF SIGNIFICANT ENFORCEMENT ACTION

Licensee: Iowa Electric Light and Power Company (EA 93-276)  
(Duane Arnold)  
Docket No. 50-331

Subject: PROPOSED IMPOSITION OF CIVIL PENALTY - \$12,500

This is to inform the Commission that, in accordance with Commission approval, a Notice of Violation and Proposed Imposition of Civil Penalty in the amount of \$12,500 will be issued today to Iowa Electric Light and Power Company. This action is based on a violation involving the granting of unescorted access to an individual without first evaluating or considering derogatory information received from the FBI as a result of an earlier request for access authorization for the individual. The civil penalty adjustment factors were considered and the civil penalty was mitigated by 25% due to the self-disclosing nature of the event and by 50% due to the licensee's corrective actions.

It should be noted that the licensee has not been specifically informed of the enforcement action. The schedule of issuance and notification is:

Mailing of Notice April 5, 1994  
Telephone Notification of Licensee April 5, 1994

The State of Iowa will be notified.

The licensee has thirty days from the date of the Notice in which to respond. Following NRC evaluation of the response, the civil penalty may be remitted, mitigated, or imposed by Order.

Dear Mr. Preston:

SUBJECT: ORDER PROHIBITING INVOLVEMENT IN NRC-LICENSED  
ACTIVITIES (EFFECTIVE IMMEDIATELY)

This is in reference to the subject Order issued by the Nuclear Regulatory Commission on April 5, 1994. The Order prohibited you from engaging in NRC-licensed activities for a period of five years from the date of the Order and required you to notify the NRC of your acceptance of any employment in NRC-licensed activities for an additional five-year period. Further, the Order provided you an opportunity to request a hearing on the Order on or before May 5, 1994. Your opportunity to request a hearing has expired.

The order also required you to submit an answer to the Order. As of this date, we have not received your answer. This is to advise that, in the absence of the response from you on the issues described in the Order, the NRC assumes that you consent to, and agree to fully comply with, the provisions in Section IV of the Order. Note that the provisions specified in Section IV of the Order are now final and will be enforced by the NRC.

Sincerely,

James Lieberman, Director  
Office of Enforcement

Operations, Management, and Support  
Services Division  
Nuclear Energy Institute  
Suite 300  
1776 Eye Street, N.W.  
Washington, DC 20006-2496

Dear Mr. Tipton:

Robert Whitesel's March 23, 1994, letter forwarded the Nuclear Energy Institute's draft "Access Authorization (AA) Program Issues and Responses," dated March 23, 1994, for our review and comment. It was specifically requested that we review the document to ensure that the guidance does not conflict with the intent of applicable regulations.

Except as noted in our comments, we find that the guidance does not conflict with the intent of 10 CFR Parts 26, 73.56 and 73.57.

Our comments are summarized in Enclosure 1 and there are some annotations on the attached copy of the draft (Enclosure 2). If these are incorporated, the NEI document should not conflict with the applicable regulations. If you have any questions on the enclosed, please let us know. The staff contact is H. Ervin, (301) 504-2946.

OFFICIAL RECORD COPY

NRC COMMENTS ON NEI DRAFT "ACCESS AUTHORIZATION (AA) PROGRAM  
ISSUES AND RESPONSES," DATED MARCH 23, 1994

1. Response A.1. would be enhanced if you address licensee responsibility with respect to review of contractor/vendor/subcontractor programs prior to approval, contractual agreements regarding the use of subcontractors and notification responsibilities when discovered problems affect other licensees or when incomplete investigations are discovered.

The second paragraph implies that only the program-approving licensee is responsible for auditing a contractor/vendor program. Each licensee accepting a contractor/vendor program has an audit responsibility, to include a responsibility to audit any portions of the program that the contractor/vendor subcontracts (See 10 CFR 73.56(g)(2)). The regulation allows licensees to accept audits completed by other licensees providing the receiving licensee fulfills the requirements of 10 CFR 73.56, which include obtaining the audit reports, corrective actions, etc., reviewing them for adequacy, and taking appropriate actions. Appropriate actions may include additional audit by the receiving licensee if significant problems were identified that may affect its program. The response should be revised to properly reflect the regulation.

You may want to expand that portion of the response that addresses a recent citation to include orders recently issued by the NRC to contractors for acts of wrongdoing. Also, the response refers to 10 CFR 50.5 and provides an example of an "inadvertent" failing of a contractor/vendor program; 10 CFR 50.5 applies to deliberate acts.

2. Response B.1. states that a criminal history check "should" not be closed out without classifiable fingerprint. If the reason for the print being unclassifiable is poor printing technique, the fingerprint rule requires that a "legible" print be submitted (See 10 CFR 73.57(d)(1)). In cases where two sets of completed, legible prints are submitted and returned as unclassifiable, a best effort can be satisfied with a name check from the FBI. The response should be revised to properly reflect the regulation.

3. Response B.2. would be enhanced by inclusion of examples of cases in which best effort would or would not be satisfied. For example, an unacceptable best effort would be if, in completing an employment check, a licensee just calls a general number for a listed place of employment, asks anyone who answers to address its specific questions, and then just annotates that the person talked to refused to provide any information. As another example, an acceptable best effort would be more aggressive pursuit of persons who can answer questions when the individual initially contacted cannot answer them and advising the individuals that the licensee has a signed release that can be forwarded if necessary.

Another example you may want to include is that it would be unacceptable for a licensee to just close out a developed reference check, required for temporary access, as best effort using a listed reference or an individual who has not had frequent and direct association with the applicant. If a developed reference cannot be obtained by contacting listed references initially provided, the licensee may want to contact the applicant's coworkers to try to develop a reference who would meet the criteria in paragraph 6.4.d. of NUREG

89-01. Another approach would be to obtain additional listed references from the individual being processed and try again.

4. Response B.3. could be expanded to alert licensees to the importance of specifically requesting "character of service" information. If not requested, information about drug, alcohol, emotional problems, etc., may not be identified. Also, paragraph 6.2.4 of NUMARC 89-01 specifies if records are not forwarded by the NPRC, the temporary access period may be extended provided that reasonable, documented attempts are made every six months until a response from NPRC is received. Licensees are expected to make appropriate additional inquiries as necessary based on the response. If a written response is not received after several documented attempts, licensees should attempt telephonic contact and document the effort.

5. Response B.4. could be expanded to provide some of the tactics used by licensees to ensure that individuals are aware of their responsibilities to report arrests, such as signed acknowledgement documents, training (to include test questions), signs, bulletins, etc.

6. Response B.5. addresses methods of identity verification that are identified as acceptable under NUMARC 89-01 when conducting a full background investigation, yet the question appears to be directed at what might be acceptable for verifying identification when conducting "Temporary" background investigation. Temporary access is granted based on a very limited background investigation, and accurate verification of identity is a significant element of the process. Paragraph 6.4 of NUMARC 89-01 allows licensees to grant temporary access based on satisfactory photo identification, along with satisfactory completion of certain other elements. Two credit cards would not meet the intent of photo identification. If photo identification cannot be obtained, visual identification by a supervisor, or, if a supervisor is completely unattainable, by coworkers (preferably, ones who have been granted unescorted access) would meet the intent of photo identification. If visual verification is also not attainable, telephonic identification can be used. It can be accomplished by obtaining a verbal description from a supervisor or coworkers and by the person(s) providing the description also providing voice identification by talking to the applicant.

7. Response B.6. should be expanded to address proper actions to be taken when derogatory information is developed that may not have been identified by an applicant on a clearance application form, as required by the licensee. Actions would include licensee review of the form or interface with its self-screening contractor or screening agent to determine if the applicant identified the information. If it was not identified, the licensee would need to determine if the applicant deliberately omitted it. In these cases, the possible act of omission, as well as the significance of the derogatory information, is "available information" to be considered before authorizing or continuing unescorted access. Willful omission or falsification of material information submitted in support of a request for unescorted access is one of the factors identified in paragraph 7.1.a. of NUMARC 89-01 that "must" be considered in making access determinations.

8. Response B.7. could be expanded to advise licensees that, if unescorted access has already been granted, derogatory information should be evaluated as soon as it becomes available, along with other information already developed.

Seemingly minor adverse information previously developed can become much more significant when coupled with new information. A decision should be made promptly to suspend, terminate, or continue unescorted access. In some cases the licensee may decide to place an individual under escort pending resolution of the issue.

A case has been identified where a licensee took a position that, because 10 CFR 73.57(e) gives an individual at least 10 days to challenge results of an FBI criminal history records check, it did not have to consider suspending or terminating a temporary unescorted access for 10 days following receipt of derogatory criminal history information, regardless of its significance. The licensee's position was not correct. The requirement in 10 CFR 73.57 to allow individuals 10 days to challenge information is only directed at a licensee's final adverse determination. The requirement does not relieve the licensee of its responsibility to review and evaluate pertinent information developed and to make a decision to revoke or continue the individual's unescorted access authorization until the matter is resolved (See 10 CFR 73.56(b)(3)).

Cases have also been identified in which licensees took an individual's word initially that a criminal history record was incorrect, that they were innocent, or that the charges were dropped, only to find out later during routin inquiries, that the individual misled them in order to retain unescorted access. In some cases, if the licensees had initially verified the information through appropriate sources (law enforcement agencies, official court records, etc.) they would have terminated the unescorted access authorization much sooner.

8. Response B.7. states that "There is no regulatory requirement to maintain checklists or field notes." 10 CFR 73.56(h)(1) requires licensees to retain the records on which access authorizations are based. Also, 10 CFR 73.56(b)(3) requires that "The licensee shall base its decision to grant, deny, revoke, or continue an unescorted access authorization on review and evaluation of all pertinent information developed." If a summary sheet contains all pertinent information developed, then we agree that it would meet the review and retention requirements of the rule. For example, it would need to contain information such as responses to questions asked during the background investigation about employment history or about an applicant's reputation for emotional stability, trustworthiness and reliability, etc. That kind of information is considered "pertinent", and its significance is addressed in paragraph 6.2.5 of NUMARC 89-01. If the summary sheet does not contain all pertinent information, then the documents containing it must be evaluated and maintained whether they are checklists, field notes, or other documents.

It is acceptable for the licensees to rely on an investigative agency to evaluate, summarize, and retain any or all information as long as it is completed in accordance with the licensee's commitments to the NRC. Also, if the information is evaluated and retained by the investigative agency with just a summary to the licensee which does not contain all of the required elements such as answers to the questions referenced above, the licensee's periodic audits of the contractor should cover those elements (e.g. evaluation conference and review of detailed information, protection of information, retention, etc.).

9. Response B.8. should include some discussion on the importance of "frequent" and "direct" association when conducting an investigation for granting a temporary access. Such an investigation is limited at best and only one developed reference is relied on, which is why the NRC and the industry agreed that the association must be frequent and direct (see paragraph 6.4.d. of NUMARC 89-01). Licensees would benefit by development of guidance as to what constitutes "frequent" and "direct" contact. Further, industry guidance would be of benefit. Also, investigators should determine during interviews if developed references have sufficient knowledge based on the licensee's established, documented parameters. In responding to the question of how frequent must the association be, you may want to point out that frequent, by definition, occurs "often", and often, by definition, occurs many times, not occasionally. We have observed that licensees use varying definitions of "frequent" and "direct" and require varying durations for such associations.

10. Response C.1. should indicate "full" proctoring or acceptable partial proctoring (e.g., via CCTV, observation through glass, etc). We have observed that some licensees have implemented a good practice of documenting proctoring in some manner to assist in ensuring proper implementation of the procedure.

11. Response C.2. would be enhanced by providing a medical definition of "clinical". One standard dictionary definition of "clinical" is "of or based on observed signs and symptoms" (1980 Oxford American Dictionary). Another is "involving direct observation of the patient" (Webster's Ninth New Collegiate Dictionary, 1989).

In addition, we recommend that the comment regarding NRC's consideration of current technology be revised to clearly state that technology to transmit these signs and symptoms in sufficient quality to provide adequate sensory clues has not been demonstrated to the NRC as yet.

12. Response D.1. is somewhat confusing. If it is industry's position that the transfer form or certification letter cannot be submitted unless the contractor's entire program is approved, to include the behavioral observation program, it should be clearly stated as a requirement that must be met in order to utilize the transfer system for contractors or to certify and request access. Otherwise, when only "certain" elements have been approved, it should be so stated on the form or letter. The initial NRC AA inspections determined that the above position was not understood by all licensees.

13. Response E.1. should be expanded to state that access is considered interrupted when an individual is away from a licensee or licensee-approved behavioral observation program (BOP) for more than 30 days, regardless of whether the unescorted access is active or has been terminated and that the licensee must ascertain that the activities the individual engaged in during the absence did not have the potential to affect his or her trustworthiness and reliability. We note that 10 CFR 73.56(b)(2)(iii) requires behavioral observation conducted by supervisors and management personnel for individuals granted unescorted access and that the NRC elected to clarify to industry that it expects licensees to ascertain an individual's activities if there is a break in the BOP (See paragraph B.3. of RG 5.66). Industry proposed, in NUMARC 91-03, "Nuclear Power Plant Personnel Access Authorization Data Exchange Guidelines", that this action should only have to be taken if the

break is more than 30 days. The NRC subsequently agreed with that time frame when it advised NUMARC that the Guidelines met the intent of 10 CFR 73.56 and RG 5.66.

14. Response E.2. should reference the 30-day criteria in response E.1.

15. Response F.1. should clarify that NUMARC 91-03 allows the use of the Transfer Form as an enclosure to a Contractor Certification Letter only to provide information on the individual for those elements covered by the contractor's program, not to transfer another licensee's unescorted access authorization or FBI criminal check completion. 10 CFR 73.56 and 73.57 only allow licensees to transfer data of this nature. Lack of clarity in the response to this question may result in contractors entering licensee data if they are aware of it, which could result in misinformation or unauthorized actions by contractors.

16. Response F.2. should caution licensees that it is the receiving licensee's responsibility to ensure that computer-faxed access transfer copies are truly from a licensee. If the receiving licensee has requested the transfer using fax numbers established with the other licensee, then it would have adequate assurance that the fax it receives is from that licensee. However, if a transfer is received that was not requested, verification would be in order. For example, a fax may indicate that a licensee is transferring an access at the request of its contractor. The verification should be accomplished through established verification numbers. Fax transmission headers, footers are entered by the sender, who may not be a licensee.

Single insider concerns and protective measures should be considered and addressed, to include situations where individuals are allowed to authorize/certify access, fax or receive transfer forms, enter authorization data into computers, manufacture badges, etc.

17. Response F.6.: The appropriate response for the question addressed here appears to be addressed in Response A.1. You may want to combine the questions. If you keep them separate, our A.1. comments apply here, as appropriate.

18. Response F.7. should be expanded to include information on record retention/delete responsibility when the initial five years is exceeded.

19. Response G.2. may give the wrong implication if it starts with "No". Licensees may see the "No" and not review the qualifiers in the response. We recommend that you advise licensees that "in most cases" the delays are caused by either the FBI criminal or military records check not being returned, etc., which does not necessitate withdrawal of the unescorted access as long as proper actions are taken to attempt to obtain the missing information. However, it should be made clear that if the delay is the result of failure to complete other elements of the background investigation within the control of the first processing licensee, the unescorted access authorization must be withdrawn at the 180-day point for those licensees who commit to implementing all elements of RG 5.66 (See para B.2. of RG 5.66).

20. Response G.3. should point out that if the receiving licensee is not notified prior to the 180 day limit, the unescorted AA must be terminated.

21. Response G.4. should emphasize that the check itself must still be completed on a best effort basis and cannot be closed out as best effort just because it cannot be completed in a couple of days. The licensee would need to make contact with the employer and get some kind of a response, unless, for example, the licensee verifies that the employer went out of business and could not be contacted.

22. Response I.1. would be enhanced by referencing your response to A.1., which addresses acceptance of a contractor certification vice a licensee transfer of access. Also, if a receiving licensee is aware of audit findings that place doubt on the quality of the contractor program, it has a responsibility to contact other licensees or the contractor, as appropriate, to ensure that the identified discrepancies do not affect its program or the transferred access authorization. This should be accomplished prior to authorizing unescorted access based on the transfer when the receiving licensee is aware of unresolved issues that could affect the quality of the transfer. The transferring licensee may not have conducted the audit and may not be aware of the discrepancies. It may even be necessary for the receiving licensee to audit the contractor's program if its concerns cannot be resolved initially.

We are aware of cases where contractors did not take immediate steps to ensure that major program discrepancies discovered by one licensee did not affect background investigations the contractor conducted for other licensees. In some cases, discrepancies in background investigations conducted for the other licensee were not addressed until that licensee inquired or audited and found the same problems.

The response should focus on more than just obtaining a copy of audit reports. Emphasis should be placed on proper review for adequacy of the audit, evaluation of findings, corrective actions, etc. and appropriate follow up actions. Also, as stated in our comments on Response A.1, although 10 CFR 73.56(g)(2) allows licensees to accept audits conducted by other licensees, each licensee retains responsibility for the effectiveness of any contractor and vendor program it accepts and the implementation of appropriate corrective action.

23. Response J.1.: The appropriate response for this question appears to be addressed in part, in Response B.7. You may want to combine the questions. If you do not, our applicable B.7. comments apply here. Also, if service with a BI contractor is discontinued and the contractor has the records that the licensee's access authorizations were based on, they should be retrieved or there should be a contractual agreement for the contractor to maintain them. If the contractor maintains the records, the licensee would have audit responsibilities to ensure that the records are properly maintained. If individuals are in the data transfer system, their records need to be maintained for five years after final termination of access. Once the records are destroyed, another five year investigation and a psychological evaluation would have to be conducted and evaluated prior to authorizing or continuing access (see 10 CFR 73.56(h)(1)).

24. Response I.2. states that "current procedures" should be followed. An example of such procedures are the requirements here also.

NUCLEAR ENERGY INSTITUTE

Encl. 1

March 23, 1994

Mr. Frank J. Congel, Director  
Division of Radiation Safety and Safeguards  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
One White Flint North  
11555 Rockville Pike  
Rockville, MD 20852

Dear Mr. Congel:

The purpose of this letter is to request an NRC staff review of the enclosed draft "Access Authorization (AA) Program Issues and Responses." We request NRC review to ensure that our responses to the industry on these access authorization issues are not in conflict with the intent of applicable regulations. On two prior occasions, we have used this process to efficiently provide information to licensees that helped to refine and improve access authorization programs. The main sources for these issues are previous NEI/NUMARC Workshops on Fitness-for-Duty and Access Authorization and the results of the NRC's recent pilot inspection program for licensee implementation of the Access Authorization Rule.

Because this information is of generic interest to the nuclear power industry and the NRC, it is our understanding that no special fees will be assessed for the NRC review. If this is incorrect, please contact us prior to beginning your review.

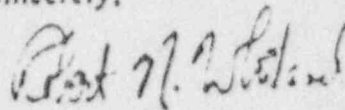

For your information, NEI is continuing a NUMARC project aimed at identifying the required elements of a standardized behavioral observation program. Guidelines for a program that satisfies the behavioral observation requirements of both the Access Authorization and the Fitness-for-Duty Rules are being developed. After industry review we will forward a copy to the NRC.

Mr. Frank J. Congel, Director  
March 23, 1994  
Page 2

Thank you for your support of our efforts to provide assistance to the industry in  
these draft documents. If you or your staff have any questions during your review of  
these draft documents, please call Rich Enkebolz or me.

Sincerely,

Robert N. Whitesel, Manager  
Operations, Management  
and Support Services

ACCESS AUTHORIZATION (AA)  
PROGRAM ISSUES AND RESPONSES

A. ACCESS AUTHORIZATION PROGRAM ORGANIZATION AND ADMINISTRATION

*Some licensees are apparently not looking closely at how their approved contractor vendors (self-screening contractors) are complying with regulation and licensee commitments. One contractor vendor neglected to audit its sub-contractors. This was not noticed by the licensee in its audits; a falsification was discovered through this situation to light. Another contractor vendor was following NRC 50.5 but not the clarifications imposed by Reg. Guide 5.66. It had also been made clear that all licensees had committed to the use of NRC 50.5. Other licensees have not informed their self-screening contractors of pertinent information, such as NRC Information Notice 91-59, "Problems with Access Authorization Programs," and 10 CFR 50.5, "Deliberate Misconduct."*

Comprehensive oversight of contractor/vendor programs to ensure understanding and compliance would alleviate the root cause of this observation. Specific provisions should be included in the contract. The contract should stipulate notification responsibilities for discovery of inaccurate or falsified information. If the discovery would affect other licensees, a procedure for their prompt notification should be included. Records ownership and retention responsibilities should be specified. Copies of all pertinent licensee procedures and regulatory documents need to be provided to the contractor/vendor. For instance, IN 91-59 ("to alert addressees to two areas of continuing problems with access authorization programs...falsifying records...improper administration or compromise of psychological tests.") should be included. The procedures should explain the action to be taken and what the liability is for willful withholding of information.

The program-approving licensee is responsible for auditing the contractor/vendor program. Follow-up on deficiencies identified in audits must be documented and made available to other requesting licensees in support of their access determinations that are made based on the expectation that the provided information is correct. It is essential that contractor/vendor programs meet the standards imposed by regulation.

An NRC comment in a public meeting indicated that there is concern that a non-licensed individual could violate § 50.5 by failing to follow the licensee's procedures.

er policies and cause the licensee to be in violation of NRC requirements. An inadvertent failing of a contractor/vendor in following a licensee's procedure has recently resulted in a citation for lack of compliance.

*Against the contractor or licensee? This paragraph needs additional clarification. See our Comment #1.*

## B. BACKGROUND INVESTIGATION ELEMENTS

*Unclassifiable fingerprint issue is not well understood. Some licensees believe that fingerprints have been submitted twice, regulatory requirements have been met, officers do not always determine and correct the cause of a poor print submission and may accept a "name check" as sufficient. The NRC cited a case where a felon was able to fabricate a background with a false identity and gain temporary unescorted access. He was only caught when the fingerprint submission resulted in receipt of a criminal record concerning the individual's activities.*

A criminal history check ~~should~~ not be closed without classifiable fingerprints if the reason for the print being unclassifiable is poor printing technique. The resultant "search by name" FBI check result may not provide the needed result. Licensee personnel performing the fingerprinting ~~should~~ be properly trained for the task, or the use of a technician from a law enforcement agency should be considered. In the rare case where the individual's finger ridges have been worn away or disfigured, the fingerprints should be identified as the "best set obtainable" prior to submission. The FBI may then be able to perform an approximate classification. All attempts to obtain classifiable prints should be documented; rejected prints should be retained to verify "best effort." Even with this guidance, a case should not be closed with less than two attempts (one \$24 fee provides for this) to obtain classifiable prints.

*Should be revised to require 2 attempts to obtain classifiable prints.*

One licensee has expressed concern about temporarily cleared individuals when the fingerprints are returned without being classified. If the individual has completed work and departed the site, the licensee obligation to complete the process for a full clearance is stifled until the individual becomes available for re-fingerprinting. Item C.3. below provides further discussion of this issue.

*There are several levels of interpretation of what constitutes a "best effort" in conducting a background investigation. What is considered an acceptable level of effort can vary of the investigative effort?*

"Best effort" is not amenable to quantification -- there is no set formula or check list for a background investigation that can be used to determine when the effort has

been sufficient. The NUMARC 89-01/91-03 intent was that the investigator make a thorough attempt to collect the required information, doing as complete an investigation as can be done under the circumstances. If one avenue was unsuccessful, maybe another would lead to the information required. If sufficient information can be pieced together to accomplish the objective, the "best effort" will have been successful. If, in spite of using all normal avenues available, the information collected is still incomplete, a narrative of the effort and results achieved should be documented to show the basis to evaluate the attempt as "best effort."

3. *What constitutes a "best effort" in submitting SF 180 request forms to the National Personnel Records Center to obtain a DD-214? Some licensees report that several SF 180 forms have been submitted with no response or, in some cases, the "character of service" has been deleted.*

It is important to recognize that the National Personnel Records Center (NPRC) is only one place that military records are filed. If no response is received within two months, you may have requested the information from the wrong agency. The location of the record will depend on the branch of service, the time period since separation and whether the individual has remained in the Reserves. It is recommended that the licensee review information provided by the candidate, then review Appendix C of NUMARC 91-03, specifically referring to the chart on the back of SF 180, to determine the most likely location of the service record. If this research indicates that the record should be located at NPRC, but the record is not forthcoming within two months, you may wish to contact NPRC (Army Reference Branch number: 314-538-4145 or 4131; Navy 4200). NPRC advises they will provide a postcard response if they refer the submitted SF 180 request to another agency. If there is still no success, further submissions of SF 180 will not alleviate the situation. The licensee should record a "best effort" that is properly supported by narrative and close out the search.

The "character of service" will be provided by NPRC only if specifically requested, and the individual authorizes its release by signature (see Appendix C of NUMARC 91-03).

4. *Reg. Guide 5 66, § 9 0, requires employees "to report any arrest that may impact upon his/her trustworthiness." How is this determined unless all arrests are reviewed?*

It is necessary that all persons subject to the rule be made aware of their individual responsibility under the licensee's physical security plan commitment to Reg. Guide

5.66. Many licensees have established procedures that include training the individual on the purpose, process to be followed and the potential ramifications of this requirement. These programs provide awareness of two individual responsibilities:

- Report all convictions as part of the security clearance process; and
- Promptly report arrests or when charged with a criminal offense.

Some programs establish specific criteria for reporting arrests rather than relying on the Reg. Guide 5.66 phraseology to report any arrest that may impact upon his/her trustworthiness. For example, some licensees require the reporting of any arrest that results in being taken into custody by an authority of the law, incarcerated (i.e., taken to jail/court), or charged with a criminal offense but not taken into custody. This enables the licensee to evaluate its impact upon the individual's reliability and trustworthiness related to unescorted access authorization or access to Safeguards Information. Considering state law categorizations, licensees should determine whether non-custodial, misdemeanor arrests (e.g., a routine traffic ticket) are required to be reported.

*Some licensees apparently accept two credit cards as sufficient evidence to verify an individual's identity when a photo identification is unavailable -- is this an acceptable procedure?*

No, it is not an accepted practice to use commercial forms of identification with the possible exception of a credit card imprinted with a photo of the card user. The significance of "verification of identity" is to ensure that the individual in question is whom he or she purports to be. Reg. Guide 5.66, § 6.2.6, requires identity to "... be verified through means such as photograph, social security number, date of birth, or comparison of applicant's physical characteristics with employment, education, military, and other records, and/or employer and character references who have a personal acquaintance with the applicant." Identity should normally be verified through the use of an identification issued by a municipal, State, or Federal agency (e.g., check by name and social security number). An acceptable alternative is to have the person identified by a supervisor/manager that is acquainted with the individual.

X, A  
See  
Case

*APC inspections noted that some licensees either do not do a thorough review of fully document their review and adjudication of potentially derogatory information*

*basis for and*  
In order to show that potentially derogatory information has been satisfactorily checked, the disposition of derogatory information should be documented. An interview with the applicant should be conducted in order to allow explanation or refutation of any potentially derogatory information. X  
Also see our  
Comment # 7

*there is a difference of opinion whether a licensee review of an investigative agency's clearance summary sheets is sufficient or whether all of the actual checklists, field notes, etc., must be reviewed, please clarify.*

*investigation*  
The purpose of the licensee review is to look at all elements of the investigation to ensure that the ~~individual~~ <sup>individual</sup> meets the requirements of the rule before being granted unescorted access authorization. If the summary sheets provide that information, that is sufficient. There is no regulatory requirement to maintain checklists or field notes. X  
Also see our  
Comment #

*investigative*  
*references have interpreted the "frequent contact" requirement for personal references to mean contact with the subject every two months over the course of an individual's count as a personal reference?*

No set frequency has been, nor should be, established. The licensee makes the judgment on the issue of whether the personal reference ~~has~~ <sup>has</sup> had sufficient contact with the subject to provide adequate responses to the investigator. Each relationship has to be evaluated on a case by case basis rather than on a minimum frequency basis. In this regard, it is considered inappropriate for a licensee to delegate this determination to a background investigating agency's judgment without specific guidance. X  
Also see our  
Comment #

## C. PSYCHOLOGICAL EVALUATIONS

*proctored and that fact documented?*

Yes. Information Notice 88-91, "Improper Administration and Control of Psychological Tests," explains why proctoring is necessary to ensure proper administration and control of psychological test materials and testing environments. Information Notice 91-59 (see A.1. above) also alerted addressees to improper administration or compromise of psychological tests. If a utility's procedure explains X  
Also see our  
Comment #

the psychological testing process and meets regulatory intent, no further documentation should be necessary.

2. Procedures do not always define requirements for a psychological interview, the necessity of which is determined after review of the MMPI results. Some interviews have been conducted by telephone. Some licensees have asked about the use of a video-phone hookup to enable remote interviewing. What is expected

The NRC has taken the position that face-to-face interviews are necessary to reveal sufficient sensory clues to the interviewer. During a face-to-face interview, a psychologist who has knowledge of an individual's background and understands the meaning of the MMPI indicators can lead the interview in a way that brings out subtle clues unavailable by other means. Abnormal psychological symptoms (e.g., erratic eye movement, skin flushing, unusual body language, etc.) may be subtle but can be significant in the interview/observation process. The NRC does not consider current technology video-phones to be of sufficient quality to transmit these subtle clues.

X See our  
Comment # 11

#### D. BEHAVIORAL OBSERVATION PROGRAM

Some contractor behavioral observation programs were not always specifically itemized in licensee approval of unescorted access authorization programs. Therefore, this aspect was not necessarily being audited. Licensees receiving access data from approved contractor vendors in the past have expected that the approved program automatically included behavioral observation. What can we expect?

X See our  
comment #12

Licensees are authorized to approve any or all aspects of a contractor/vendor program. When a program is approved, the approving document (contract or equivalent) should state which program elements are to be the responsibility of the contractor/vendor. When a NUMARC Transfer Form or Certification Letter concerning a contractor/vendor employee is provided to a receiving licensee, it is expected that the contractor/vendor's CBOP is approved (and therefore audited) or that the individual has been under the transferring licensee's behavioral observation program.

## I. UPDATING AND REINSTATEMENT

If an individual met all requirements for unescorted access but has been away from a Continual Behavioral Observation Program (CBOP) for more than 30 days, the licensee must ascertain that the activities of the individual during the absence would not impact his or her trustworthiness and reliability. What is considered to be an appropriate process for this determination?

The rule, §73.56(C)(2), states: "The access authorization program may specify conditions for reinstating an interrupted access authorization..." Reg. Guide 5.66, Clarification 3., states: "...prior to reinstatement of the access authorization, it is reasonable to expect that the licensee will ascertain that whatever activities the employee engaged in during his or her absence would not have the potential to affect the employee's trustworthiness and reliability." NUMARC 91-03, III.B.4., notes that the absence described in Reg. Guide 5.66 has to have been more than 30 consecutive days. Further, this section advises that this determination can take place by any process suitable to this end. It allows the licensee to make a determination based on individual circumstances. The intent is to assess how much re-investigation should be conducted based on specific circumstances. Ascertaining what activities the individual was engaged in since he or she last held an unescorted access authorization could utilize some combination of several techniques. This could include the use of a questionnaire, an interview of the individual, or contact with employers or associates (e.g., listed or developed references) of the individual during the period of absence, a check of local union halls or unemployment agencies, etc. It is appropriate to use any follow-up investigative technique that would obtain the necessary information.

x Also See  
Clarification  
# 13.

Are companies with approved access authorization programs (e.g., INPO) required to have their personnel updated or reinstated if they have been in the company's continuous employ and under its random testing and behavioral observation programs?

No, provided that the company's approved FFD and access authorization (including behavioral observation) programs meet all requirements as determined by periodic licensee audits. Personnel covered by such a program meet all requirements for unescorted access authorization at all sites and would need only site specific training prior to being badged. (See F.8. below.)

comment # 14

## F. TRANSFER OF ACCESS

1. Does the Certification Letter serve a different purpose than the NUMARC 91-03 Transfer Form?

Yes, although the process (NUMARC 91-03, II B.) allows the use of the Transfer Form as an enclosure to a Certification Letter. With the individual's consent, licensees use the Transfer Form to provide access authorization information about an individual to whom they have granted unescorted access and who was terminated without disqualification. Contractor/vendors are to use a Certification Letter to provide all information associated with their employees, except the criminal history details that they are not authorized to have by regulation. The Certification Letter makes an obvious distinction between a licensee access authorization clearance transfer and a contractor/vendor access information document. It provides a vehicle to identify the licensee that approved the access authorization program and adjudicated the individual's criminal history.

X See our Comment # 15.

2. Must the person who signs the NUMARC 91-03 Transfer Form be listed on the company's Coordinating Point of Contact (CPOC) list? Transfer Forms may be automatically computer-faxed without a signature; does this present a problem?

No, the CPOC list was established by position, not by name, to be a ready point of contact. More than one person working with access control information may be authorized by the company to officially transmit Transfer Forms. Also, there is no requirement for a computer generated NUMARC 91-03 Transfer Form to be signed. A fax transmission header/footer specifying the transmitting company name or phone number provides reasonable assurance that the transmission originated at the specified source. If this is not the case, further communication is appropriate.

Land investigation

Also see our Comment # 12

3. How can we ensure that the NUMARC 91-03 Transfer Form (Section 6 -- Access Authorization History/Audit Trail) to indicate an individual's access authorization audit trail for job sites. What should we do if the individual has been at more than five sites?

Individuals who have an extensive work history in the nuclear industry will have a lengthy unescorted access authorization audit trail. Because this is a series transfer process, a satisfactory practice is to maintain the first entry (initial access granted) and then access location entries for the last four. This practice is considered preferable to attaching a page of access authorization history to the Transfer Form.

In the unusual circumstance that it becomes necessary to obtain information associated with the period of the "gap," the audit trail can be retrieved by starting with the first entered company.

4. Does the NUMARC process require that a Transfer Form be sent by the receiving licensee to the transferring licensee to initiate a transfer of information? Is it required that a consent form be provided concurrently by the transferring licensee?

No is the answer to both questions. As described in NUMARC 91-03, it is only necessary to furnish the transferring licensee with the name(s) and social security number(s) of the individual(s) on whom information is being requested. No consent form is required. The Transfer Form is not sent unless the individual has provided this consent to the first transferring licensee. The request for transfers is made by telephone/fax to the transferring licensee. The transferring licensee then provides a filled-in Transfer Form for each of the listed individuals. If some information is not being provided, the applicable line should not be left blank but annotated to advise the receiving licensee of the fact that the omission was not an oversight.

5. Does the company covers all FFD training in GET (General Employee Training). The training categories in section 3 d of the Transfer Form are not specifically used. What date is to be used to track initial and annual retraining for these sub-categories?

In this case, it would be appropriate to use the most recent date that the GET training or retraining was accomplished. This date should be inserted in all applicable blanks on the form. There is no reason to indicate when the initial training was completed unless it was the last training provided.

6. What method is used to ensure a contractor/vendor access authorization program meets industry screening standards?

The licensee who approves a contractor/vendor program must first ensure that company has a program and process that meet regulatory requirements, which are normally specified in the contract. The approving licensee's annual audit then ensures that the contractor/vendor is complying with the contract.

once an individual's access data is transferred to a receiving licensee, please explain where data responsibility lies.

The NUMARC process provides for transfer of access data to the next licensee in a series trail. The initiating licensee retains the responsibility for maintaining records of the clearance for five years after transferring the individual (see J.3 below). Data to support continuation of the clearances are maintained by each licensee in the transfer chain. <sup>Will all readers understand this term?</sup> If a transferring licensee subsequently receives another transfer request from a licensee different from the previous receiving licensee, it may indicate that the individual in question deliberately neglected to advise this requesting licensee that he/she had been at another plant in the interim, possibly fearing that derogatory information could be found in his/her record. To minimize opportunities for such deception, a receiving licensee should inform the transferring licensee if the individual fails to appear at the site as expected. Responsibility for the individual's clearance data would then revert back to the transferring licensee until another licensee requests a data transfer.

Do some licensees place extra unnecessary requirements on transfer requests? For example, a licensee-approved, self-screening contractor vendor requirement if an individual has been reinstated or updated prior to being transferred to the licensee?

Such extra requirements reduce the efficiency of the transfer process. NUMARC 91-03, II.C.2., provides a description of the clearance status: "authorized for unescorted access." An individual maintained in this status meets all requirements (completed PE, covered by random testing and CBOP within the last 30 days, current in training, etc.) and can be granted immediate unescorted access, after completion of site specific training, without any updating or verifying of activities. (See E.2. above.)

## G. TEMPORARY ACCESS AUTHORIZATION

Is a licensee required to accept the transfer of a temporary clearance if the individual's clearance will expire within a short period of time?

No licensee is required to accept a temporary transfer. Experience has shown that, even if there is only a little time left before the 180-day deadline arrives, the only residual information needed will either be criminal history or military history. Most other transferable information will be available and useful. The transferring licensee should provide on the Transfer Form (or by CPOC call) the expectations for

providing the incomplete items. The transferring licensee continues to be responsible for notifying the receiving licensee regarding BI completion and/or emergent disqualifying information, if any.

2. *In the situation where a licensee transfers a temporary clearance but is unable to complete the background investigation within the 180 day period, does the receiving licensee have to withdraw the access authorization?*

No. NUMARC 91-03 establishes the first processing licensee as the agent responsible for completing the BI. Delays in completion of either the criminal history or military background checks can be used to extend the clearance beyond the 180-day period. A criminal history delay may be the result of multiple re-submissions of fingerprints (see B.1. above and G.3. below). A military history delay may occur because the applicable record retention agency was not contacted (see B.3. above). The special circumstances that must be addressed in order to complete the full clearance process can usually be accomplished within the 180 day period with a "best effort" pursuit. However, if the delay is the result of failure to complete other elements of the background investigation within the control of the first processing licensee, then the temporary clearance should be withdrawn at the 180-day point.

*Do the receiving licensee expect to receive notification when fingerprint authorization is acceptable upon its return from the FBI? If fingerprint results are not received prior to an individual leaving the site, and reprinting is required, but the transferring licensee is unable to make subsequent contact with the individual, what needs to be done for closure of the background investigation?*

Yes, the receiving licensee can expect to be notified when a temporary clearance has been upgraded to a full clearance after the residual requirements (including criminal history) have been completed by the process initiating licensee (see G.1. and G.2. above). When providing a NUMARC 91-03 Transfer Form for a temporary clearance the transferring licensee should advise the receiving licensee of remaining requirements. If the residual requirements are not completed within the 180-day period, the transferring licensee would advise the receiving licensee of the potential delay in a timely manner. If the incomplete information concerns military history or criminal history, the clearance period can be extended while those aspects are completed. If the fingerprint submittal has not resulted in the return of a criminal history from the FBI because of poor quality prints (see B.1. above), the receiving licensee should then obtain the best possible reprint and submit it via the NRC for another FBI check.

4. Many licensees report that their experience has shown that the verification of employment for a temporary clearance provides no added value. One example cited was "(Of 463 personnel badged during the outage, 180 were delayed (loss of productivity of more than three days each) while trying to verify employment during the previous year." What purpose does this one-year employment check serve?

Reg. Guide 5.66 NUMARC 89-01, § 6.4.f., specifies those items (a psychological evaluation, a credit check, a developed reference and the one year employment check) to be completed for a temporary clearance. This is considered to be an acceptable expedient while finishing the full clearance requirements (five-year background investigation and military history as well as an adult criminal history). Elimination of the employment check could weaken the temporary clearance basis. Some licensees obtain an additional character reference to supplement the paucity of meaningful information from the one-year employment check. The goal of the checks for temporary clearance is to collect sufficient information that a reasoned unescorted access decision can be made.

X See car  
Comment # 21

## II. PROTECTION OF PERSONAL INFORMATION

Licensees and their contractor vendors have been reluctant to release access and employment information to others as required by 10 CFR § 73.56 (f)(2), even when such requests have been accompanied by a signed release from the individual. Please explain the requirement.

This may be a result of procedures in place prior to the Access Authorization Rule. As long as the information is only used for the purpose of determining an access clearance and is properly protected, the rule requires that it be provided. The information would be obtained from access authorization records, not from the personnel employment file (see J.2. below). If not already included in the initial Consent Form, the clearance initiating licensee needs to obtain a signed release consent that authorizes the transfer of the collected information to other companies that may be asked to allow the individual unescorted access to protected areas or to safeguards information. In Section 1 of the NUMARC 91-03 Transfer Form there is the statement: "Subject individual has provided written consent for the release of any information or documentation pertinent to evaluation for unescorted access authorization at any nuclear power plant." No other consent forms need to be requested or provided when transferring access information.

## I. AUDITS

*When a receiving licensee is provided information on a contractor/vendor employee, is it required that a copy of the last audit be provided at the same time? What if there were audit findings that placed doubt on the quality of the program (as has been the case with a few self-screening contractor/vendor programs)?*

No, the Rule does not require that the audit results be obtained prior to granting unescorted access to a transferred individual but the Rule (paragraph 73.56(g)(2)) does require licensees who share audits of contractor/vendor to obtain a copy of the applicable audit report. The responsibility for the quality of the program, including resolution of audit findings, remains with the licensee or the lead audit company of a group of licensees (such as the Integrated Nuclear Data Exchange (INDEX), the Shared Nuclear Access Authorization Audit Group (SNAAG), or the Nuclear Procurement Issues Committee (NUPIC)) that approved the contractor/vendor program. Receiving licensees trust that the program approving licensee(s) ensures the quality of the contractor/vendor's program. If a receiving licensee is not comfortable with this practice, further communication with the applicable auditors may be appropriate.

X Also see our comment # 20

## J. RECORDS

*Main licensees evaluate a synopsis (brief summary of the background elements examined and an indication of their acceptability) instead of the detailed checklist provided by a background investigative agency as the basis for access authorization decisions. Can it be used in place of original background investigation data (e.g., field notes) to satisfy record retention requirements? Is the licensee required to obtain original screening records when they have discontinued services with a BI contractor?*

If the synopsis is structured to provide the information required by regulation, field notes are not required. NUMARC 91-03, III.F., states that it is necessary to obtain and maintain records that support continued unescorted access for clearances initiated and granted by that licensee. Licensees should be able to retrieve the records for the BI contracted services. Subsequent receiving licensees are dependent upon this information being available to support program audits and NRC inspections.

2. Is it acceptable to have Human Resources information (e.g., employment records) and access authorization data stored in the same file or data base?

It is not a good practice to do so. Employment records serve a different purpose from access authorization records, and each is normally managed by a different group. Employment records are also considered to be 'confidential,' while access records must be 'made available' for requests provided for in § 73.56 f(2). There may be some information overlap in the two files (e.g., associated with a combined employment and suitable inquiry request). For these reasons, maintaining separate employment and access records may reduce exposure to potential discrimination EEO issues, co-employment issues, etc. (Also see H.1. above.)

3. What is the status of finding a solution to the five year record retention issue?

The solution resides in the establishment of a central records repository system (authorized by the NUMARC Board of Directors on March 1994). However, until this system is in place current procedures should be followed. The central records repository is expected to be in operation by 1996, within the five year period after access authorization rule implementation.

IA 94-035

UNITED STATES  
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555-0001

December 12, 1994

Mr. Rex Allen Werts  
(Address deleted  
under 10 CFR 2.790)

SUBJECT: ORDER PROHIBITING INVOLVEMENT IN NRC-LICENSED ACTIVITIES  
AND UNESCORTED ACCESS (EFFECTIVE IMMEDIATELY)  
OI INVESTIGATION REPORT SYNOPSIS (2-93-052R)

Dear Mr. Werts:

The enclosed Order Prohibiting Involvement in NRC-Licensed Activities and Unescorted Access (Effectively Immediately) is being issued as a consequence of the deliberate false statements you made on an application for access authorization at the Carolina Power and Light Company's (Licensee) Brunswick Nuclear Plant. On or about March 11, 1993, you used an alias on your access authorization application and indicated on the application that you had not been arrested or convicted of any criminal offense. As a result of your deliberate false statements, you were granted unescorted access to the Brunswick Nuclear Plant on March 24, 1993. The Licensee subsequently learned of your use of an alias and that you had been arrested and convicted several times for crimes and were incarcerated for some of those offenses. A licensee supervisor interviewed you about your application, at which time you admitted that you had submitted false information on your application.

10 CFR 50.5(a)(2), "Deliberate misconduct," prohibits an employee of an NRC licensee or licensee contractor from deliberately submitting information to the licensee or licensee contractor that the employee knows to be incomplete or inaccurate in some respect material to the NRC. 10 CFR Part 2, Appendix C, "General Statement of Policy and Procedures for NRC Enforcement Actions," in particular Section VIII, "Enforcement Action Involving Individuals," provides guidance and considerations for enforcement sanctions against individuals who deliberately violate NRC requirements.

The NRC Office of Investigations (OI) conducted an investigation (2-93-052R) to determine whether you committed a willful violation in connection with your making false statements regarding your criminal background. The OI investigation concluded that you had deliberately provided false information concerning your criminal arrest and conviction record in order to gain unescorted access to the site protected area. By letter dated September 14, 1994, the NRC attempted to provide you with a copy of the OI investigation synopsis and afford you an opportunity for an enforcement conference prior to making a final decision regarding escalated enforcement action in your case. The letter has been returned by the post office as undeliverable and we have been unable to locate you. A copy of the September 14, 1994, letter with the OI synopsis attached is enclosed (Enclosure 1). If attempts to deliver this letter and the enclosed Order are not successful, it will not delay the effective date of the enclosed Order nor the placement of this letter and enclosed Order in the Public Document Room.

Acc. # 9412130295

A-8

identity. The Licensee submitted fingerprint cards completed by Mr. Werts to the Federal Bureau of Investigation (FBI) and subsequently was informed that Mr. Werts (alias Mr. Hunter) had a record of arrests, convictions, and imprisonments prior to 1990.

III

Based on the above, Mr. Werts engaged in deliberate misconduct in violation of 10 CFR 50.5(a)(2) which prohibits any employee of a licensee or licensee contractor from deliberately submitting to the licensee or licensee's contractor information the employee knows to be incomplete or inaccurate in some respect material to the NRC. Information concerning an individual's true identity and criminal history is material in that it is used by the Licensee to make determinations relative to the grant or denial of access authorization. If the Licensee had been given accurate information regarding Mr. Werts' criminal record, the Licensee would not have granted unescorted access to Mr. Werts.

The NRC must be able to rely on the Licensee, its contractors, and licensee and contractor employees to comply with NRC requirements, including the requirement to provide information that is complete and accurate in all material respects. Mr. Werts' actions have raised serious concerns as to whether he can be relied upon to comply with NRC requirements and to provide complete and accurate information to the NRC or to NRC licensees in the future.

Consequently, I lack the requisite reasonable assurance that nuclear safety activities can be conducted in compliance with the Commission's requirements

and that the health and safety of the public would be protected if Mr. Werts were permitted at this time to be involved in the performance of licensed activities or were permitted unescorted access to protected or vital areas of NRC-licensed facilities. Therefore, the public health, safety and interest require that Mr. Werts be prohibited from being involved in the performance of activities licensed by the NRC and be prohibited from obtaining unescorted access for a period of three years from the date of this Order. For a period of five years from the date of this Order, Mr. Werts is required to inform the NRC of his acceptance of employment with any employer whose operations he knows or has reason to believe involve NRC-licensed activities. Furthermore, pursuant to 10 CFR 2.202, I find that the significance of the deliberate misconduct described above is such that the public health, safety and interest require that this Order be immediately effective.

#### IV

Accordingly, pursuant to sections 103, 161b, 161i, 182 and 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.202, 10 CFR 50.5, and 10 CFR 150.20, IT IS HEREBY ORDERED, EFFECTIVE IMMEDIATELY, THAT:

- A. For a three-year period from the date of this Order, Mr. Rex Allen Werts is prohibited from engaging in activities licensed by the NRC and is prohibited from obtaining unescorted access to protected and vital areas of facilities licensed by the NRC. For the purposes of this Order, licensed activities include the

activities licensed or regulated by: (1) NRC; (2) an Agreement State, limited to the Licensee's conduct of activities within NRC jurisdiction pursuant to 10 CFR 150.20; and (3) an Agreement State where the licensee is involved in the distribution of products that are subject to NRC jurisdiction.

- B. For a five-year period from the date of this Order, Mr. Werts is required to provide notice to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, of his acceptance of employment with any employer whose operations he knows or has reason to believe involve NRC-licensed activities.

The Director, Office of Enforcement, may, in writing, relax or rescind any of the above conditions upon demonstration by Mr. Werts of good cause.

v

In accordance with 10 CFR 2.202, Mr. Werts must, and any other person adversely affected by this Order may, submit an answer to this Order, and may request a hearing on this Order, within 20 days of the date of this Order. The answer may consent to this Order. Unless the answer consents to this Order, the answer shall, in writing and under oath or affirmation, specifically admit or deny each allegation or charge made in this Order and shall set forth the matters of fact and law on which Mr. Werts or other person adversely affected relies and the reasons as to why the Order should not have been issued. Any answer or request for a hearing shall be submitted to the

Secretary, U.S. Nuclear Regulatory Commission, ATTN: Chief, Docketing and Services Section, Washington, DC 20555. Copies also shall be sent to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555, to the Assistant General Counsel for Hearings and Enforcement at the same address, to the Regional Administrator, Region II, U.S. Nuclear Regulatory Commission, 101 Marietta St. N.W., Atlanta, Georgia 30323, and to Mr. Werts, if the answer or hearing request is by a person other than Mr. Werts. If a person other than Mr. Werts requests a hearing, that person shall set forth with particularity the manner in which his interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.714(d).

If a hearing is requested by Mr. Werts or a person whose interest is adversely affected, the Commission will issue an Order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be whether this Order should be sustained.

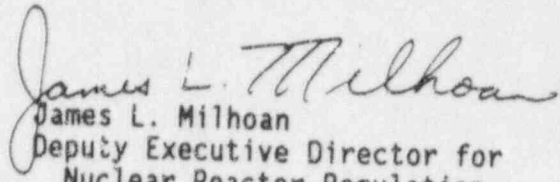

Pursuant to 10 CFR 2.202(c)(2)(i), Mr. Werts, or any other person adversely affected by this Order, may, in addition to demanding a hearing, at the time the answer is filed or sooner, move the presiding officer to set aside the immediate effectiveness of the Order on the ground that the Order, including the need for immediate effectiveness, is not based on adequate evidence but on mere suspicion, unfounded allegations, or error.

In the absence of any request for a hearing, the provisions specified in Section IV above shall be final 20 days from the date of this Order without

further order or proceedings. AN ANSWER OR A REQUEST FOR A HEARING SHALL NOT STAY THE IMMEDIATE EFFECTIVENESS OF THIS ORDER.

FOR THE NUCLEAR REGULATORY COMMISSION

  
James L. Milhoan  
Deputy Executive Director for  
Nuclear Reactor Regulation,  
Regional Operations and Research

## SYNOPSIS

On August 20, 1993, the U.S. Nuclear Regulatory Commission (NRC) licensee, Carolina Power and Light Company, submitted a Security Event Report to the NRC regarding an event at the licensee's Brunswick Nuclear Plant (BNP). The event described by the licensee involved an employee of a contractor who was granted unescorted access to the BNP vital and protected areas based on falsified employment and background information. This matter was referred to the NRC Office of Investigations (OI) Region II Field Office on September 1, 1993, for evaluation.

Based on OI review of the documentation and evidence obtained in this investigation, it is concluded that the subject deliberately falsified personal identification and background information to deceive the contractor, PPM, the licensee and the NRC in order to fraudulently obtain employment and unescorted access at the BNP.

December 12, 1994  
EN 94-131

OFFICE OF ENFORCEMENT  
NOTIFICATION OF SIGNIFICANT ENFORCEMENT ACTION

Individual: Rex Allen Werts (IA 94-035)

Subject: ORDER PROHIBITING INVOLVEMENT IN NRC-LICENSED ACTIVITIES AND UNESCORTED ACCESS (EFFECTIVE IMMEDIATELY)

This is to inform the Commission that, in accordance with SECY-94-287 (November 23, 1994) and the Commission's approval of the recommended action dated December 9, 1994, an Order Prohibiting Involvement in NRC-Licensed Activities and Unescorted Access (Effective Immediately) was issued December 12, 1994 to Rex Allen Werts. The action was based on an OI investigation which concluded that Mr. Werts had deliberately falsified his identity to gain employment and unescorted access to Carolina Power & Light's Brunswick facility. The Order prohibits Mr. Werts from engaging in NRC-licensed activities and from gaining unescorted access to protected and vital areas of NRC-licensed facilities for a period of three years. In addition, for a period of five years from the date of the Order, Mr. Werts is required to provide notification to the Director, Office of Enforcement, of his acceptance of employment with any employer whose operations he knows or has reason to believe involve NRC-licensed activities.

It should be noted that the individual has not been specifically informed of the enforcement action. The schedule of issuance and notification is:

Mailing of Notice	December 12, 1994
Telephone Notification of Individual	December 12, 1994

The individual has twenty days from the date of the Order in which to request a hearing.

Contacts: D. Rosano, OE, 504-3282 J. Lieberman, OE, 504-2741
