CKW

1 before then.

2 Q And would Mr. Brockman have had any basis to
3 question if you had just quoted what was going to be in the
4 LER to him, if he had any basis to question whether that was
5 accurate or not?

6 A It wasn't presented in that context.

7 Q You were just telling him what was going to be in
8 the LER?

9 A I was just -- yeah. I was telling him, and I had
10 done this back starting from really before April 9th. As we
11 got information, I was keeping him abreast of that.

12 One of the things that happened subsequent to
13 April 9th was that some of the information that we had
14 presented at the meeting changed. And every time that I
15 became aware that any of that information was changing and I
16 thought it was relevant in any way, I called him, told him
17 about that or directed someone to do so. In a couple of
18 cases, I think I directed Bill Shipman in my absence to call
19 and make him aware of things.

20 But unfortunately I don't have but one of my log
21 books that -- I don't normally keep these things, but
22 somehow this one was found in the search of all the records
23 in my office. And this one started in that June time frame.

24 It goes on through August or whatever, and there
25 are a number of cases in these logs where this -- this was

CKW

CKM

1 talked about and documented. And I can provide those things
2 to you.

3 Q This, being the rev to the LER, or what -- the
4 event --

5 A The information about the diesel generator and the
6 relevant things that had to do with the accuracy of
7 information about the starts and so forth.

8 Here is another one on August 1 where we were
9 talking about -- I was talking with Ken Brockman -- that's
10 item three. That's the reason I'm giving you this page,
11 just so you can see where it's coming from. But we talk
12 about the Calcon switches, the history of the problems, so
13 forth, how it was determined, all of those kind of problems.

14 Q Thank you. I'll include all of these for the
15 record under Exhibit X --

16 A Okay.

17 Q -- which is Mr. McCoy's notes from either a
18 daytimer or a notebook.

19 A Here is another reference in my notebook on August
20 20th of '90 where I had made a note and checked off that I
21 had taken action to do it to resolve the diesel generator
22 trip counts. And Kenny Stokes, who was the responsible guy
23 -- the reason for that is that we were trying to respond to
24 an OSI concern. And I had directed Kenny Stokes to do that
25 again.

CKM

CKW

1 Q Okay.

2 A Here's another case that I had called Ken
3 Brockman, talked about the diesel starts, counts, what was
4 the cause, etcetera on August 23rd.

5 Q 8/23; okay.

6 A Here is one on 8/28 where I called Ken Brockman,
7 discussed several things, the diesel generator letter. This
8 is referring to the letter that I was preparing as a result
9 of a request and a commitment I made during the OSI to
10 clarify the diesel generator start things.

11 Here's another one from 9/20. I think this is
12 significant in that at that time Ken Brockman had received
13 the letter clarifying the original COA letter. I made my
14 notes at that time. He indicated they had all the
15 information and understood what had occurred.

16 Here's another example, 9/24, where I called Ken
17 Brockman to keep him abreast of new information that had
18 come up in the testing of the diesel generator vibration
19 switches.

20 The point of all this is that, you know,
21 throughout this time -- and I think if you go look at my
22 phone logs, you'll see there are frequent telephone calls.
23 And that's the kind of calls that I made.

24 Q All right. I appreciate those.

25 MR. MORRIS: If you'd like to mark those as an

CKW

CKM

1 exhibit as well.

2 MR. ROBINSON: All right. These are my copies?

3 THE WITNESS: Yeah. Let me look at what I've just
4 given to you to make sure that I've given you a complete
5 set, if I may.

6 MR. MORRIS: Can we go off the record one second
7 here?

8 MR. ROBINSON: It's now 3:17, and we can go off
9 the record and take a ten-minute break if you like.

10 THE WITNESS: I prefer to continue.

11 [Discussion off the record.]

12 MR. ROBINSON: It's 3:20 and we're back on the
13 record.

14 MR. MORRIS: If you'll look at what I believe to
15 be page 1004 in the top right-hand corner

16 MR. ROBINSON: I go from 977 to 1033. 1002 is down
17 below that.

18 MR. MORRIS: Well, you have more than one set of
19 documents. You have a complete set. The relevant page
20 would be 1004 if we can find it.

21 MR. ROBINSON: Page 1004.

22 MR. MORRIS: If you'll look on page 1004 on the
23 date of 4/19 at 15:12.

24 MR. ROBINSON: 4/19; 15:12. I'll mark that.

25 MR. MORRIS: Feel free. That purports to

CKM

CKM

1 represent a call made 15:12; seven point five minutes in
2 duration to area code 404-331-6299, which is the phone
3 number of Mr. Brockman.

4 MR. ROBINSON: And where does it -- does it show
5 that it is coming from speaker inverness, room 430?

6 MR. MORRIS: No. If you'll notice on the left --

7 MR. ROBINSON: Extension number 7122.

8 MR. MORRIS: 7122 is Mr. McCoy's code number for
9 long distance phone --

10 THE WITNESS: My extension number.

11 MR. MORRIS: And because you see next to the 6299
12 a blank, that means the call is made from the office; is
13 that correct?

14 THE WITNESS: That's correct.

15 MR. MORRIS: And to Atlanta, Georgia. That's the
16 first phone call of note. The second phone call would be
17 found on page 1047 on -- the date is 5/24.

18 MR. ROBINSON: 5/24. Time?

19 MR. MORRIS: There are three phone calls.

20 MR. ROBINSON: All to the same number.

21 MR. MORRIS: All to the same number, all from
22 Birmingham office. And you'll see the extension number is
23 7122, is Mr. McCoy.

24 The next relevant page would be page number -- I
25 believe it's 971. The date is 6/14. There are two phone

CKM

CKM

1 calls to that same number that purports to be Mr. Brockman.

2 Now, please note that these records represent that
3 the phone calls were made by Mr. Bill Shipman. Mr. McCoy is
4 not going to tell you that he made those phone calls, but
5 it's his belief -- I'll let you ask him about it, but it's
6 his belief that the calls were made by Mr. Shipman after
7 directed by Mr. McCoy.

8 BY MR. ROBINSON:

9 Q Is that your testimony, Mr. McCoy?

10 A Yes; it is.

11 MR. MORRIS: The next relevant page would be 973.

12 MR. ROBINSON: I don't find that one.

13 MR. MORRIS: Okay. I'm going to give you my 973.
14 973, please note and highlighted in blue are phone calls --
15 excuse me -- is a phone call. The second one is
16 inadvertently highlighted.

17 MR. ROBINSON: Okay.

18 MR. MORRIS: The first phone call dated 7/10 at
19 approximately 08:06 is made to Mr. Brockman from Mr. McCoy's
20 phone. And that should be --

21 BY MR. ROBINSON:

22 Q And do these enumerated phone calls correspond
23 directly to the daytimers that you presented to me earlier,
24 or are you testifying that these calls are also explanatory
25 with respect to diesel generator information in addition to

CKM

CKW

1 the --

2 A These are calls that I believe to be relevant
3 calls that I made regarding information on the diesel
4 generators. It's not -- some of those are in time frames
5 that I did not have my notebook, so I could not --

6 MR. ROBINSON: Let me ask you this, Mr. Morris:
7 Are these other stapled pages of phone -- are there any
8 relevant phone calls in here, or should I just keep the
9 packets that you identified as --

10 MR. MORRIS: I believe the only ones that we are
11 aware of are the ones that I identified for you. I gave you
12 the others so that you would have them in context; that's
13 all.

14 MR. ROBINSON: Okay.

15 BY MR. ROBINSON:

16 Q Mr. McCoy, I'll show you -- are there any other
17 items that you want to present in evidence at this time
18 before we continue?

19 A There is a set of notes that I found on August
20 17th that appears to be my notes related to the OSI issues
21 and indicates that we discussed the error in the diesel
22 generator number of starts report and offered to supply
23 additional data if necessary.

24 Q These would be notes of your meeting with the OSI
25 team?
