Operating Reactor Branch No. 4
Division of Operating Reactors

Washington, D.C. 20555

Dear Mr. Stolz:

On October 3, 1983 (Serial No. 987) Toledo Edison responded to Mr. D. G. Eisenhut's letter of February 8, 1983 (Log No. 1222) concerning Resolution of TMI Action Item II.K.3.5 "Automatic Trip Reactor Coolant Pumps" (Generic Letter 83-10). In that letter we planned to submit our report for the raised loop unit two months after receipt of the report for the lower loop units. The revisions by B&W on the applicable sections on the raised configuration will take longer than originally planned. The report for Davis-Besse Nuclear Power Station Unit No. 1 will be submitted by July 31, 1984.

Very truly yours,

A handwritten signature in cursive script, appearing to read 'R. P. Crouse'.
