9 BOCKHOLD: Yeah. God, I hope we get out of these  
10 switches (Inaudible). Well, we are getting, you know, the IIT is  
11 really looking at switch operability and the one last diesel  
12 test.

13 MOSBAUGH: Right.

14 BOCKHOLD: The regional NRC people are looking at  
15 diesel operability and what is required to release us to start up  
16 unit 1.

17 MOSBAUGH: Right.

18 BOCKHOLD: We really need to talk [NRC, GPC: through  
19 this.] [INT: to Gus.]

20 (Long pause.)

21 MOSBAUGH: What is this for, Thursday?

22 BOCKHOLD: [NRC, GPC: Er,] [INT: well,] that is for  
23 Brockman.

24 MOSBAUGH: Brockman.

25 BOCKHOLD: Brockman [NRC, GPC: needs to] [INT: to]  
26 (inaudible).

27 MOSBAUGH: Oh, this is the information.

28 BOCKHOLD: (Inaudible) Stew Ebnetter.

29 MOSBAUGH: Okay, for Brockman to Ebnetter.

30 BOCKHOLD: And I've got people already working on that.  
31 And I am working on a executive summary on diesel operability  
right now.

1                   MOSBAUGH: Okay.

2                   BOCKHOLD: So right now Kochery is working on testing  
3 of the diesels.

4                   MOSBAUGH: Right, right.

5                   BOCKHOLD: Okay. And there are various tests there.  
6 BRINEY is working on pulling some more data out on switches.

7                   MOSBAUGH: Right, work history and Gus is going to look  
8 at start history.

9                   BOCKHOLD: Yeah. Gus is looking at start history and  
10 since Ken is off to Disney World, I pulled George Frederick and  
11 Jim Roberts in to write a critique summary for Brockman on that  
12 list. We probably need a central collections point in John's  
13 organization --

14                   MOSBAUGH: Yeah.

15                   BOCKHOLD: -- to pull all this stuff together and log  
16 it so we don't lose it.

17                   MOSBAUGH: Yeah. That is what we wanted to talk about.  
18 Maybe we can do that tomorrow, like I said, after 7:30, and talk  
19 -- yeah, we can certainly put Herb Beecher right back in the  
20 middle of this thing again.

21                   BOCKHOLD: That's fine with me, okay. But I agree with  
22 you, we need (Inaudible) -- the organization

23                   MOSBAUGH: We will take about the organization, you  
24 know, cause they didn't just go away, they just went someplace  
25 else and --

26                   BOCKHOLD: Made it harder, in fact.

1 MOSBAUGH: -- made the communications harder.  
2 BOCKHOLD: That's right.  
3 MOSBAUGH: Okay  
4 BOCKHOLD: (Inaudible) why don't you (inaudible)  
5 MOSBAUGH: I'll do that.
