Perry Nuclear Power Plant
Docket No. 50-440; 50-441
Acceptance of LRG II Proposed
Solutions for Generic Issue
4-MEB; LPCI Modifications

Dear Mr. Youngblood:

This letter is provided in response to your letter dated December 14, 1983 in which you requested a confirmation from each LRG II member to implement the LRG II proposed solution for Generic Issue 4-MEB, on LPCI Modifications. The LRG II proposed solution was found to be acceptable by the staff as described in your letter.

The Cleveland Electric Illuminating Company, as a member of LRG II, hereby endorses the LRG II proposed solution for Generic Issue 4-MEB that was submitted to the LRG II Project Manager, John J. Stefano, by Dale L. Holtzsch (Chairman, LRG II) in a letter dated September 19, 1983.

We feel that this response should allow for the resolution of this generic issue to be reflected in our next supplement to the SER.

Very truly yours,

Murray R. Edelman
Vice President
Nuclear Group
