Executive Vice President
Carolina Power & Light Company
Post Office Box 1551

Dear Mr. Utley:

SUBJECT: RESPONSE TO NUREG-0737, ITEM II.K.3.18,
ADS MODIFICATION

Re: Brunswick Steam Electric Plant, Units 1 and 2

By letter dated February 2, 1984, the NRC requested that the Carolina Power & Light Company (CP&L) comply with the requirements of NUREG-0737, Item II.K.3.18 by choosing between alternative modifications that the staff has found acceptable.

As a result, CP&L submitted a letter dated March 8, 1984 that commits the utility to modifying the ADS logic by eliminating the high drywell pressure permissive and adding manual inhibit switches. This modification was found acceptable by the staff and was stated as such in a June 3, 1983 letter to CP&L.

Based on the March 8, 1984 commitment, we consider this issue to be closed.

Sincerely,
