Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-498/91-20; 50-499/91-20

Thank you for your November 22, 1991, letter in response to the five exercise weaknesses identified during the 1991 annual emergency response exercise at the South Texas Project Electric Generating Station. We have reviewed your corrective actions and the schedule for completing those actions and found them to be responsive to the concerns identified in NRC Inspection Report 50-498/91-20; 50-499/91-20. We will review the implementation of your corrective actions during a future inspection.

Sincerely,

Original signed by
