JAN 10 1992

Docket No. 50-266  
Docket No. 50-301

Wisconsin Electric Power Company  
ATTN: Mr. James J. Zach  
Vice President  
Nuclear Power  
231 West Michigan Street - P379  
Milwaukee, WI 53201

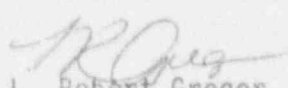

Dear Mr. Zach:

We have received your letter dated December 13, 1991, which transmitted the December 1991 revision to the Point Beach Nuclear Plant Emergency Plan. We have reviewed this revision and have determined that it is acceptable and does not decrease the effectiveness of your emergency planning for the Point Beach Plant.

The revised plan includes several refinements to the plant's emergency action levels. Several minor changes to the responsibilities assigned to certain emergency response positions are also indicated in the revised plan. The document also describes the new location of the Backup Emergency Operations Facility, which was approved by the Commission in 1990. Changes to position titles in the plant's normal organization are also indicated in the 1991 emergency plan revision.

If you have any questions, please have your staff contact Mr. T. Ploski of my staff at (708) 790-5634.

Sincerely,

  
L. Robert Greger, Chief  
Reactor Programs Branch
