Walnut Creek, CA 94596

Attention: J.B. Martin, Regional Administrator

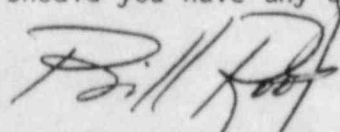

Subject: NUCLEAR PROJECTS NO. 1 AND 4
DOCKET NOS. 50-460 AND 50-513
QUALITY ASSURANCE PROGRAM DESCRIPTION

Reference: Letter G01-83-0115, dated March 25, 1983, same subject

As required by 10CFR50.54(a), attached are the Quality Assurance program descriptions which are currently being implemented at WNP-1/4. The only changes which have been made since the submittal which was transmitted via the above noted reference are position title changes, minor organizational structure changes, several editorial changes and an update of the general list of documents controlled by UE&C document control procedures.

Deviation No. 17.1-6 (WP) Rev. 2 includes a proposed organization change which has been submitted to the NRC for approval by WNP-2. Although not yet received, NRC approval is expected in the near term. Due to the current extended construction delay at WNP-1/4, this anticipated organizational change does not effect the activities currently taking place on the Project.

Should you have any questions regarding this subject please advise.

R.W. Root, Jr.
WNP-1 Program Director

RWR/CRE/cmh
