Gentlemen:

SUBJECT: DOCKET NOS. 50-369 AND 50-370

This acknowledges the receipt of your letter of December 23, 1991, concerning Revision 44 to the Physical Security Plan, Revision 7 to the Safeguards Contingency Plan, and Revision 12 to the Training and Qualification Plan for your McGuire facility.

Based on a conversation between Ms. O. Masnyk of the NRC and Messrs. Cross, Godfrey, and Keener of Duke Power Company on January 6, 1992, we understand that you will include the following clarifications into these revisions. In Section 1.5 of the Contingency Plan and Section 14.1 of the Physical Security Plan, the statement that the annual audits of the security program will be performed by individuals independent of both security management and security supervision, and the scope of the audits, will be put back. Also, Section 3.2.2.1 of the Security Plan will contain a statement that material will not be permanently stored in the cargo access area.

Our review of the changes has found them to be consistent with the provisions of 10 CFR 50.54(p). Accordingly, they are acceptable for inclusion into the plan.

The enclosure to your letter is being withheld from public disclosure because it contains Safeguards Information and must be protected in accordance with the provisions of 10 CFR Part 73.21.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

Douglas M. Collins, Chief  
Nuclear Materials Safety  
and Safeguards Branch
