

MAY 16 1984

DCS MS-016

Docket No. 50-368

Mr. John M. Griffin  
Senior Vice President-Energy Supply  
Arkansas Power & Light Company  
P. O. Box 551  
Little Rock, Arkansas 72203

Dear Mr. Griffin:

In your letter dated April 23, 1984, you informed us that the submittal of the revised Technical Specifications change request pertaining to the snubber surveillance for ANO-2 would be delayed until May 19, 1984.

We have reviewed the reasons stated in your letter as to why AP&L could not meet our mutually agreed upon submittal date of April 26, 1984 (60 days after the end of the third refueling outage) and find them acceptable. Accordingly, you are requested to provide NRC with your revised submittal of the Technical Specifications change request pertaining to the snubber surveillance for ANO-2 by May 19, 1984.

Should you have any questions, please contact your project manager, R. Lee, at 301-492-7090.

Sincerely,

Original signed by:

James R. Miller, Chief  
Operating Reactors Branch #3  
Division of Licensing
