Subject: Catawba Nuclear Station
Docket Nos. 50-413 and 50-414
Technical Specification Amendment Request Withdrawal
Containment Penetration Conductor Overcurrent Protective Devices

Hal B. Tucker's letter dated April 24, 1990 submitted a request to relocate the Catawba Nuclear Station Technical Specification Tables 3.8-1a and 3.8-1b (Units 1 and 2 Containment Penetration Conductor Overcurrent Protective Devices, respectively) to the Final Safety Analysis Report Chapter 16, Selected Licensee Commitments. Duke Power needs additional time to review the impact of Generic Letter 91-08 on this amendment request. Therefore, Duke Power is withdrawing this amendment request, and will resubmit it at a later date. (Please note that the April 24, 1990 letter was a single submittal for both McGuire and Catawba and that this withdrawal of the amendment request applies to Catawba only.)

Very truly yours,
