FROM: Samuel J. Chilk, Secretary

SUBJECT: STAFF REQUIREMENTS - DISCUSSION OF GRAND
GULF DIESEL GENERATOR INSPECTION ORDER,
10:00 A.M., THURSDAY, MAY 24, 1984,
COMMISSIONERS' CONFERENCE ROOM, D.C.
OFFICE (OPEN TO PUBLIC ATTENDANCE)

The Commission* was briefed by staff on recent staff actions revising technical specifications for Grand Gulf-1 (ref: staff letters to licensee dated 4/18/84, 4/25/84 and 5/22/84).

The Commission by a vote of 3-1 did not support Commissioner Asselstine's proposal to revoke that portion of the staff's order that orders the technical specification modifications for the plant. (Commissioner Asselstine voted in favor; Chairman Palladino and Commissioners Roberts and Bernthal voted against.)
(NRR)

The Commission requested that the General Counsel review the regulatory and legal requirements concerning staff authority in this matter and report to the Commission immediately.
(OGC)

The Commission noted that representatives of Mississippi Power and Light (the licensee) would respond later on the rating of the non-TDI generator.
