Docket No. 50-142

Dr. Walter F. Wegst, Director Office of Research and Occupational Safety Community Safety Department University of California, Los Angeles Los Angeles, California 90024

Dear Dr. Wegst:

in regard to your April 24, 1984 letter to Harold Bernard requesting an rendment to your license, please be advised that, as required by 10 CFR 50.30 (enclosed), your application for amendment must be notarized and addressed to the Director of Nuclear Reactor Regulation, U. S. Nuclear Regulatory Commission, Washington, D.C. 20555.

Following receipt of your notarized resubmittal, we will review your amendment request. If you have any questions please contact your Project Manager, Harold Bernard, at (301) 492-9799.

Sincerely,

Cecil O. Thomas, Chief Standardization and Special Projects Branch Division of Licensing

Roger Kohn, Esq. P. O. Box 1186 Ben Lomond, California 95005 £ 50.22 Class 103 licenses: for commercial and industrial facilities.

A class 103 license will be issued, to an applicant who qualifies, for any one or more of the following: To transfer or receive in interstate commerce. manufacture, produce, transfer, acquire, possess, or use a production or utilization facility for industrial or commercial purposes; Provided, however. That in the case of a production or utilization facility which is useful in the conduct of research and development activities of the types specified in section 31 of the Act, such facility is deemed to be for industrial or commercial purposes if the facility is to be used so that more than 50 percent of the annual cost of owning and operating the facility is devoted to the production of materials, products, or energy for sale or commercial distribution, or to the sale of services, other than research and development or education or training.

£ 50.23 Construction permits.

A construction permit for the construction of a production or utilization facility will be issued prior to the issuance of a license if the application is otherwise acceptable, and will be converted upon due completion of the facility and Commission action into a license as provided in § 50.56 of this part. A construction permit for the alteration of a production or utilization facility will be issued prior to the issuance of an amendment of a license, if the application for amendment is otherwise acceptable, as provided in § 50.91.

§ 50.24 (Deleted)

Applications for Licenses, Form. Contents, Ineligibility of Certain Applicants

\$ 50.30 Filing of applications for licenses; oath or affirmation.

(2) Place of filing. Each application for a license, including where appropriate a construction permit, or amendment thereof, and each amendment of such application, and correspondence, reports, or other written communications from the applicant to the Commission pertaining to such application, for a nuclear reactor, testing facility or other utilization facility, should be filed with the Director of Nuclear Reactor Regulation, U.S. Nu-

clear Regulatory Commission, Washington, D.C. 20555. Each application for a license, including where appropriate a construction permit, or amendment thereof, and each amendment of such application, and correspondence, reports, or other written . communications from the applicant to the Commission pertaining to such application, for a fuel reprocessing plant or other production facility, should be g filed with the Director of Nuclear Ma-terial Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Communications, reports, correspondence, and applications may be delivered in person at the Commission's offices at 1717 H Street NW., Washington, D.C. or at 7920 Norfolk Avenue, Bethesda, Maryland.

(b) Oath or affirmation. Each application for a license, including whenever appropriate a construction permit, or amendment thereof, and each amendment of such application should be executed in three signed originals by the applicant or duly authorized officer thereof under oath or

affirmation.

(c) Number of copies of application.

(1) Each filing of an application for a license to construct and operate a production or utilization facility (including amendments to such applications) should include three signed originals and the following number of copies:

(i) For an application for a license for a facility described in § 50.21(b) or § 50.22, or a testing facility: Fifteen (15) copies of that portion of the application containing the information required by §§ 50.33 and 50.37 (genera) information) and forty (40) copies of that portion of the application containing any of the information required by \$5 50.34 and 50.34a (safety analysis report) except that sixty (60) copies shall be filed if such portion of the application is an amendment to the safety analysis report; an additional ten (10) copies of the general information and thirty (30) copies of the safety analysis report, or part thereof or amendment thereto, shall be retained by the applicant for distribution in accordance with the written instructions of the Director of Nuclear Reactor Regulation or Director of Nuclear Material Safety and Safeguards, as appropriate. The Director of Nuclear Reactor Regulation or Director of Nuclear Material Safety and Safeguards may request additional copies of applications and the safety analysis report where the design is of a unique nature or for applications submitted pursuant to this Part 50. Appendices M. N. and O.

(ii) For an application for an amendment to a license for a facility described in § 50.21(b) or 50.22, or a testing facility: Nineteen (19) copies of that portion of the application containing the information required by § 50.33 (general information) and 40 copies of that portion of the application containing the information required by §§ 50.34 and 50.34a (safety analysis report);

(iii) For an application for a license for any other facility, or an amendment to a license for such facility: Nineteen (19) copies of that portion of the application containing the information required by §§ 50.33 and 50.37 (general information) and that portion of the application containing the information required by §§ 50.34 and 50.34a (safety analysis report);

(iv) For an application for a license for a production or utilization facility: Forty-one (41) copies of any applicant's environmental report required

by Part 51 of this chapter.

(2) With respect to an application for a license described in paragraph (c)(1)(i) of this section, the applicant shall, upon notification by the atomic safety and licensing board appointed to conduct the public hearing required by the Atomic Energy Act for the issuance of a construction permit, update the application and serve such updated copies of the application or parts thereof, eliminating all superseded information, together with an index of the updated application, as directed by the atomic safety and licensing board In addition, at that time the applicant shall serve one such copy on the Atomic Safety and Licensing Appeal Panel. Further, at the time the application is offered into evidence at the public hearing on the application, the applicant shall provide sufficient up dated copies so that one may be served by the Office of the Secretary on the Atomic Safety and Licensing Appeal E Panel. Any subsequent amendments to the application shall be served on those served copies of the application. and three signed originals and the specified number of copies of such amendments shall be filed with the Director of Nuclear Reactor Regulation or Director of Nuclear Material Safety and Safeguards, as appropriate as provided in paragraph (c)(1)(i) of this section. At the time of filing of such an application, one copy shall be made available in an appropriate office near the site of the proposed facility for inspection by the public and updated as amendments to the application prior to the public hearing may be made. This updated copy shall be produced at the public hearing for the use of any other parties to the proceeding The applicant shall certify that the

a dated copies of the application contain the current contents of the application submitted in accordance with the requirements of this part. The applicant shall also update and serve copies of the application and make available a copy of such updated application in an appropriate office near the site of the facility for inspection by the public at such time as the Commission may issue a notice of public hearing concerning the issuance of an operating license.

(3) The copies required by paragraphs (b) and (c) (1) and (2) of this section need not be filed until that part of the application has been assigned a docket number or docketed pursuant to § 2.101(a) of this chapter. The following number of copies shall be filed to enable the Director of Nuclear Reactor Regulation or Director of Nuclear Material Safety and Safe-A guards, as appropriate, to determine whether the application is sufficiently complete to permit the assignment of a docket number or docketing as appropriate.

(i) Fifteen (15) copies of that portion of the application containing any of the information required by \$\$ 50.34 and 50.34a (safety analysis report);

(ii) Ten (10) copies of that portion of the application containing the general information required by § 50.33; and

(iii) Twenty (20) copies of any environmental report required by Part 51 of this chapter.

(d) Application for operating licenses. The holder of a construction permit for a production or utilization facility shall, at the time of submission of the final safety analysis report. file an application for an operating license or an amendment to an application for a license to construct and operate a production or utilization facility for the issuance of an operating li-cense, as appropriate. The application or amendment shall state the name of g the applicant, the name, location and power level, if any, of the facility and the time when the facility is expected to be ready for operation, and may incorporate by reference any pertinent information submitted in accordance with § 50.33 with the application for a construction permit.

(e) Filing Jecs. Each application for a production or utilization facility license, including, whenever appropriate, a construction permit, other than a license exempted from Part 170 of this chapter, shall be accompanied by the fee prescribed in Part 170 of this chapter. No fee will be required to accompany an application for renewal. amendment or termination of a construction permit or operating license. except as provided in § 170.21 of this chapter.

(f) Environmental report An application for a construction permit or an operating license for a nuclear power reactor, testing facility, fuel reprocessing plant, or such other production or willization facility whose construction or operation may be determined by the Commission to have a significant impact on the environment shall be accompanied by any Environmental Report required pursuant to Part 51.

§ 50.31 Combining applications.

An applicant may combine in one his several applications for different kinds of licenses under the regulations in this chapter.

\$ 50.32 Elimination of repetition.

In his application, the applicant may incorporate by reference information contained in previous applications, statements or reports filed with the Commission: Provided, That such references are clear and specific.

§ 50.33 Contents of applications; general information.

Each application shall state:

(a) Name of applicant;

(b) Address of applicant:

(c) Description of business or occupation of applicant:

(d) (1) If applicant is an individual.

state citizenship.

- (2) If applicant is a partnership, state name, citizenship and address of each partner and the principal location where the partnership does busi-
- (3) If applicant is a corporation or an unincorporated association, state:
- (1) The state where it is incorporated or organized and the principal location where it does business:
- (ii) The names, addresses and citizenship of its directors and of its principal officers:
- (iii) Whether it is owned, controlled. or dominated by an alien, a foreign corporation, or foreign government, and if so, give details.
- (4) If the applicant is acting as agent or representative of another person in filing the application, identify the principal and furnish information required under this paragraph with respect to such principal.
- (e) The class of license applied for. the use to which the facility will be put, the period of time for which the license is sought, and a list of other licenses, except operator's licenses, issued or applied for in connection with the proposed facility.

(f)(1) Information sufficient to demonstrate to the Commission the financial qualifications of the applicant to carry out, in accordance with regulations in this chapter, the activities for which the permit or license is sought. However, no information on financial qualifications, including that in paragraphs (fil) (i) and (ii) of this section is required in any application. nor shall any Enancial review be conducted, if the applicant is an electric utility applicant for a license to construct or operate a production or utilization facility of the type described in \$ 50.21(b) or \$ 50.22

(i) If the application is for a construction permit the applicant shall submit information that demonstrates the applicant possesses or has reasonable assurance of obtaining the funds necessary to cover estimated construction costs and related fuel cycle costs. The applicant shall submit estimates of the total construction costs of the facility and related fuel cycle costs, and shall indicate the source(s) of funds to cover these costs.

(ii) If the application is for an operating license, the applicant shall submit information that demonstrates the applicant possesses or has reasonable assurance of obtaining the funds necessary to cover estimated operation costs for the period of the license, plus the estimated costs of permanently shutting the facility down and maintaining it in a safe condition. The applicant shall submit estimates for total annual operating costs for each of the first five years of operation of the facility and estimates of the costs to permanently shut down the facility and maintain it in a safe condition. The applicant shall also indicate the source(s) of funds to cover these costs. An application to renew or extend the term of an operating license must include the same financial information as required in an application for an initial license.

(2) Except for electric utility applicants for construction permits and operating licenses, each application for a construction permit or an operating license submitted by a newly-formed entity organized for the primary purpose of constructing or operating a facility must also include information showing

(i) The legal and financial relationships it has or proposes to have with its stockholders or owners;

- (ii) Their financial ability to meet any contractual obligation to the entity which they have incurred or propose to incur and
- (iii) Any other information considered necessary by the Commission to enable it to determine the applicant's financial qualifications.
