SUBJECT: DAILY HIGHLIGHT

GRAND GULF UNIT 1

By letter dated May 25, 1984, MP&L has informed us of their intention to submit a request for exemption from GDC 17 (Electric Power Systems) by June 4, 1984. They were requested to file for this exemption during the May 18, 1984 meeting regarding onsite/offsite AC power reliability.

The Division 1 TDI diesel engine has been completely disassembled and inspection of the components has been initiated in accordance with our order of May 22, 1984. The staff and their consultants will visit Grand Gulf on June 4, 1984 to observe and discuss these inspections, discuss recent Owner's Group recommendations as they apply to these inspections and exchange information from other inspections.
