San Jose, California 95125

SUBJECT: REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE, GENERAL ELECTRIC (GE) DRAFT SECTION 19AA SUCCESS CRITERIA ANALYSIS

Dear Mr. Quinn:

By letter dated May 13, 1992, GE Nuclear Energy (GE) submitted draft Section 19AA "Success Criteria Analysis" and requested that they be withheld from public disclosure. This request was made in accordance with 10 CFR 2.790 and is supported by affidavit executed by David J. Robare, dated May 14, 1992.

We have reviewed your letter and the subject analysis in accordance with the requirements of 10 CFR 2.790. During the course of our review we have determined that the information provided has been released to the public in Section 19AA of the Simplified Boiling Water Reactor Standard Safety Analysis Report, dated February 28, 1993. Whereas, GE has made the subject information available to the public (letter from P.W. Marriott, dated February 25, 1993) there is no longer a need to make a proprietary determination. Therefore, the staff plans to remove the copies of the draft Section 19AA "Success Criteria Analysis" from our file and dispose of them in a manner consistent with the treatment of proprietary information. If you disagree with this action, please notify the staff within 10 days of receipt of this letter.

Sincerely,

Original signed by
Dino C. Scaletti, Project Manager
Standardization Project Directorate
Division of Reactors Program Management
Office of Nuclear Reactor Regulation
