Dr. Nils J. Diaz
Professor and Director
of Nuclear Facilities
Department of Nuclear Engineering Sciences
102 Nuclear Reactor Building
University of Florida
Gainesville, Florida 32611

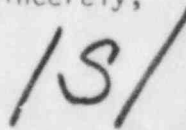

Dear Dr. Diaz:

The staff of the U. S. Nuclear Regulatory Commission (NRC) has completed its review and evaluation of the revised emergency plan for the University of Florida Training Reactor facility that was submitted on October 15, 1983, in compliance with 10 CFR 50.54(q) and (r). The plan was reviewed against the requirements of Appendix E to 10 CFR Part 50, the guidance criteria set forth in Revision 1 to Regulatory Guide 2.6 and ANSI/ANS-15.16-1982, "Emergency Planning for Research Reactors."

Based on its review, and as discussed in the enclosed safety evaluation, the staff concludes that the emergency plan for the University of Florida reactor facility meets both the requirements of the regulations and the guidelines provided to you and is, therefore, acceptable. We request that you begin to implement your approved emergency plan immediately, with full implementation to be accomplished within 120 days of the date of this letter. Furthermore, you are requested to inform us by letter of the date on which complete implementation is achieved.

If you have any questions, please contact Harold Bernard, our Project Manager for your facility, at (301) 492-9799.

Sincerely,

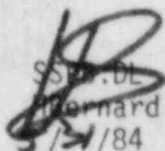

Cecil O. Thomas, Chief
