

DMB

June 6, 1984

Docket No. 50-341

The Detroit Edison Company  
ATTN: Wayne H. Jens  
Vice President  
Nuclear Operations  
2000 Second Avenue  
Detroit, MI 48226

Gentlemen:

Thank you for your letter dated April 26, 1984 which included the scope and objectives for the Fermi-2 full-scale exercise scheduled for June 26-27, 1984. Based on conversations between Mrs. E. Madsen of your staff and Mr. J. Patterson of my staff, we understand that the objectives for assembly/accountability and post-accident sampling and analysis will not be demonstrated due to the inoperability of required equipment. These objectives will be treated as Open Items for this exercise. The remainder of the objectives and scope of the exercise is acceptable. In response to your request, the Region III Base Team will participate in the second day of your exercise.

Your cooperation with us is appreciated. If you have any questions, please contact Mr. J. P. Patterson of my staff at (312) 790-5536.

Sincerely,

C. J. Paperiello, Chief  
Emergency Preparedness and  
Radiological Safety Branch
