Re: Diablo Canyon Nuclear Power Plant, Unit 1
Docket Number 50-275

Dear Commissioners:

This letter is to further extend until Friday, June 15 the deadline for Commission action in response to the May 3, 1984 petition by the Mothers for Peace under 10 CFR 2.206. The reasons for the extension are twofold:

1) Counsel is continuing to receive significant evidence that is relevant for your decision on the petition. It must be assimilated and prepared for the record. At the same time, counsel has been seeking with some success to disclose the evidence to NRC representatives on an ongoing basis.

2) The Mothers seek the opportunity to obtain and review available records from the licensee's low-power testing program, for inclusion in the petition record.

Respectfully submitted,

Thomas Devine
