Metropolitan Edison Company
(Three Mile Island Nuclear Station, Unit No. 1)
Docket No. 50-289

Dear Chairman Edles and Administrative Judges Buck and Kohl:

In accordance with our practice of notifying the Appeal Board and the parties of changed circumstances or new information on issues under consideration, Licensee hereby provides the public announcement, issued yesterday, of its appointment of Mr. Franklin Standerfer as Director of TMI-2. Mr. Standerfer will join GPU Nuclear in July, 1984 and will be

THREE MILE ISLAND INFO / UPDATE

PUBLISHED BY GPU NUCLEAR COMMUNICATIONS DIVISION

Issue No. Vol. IV, No. 30

Ext. 8197

Date June 7, 1984

In a memo to Division Directors dated June 7, GPU Nuclear President Philip R. Clark made the following announcement:

I am pleased to announce that Franklin Standerfer will join GPU Nuclear as Director TMI-2 about July 23, 1984, reporting to the Office of the President. In that position he will during August replace Mr. Bahman Kanga, who will transfer to another assignment within Bechtel.

Mr. Standerfer has had extensive experience in the management of nuclear research and development and project activities, including: decontamination of shutdown nuclear facilities, nuclear materials handling and processing, production reactor operations, radioactive waste management, developmental reactor design and construction, and large contract administration.

In his most recent position as Assistant Manager for Defense and Energy Programs at the DOE's Richland Operations Office, he supervised the refurbishment and return to operation of the Purex nuclear fuel processing plant. He was also responsible for the management of defense nuclear waste at the Hanford site and was the Government official responsible for the overall technical direction of the Pacific Northwest Laboratory, a multi-program research and development laboratory. The programs he supervised had annual operating budgets totalling more than \$500 million.

Mr. Standerfer has a degree in Chemical Engineering from the University of Washington and attended the Oak Ridge School of Reactor Technology and the Federal Executive Institute. During his federal service he was the recipient of many Senior Executive Service achievement awards.

I am confident that Mr. Standerfer's background and demonstrated abilities as a technical manager will enable him to respond effectively to the many difficult tasks comprising the recovery operations of TMI-2.
