 J.O. No. 14509
 NRC File #83-10-21

RE: DOCKET NO. 50-329/330
 MIDLAND PLANT - UNITS 1 AND 2
 OVERVIEW OF THE CONSTRUCTION COMPLETION PROGRAM

In accordance with the requirements of the Midland Project Quality Assurance Department (MPQAD) procedure N-6, Rev. 1, "Processing of Construction Implementation Overview Deficiencies;" Quality Action Requests (QAR) have been submitted to the Construction Implementation Overview (CIO), providing corrective action in response to CIO NIRs 002 003, 004, 005.

CIO has reviewed the proposed corrective actions and have the following comments:

- 1) QAR No. RT 0005 issued for NIR 002

CIO concurs with proposed corrective action and is in agreement that the information contained on form QA-37-0 is similar with form QA-37-1. Therefore CIO concurs that the completed forms QA-37-0 now on file, do not require corrective action.

- 2) QAR No. RT 0006 issued for NIR 003

CIO concurs with the proposed corrective action.

- 3) QAR No. RT 0007 issued for NIR 004

CIO concurs with the proposed corrective action.

- 4) QAR No. RT 00011 issued for NIR 005

CIO has verified that the correct forms do exist in the training folders. No corrective action is required by MPQAD. This NIR will be closed.

Very truly yours,

S. W. Baranow
 Program Manager

Subsection 4.2.3 of the Construction Completion Program (CCP) forwarded by the letter of August 26, 1983 to Mr. J. G. Keppler from Mr. J. W. Cook discusses training for each organization, management, and staff level. The CIO understands that a separate training program exists for CPCo staff members. An assessment of that program by the CIO has been planned. Preliminary contact with your staff, however, indicates that this training program may not be structured as an auditable activity but setup as more of an informal informational program. Your comments on this matter would be appreciated.
