Jeanne Hunt, OI

FROM: Russell A. Powell  
Chief, FOIA/LPDR Branch, ADM *[Signature]*

SUBJECT: REVISED SEARCH SCOPE FOR FOIA-~~95~~<sup>94</sup>-515

During a telephone conversation on February 10, 1995, between Gigi Rammling and the requester (Rita Lari), the scope of FOIA-~~95~~<sup>94</sup>-515 was revised. It was agreed that the scope of her request would be limited to records regarding revocation of access and/or access denial to protected areas of a nuclear power plant, excluding documentation specifically associated with the revocation of Mr. Thomas Saporito's access. The timeframe for the search should cover May 1991 through November 22, 1994, within the following three categories:

1. copies of NRC records of safeguards events reports made under Part 73.71;
2. copies of logs or records of the NRC Operations Center events reports; and
3. copies of any internal NRC guidance dealing with adjudication that results in access denial or access revocation (other than generic letters, regulatory guides, inspection reports or enforcement manuals).

Please report your office's estimate(s) for search, review and duplication by telephone to the Branch contact within three working days from date of receipt of this memo. A copy of the November 22, 1994 initial request is attached.

Based on the above revised scope of this request, the offices cc'd below may close out FOIA-~~95~~<sup>94</sup>-515 without further action.
