Mr. J. G. Keppler
Regional Administrator
U. S. Nuclear Regulatory Commission
Region III
799 Roosevelt Road
Glen Ellyn, IL 60137

Dear Mr. Keppler:

Reference: Fermi-2
NRC Docket No. 50-341

Subject: FERMEX 84 - Fermi-2 Full-Scale Exercise
June 26-27, 1984
Scenario Data

For your information, we are submitting four copies of the scenario messages and data sheets for FERMEX 84, three copies for Region III and one copy for Paul Byron, the Site Inspector. This information is confidential (proprietary) and may not be shared with those individuals who will be Players on June 26 or 27. It is our understanding that the Region III Base Team will be participating June 27.

Since we provided the Summary of Events well in advance, the enclosed information is in response to the 45 day and 20 day request for the Summary of Events and Scenario data.

An up-to-date list of Players and Controllers and any scenario revisions will be available on June 25 at the NRC briefing to be held at 1:30 p.m. in the Emergency Operations Facility on the Fermi-2 site.

Should you have any questions or comments concerning the above, please contact Mrs. Evelyn Madsen (313) 586-4322.
