Gentlemen:

This refers to the inspection conducted by Mr. J. L. Montgomery of this office during the period April 16-19, 1984, of activities authorized by NRC Construction Permit CPPR-126 for the Comanche Peak Steam Electric Station, Unit 1, and to the discussion of our findings with members of your staff at the conclusion of the inspection.

Areas examined during the inspection included the emergency preparedness appraisal subject areas of training, public information, emergency communications, emergency response facilities, and changes to emergency plans and procedures. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. The findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within 10 days of the date of this letter, and submit written application to withhold information contained therein within 30 days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).
