Subject: NPPD Organization Charts

Dear John:

Enclosed are three (3) copies of NPPD Organization Charts. You will notice that not all of the positions are yet filled and we feel that it may take through most of 1984 to accomplish complete staffing.

At the time I assumed responsibility for the Nuclear activities at the District, the authorized personnel level for the Nuclear Operations and support functions was approximately 207 people. Since there were vacancies at that time, the actual employment was somewhat less probably around 200. At the present time the site and home office employment together in these same areas total approximately 260, which means that since last July we have added approximately 60 people to our Nuclear Group.

I am looking forward to visiting with you within the next month or two in Dallas.

Sincerely,

L. G. Kunc1  
Assistant General Manager - Nuclear
