Gentlemen:

We have received your letter dated December 24, 1991, which transmitted Revision 30 to the Wolf Creek Generating Station Radiological Emergency Response Plan. The plan revision was submitted pursuant to 10 CFR 50.54(q) and involved changes in the descriptions of emergency facilities and communication links, updating the evacuation time estimate study, and assorted minor changes. We have reviewed the changes and determined that they are acceptable and do not degrade the effectiveness of your emergency planning for Wolf Creek Generating Station.

Should you have any questions concerning this letter, please contact Dr. D. Blair Spitzberg of my staff at (817) 860-8191.

Sincerely,

Original signed by

A. Bill Beach, Director  
Division of Reactor Projects
