Re: Omaha Public Power District Fort Calhoun  
Station, Unit No. 1, Docket No. 50-285

Dear Mr. Denton:

As counsel for Omaha Public Power District, we hereby submit three (3) signed originals and nineteen (19) copies of a document entitled "Application for Amendment of Operating License," together with forty (40) copies of the proposed Technical Specifications. The application seeks to amend Figures 5-1 and 5-2 and Sections 5.4, 5.5, 5.6, and 5.7 of the Technical Specifications set forth in Appendix A to that License. These amendments provide certain administrative changes, including updated organizational charts. Omaha Public Power District plans to make these changes effective July 1, 1984. They were discussed in a June 1, 1984 meeting with NRC Region IV and NRR.

The proposed Amendment is deemed to be a Class III Amendment within the meaning of Section 170.22 of the regulations of the U.S. Nuclear Regulatory Commission. Accordingly, a check for the appropriate fee of \$1,200 is also enclosed.
