SUBJECT: NRC INSPECTION REPORT 50-382/95-15

Thank you for your letter of August 2, 1995, in response to our letter of July 7, 1995. Our letter requested you to advise the NRC of the date by which you would be able to provide the results of your efforts to complete identification of the root cause of the faulty bus transfer that occurred at Waterford 3 on June 10, 1995. Your letter stated that you will be able to provide this information by December 15, 1995. This date was selected based on additional testing and troubleshooting on the bus transfer circuitry that must be performed during the Refueling 7 outage which is scheduled to start on September 22, 1995. We have reviewed your reply and find it responsive to the request contained in our July 7, 1995, letter.

Please inform C. VanDenburgh, Chief, Project Branch D, Division of Reactor Projects, upon completion of your root cause analysis.

Sincerely,

Thomas P. Gwynn, Director
Division of Reactor Safety
