MEMORANDUM

On June 6, 1984, CCANP filed a Motion for Reconsideration of our May 22, 1984, Memorandum and Order. The Board invites other parties and participants to respond, under the schedule contemplated by 10 CFR § 2.730(c).

In responding, parties should be aware that the Board's plan for litigating the Quadrex Report remedial actions is to assume (as did the Staff) that the various safety deficiencies alluded to in that Report in fact occurred. See NUREG-0948, issued in February, 1983, § 2.2, at p. 5. For that limited purpose we would be prepared to admit the Quadrex Report into evidence.

CCANP should not assume that the filing of its motion will relieve it of any obligation to proceed expeditiously with the discovery we have
