James A. FitzPatrick Power Plant
Post Office Box 41
Lycoming, NY 13093

SUBJECT: NRC REGION I INSPECTION NO. 50-333/95-14

This refers to the results of the routine resident safety inspection conducted by Messrs. G. Hunegs, R. Fernandes, and others from June 25, 1995 to August 5, 1995, at the James A. FitzPatrick Nuclear Power Plant, Scriba, New York. A summary of the inspection findings was presented to you and members of your staff at the conclusion of the inspection.

This inspection was directed toward areas important to public health and safety. Areas examined during the inspection are described in the NRC Region I inspection report, which is enclosed with this letter. Within these areas, the inspection consisted of observation of activities, interviews with personnel, and document reviews. Overall performance by the FitzPatrick staff was good during this period.

Your conduct of performance enhancement review committee meetings is a noteworthy initiative and appears to be an effective management tool in evaluating plant problems.

Your cooperation with us is appreciated.

Sincerely,
