

UNITED STATES NUCLEAR REGULATORY COMMISSIONLONG ISLAND LIGHTING COMPANYDOCKET NO. 50-322NOTICE OF ISSUANCE OF AMENDMENT TO FACILITYOPERATING LICENSE

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 8 to Facility Operating License No. NFF-82, issued to the Long Island Lighting Company (LILCO, the licensee), which revised paragraph 2.E. of the license for operation of the Shoreham Nuclear Power Station (SNPS, the facility) located in Suffolk County, New York. The amendment was effective as of the date of its issuance.

The amendment revised paragraph 2.E. to the SNPS license allowing reduction of the SNPS Physical Security requirements, such as, vital areas and equipment, systems and procedures, and the required number of armed responders. These physical security program reductions were determined to be acceptable for a nuclear facility such as SNPS, which is in a shutdown and permanently defueled condition.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Notice of Consideration of Issuance of Amendment and Proposed No Significant Hazards Consideration Determination and Opportunity for Hearing in connection with this action was published in the FEDERAL REGISTER on October 2, 1991, (56 FR 49923). No comments or requests for a hearing were received.

For further details with respect to the action, see (1) the application for amendment dated October 9, 1990, and supplemented by letters dated November 4 and 8, 1991, (the supplemental letters did not change the original intent of the application request and did not affect the staff's original no significant hazards determination), (2) Amendment No. 8 to Facility Operating License No. NPF-82, (3) the Commission's related Safety Evaluation, (4) Environmental Assessment, and (5) the Exemption dated January 28, 1992. All of these items are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, N.W., Washington, D.C. 20535, and at the Local Public Document Room located at the Shoreham-Wading River Public Library, Route 25A, Shoreham, New York 11786-9697. A copy of items (2), (3), (4), and (5) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Advanced Reactors and Special Projects.

Dated at Rockville, Maryland this 28th day of January 1992.

FOR THE NUCLEAR REGULATORY COMMISSION

Seymour H. Weiss, Director
Non-Power Reactors, Decommissioning and
Environmental Project Directorate
