Dear Mr. Opeka:

SUBJECT: MILLSTONE NUCLEAR POWER STATION, UNIT 3 -
STATION BLACKOUT EVALUATION (TAC NO. M68568)

By letter dated August 20, 1990, we issued our Safety Evaluation (SE) dealing with the Station Blackout Rule (10 CFR 50.63) for Millstone Nuclear Power Station Unit 3. We found the proposed method of coping with a Station Blackout (SBO) to be acceptable, subject to resolution of certain recommendations. Northeast Nuclear Energy Co. (NNECO) responded to the SE and to the recommendations by letter dated September 26, 1990.

We have evaluated your response to the staff's SE and to each of the staff's recommendations and found your response acceptable. The enclosed SE describes our evaluation. This completes action under TAC No. M68568.

Sincerely,

/s/

Vernon L. Rooney, Senior Project Manager
Project Directorate 1-4
Division of Reactor Projects - 1/11
Office of Nuclear Reactor Regulation

Enclosure:
