

APPENDIX A
NOTICE OF VIOLATION

GPU Nuclear Corporation
Three Mile Island Nuclear Station, Unit 1

Docket No.: 50-289
License No.: DPR-50

As a result of the inspection conducted on April 10 - May 8, 1984, and in accordance with the NRC Enforcement Policy (10 CFR 2, Appendix C, published by Federal Register Notice 49 FR 8583, dated March 8, 1984), the following violation was identified.

Technical Specification 6.8.1 requires, in part, that written procedures important to safety shall be implemented.

Administrative Procedure 1043, Revision 6, January 10, 1984, Control of Plant Modifications, paragraphs 3.8.5 and 3.8.11 require, in part, that the group installing a modification observe the requirements of the installation procedures applicable to a job order(s) and that, upon completion of the work, the group shall sign the completion section of the Job Order listing any deficiencies or incomplete work list items. Job Order A25A-30377, Modification of the Unit 2 Condensate Storage Tank (CST) for Use by Unit 1, requires, in part, the installation of a welded vent cap over a storm drain pipe to prevent CST water overflow (potentially contaminated) directly into the nearby storm drain system.

Contrary to the above, as of April 18, 1984, the vent cap for the storm drain pipe near the Unit 2 CST (designated for use by Unit 1) was not installed and welded. In addition, the associated Job Order was signed off as being complete with no deficiencies or incomplete work items listed regarding the vent cap installation.

This is a Severity Level IV Violation (Supplement I).

Pursuant to the provisions of 10 CFR 2.201, GPU Nuclear Corporation is hereby required to submit to this office, within 30 days of the date of this Notice, a written statement or explanation in reply, including (1) the corrective steps which have been taken and the results achieved; (2) corrective steps which will be taken to avoid further violations; and (3) the date when full compliance will be achieved. Under the authority of Section 182 of the Atomic Energy Act of 1954, as amended, this response shall be submitted under oath or affirmation. Where good cause is shown, consideration will be given to extending your response time.
